Subject: Oppose FPL increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please re-evaluate your decision to approve the largest FPL rate increase coming January 2026. Ratepayers will pay double as residents in their home utility bill and business passing their increased costs unto their goods and services. This will mean for most of us retired or disabled that decisions and choices will be further limited on whether we buy groceries, medications, rent, insurance or pay electric Bill. We will be further squeezed and not be able to afford these essential goods and services. Please carefully consider my request and not approve this greed increase from FPL and the substantial impact and fallout it will have on our everyday lives.

COMPLAINT INFORMATION

Complaint: Other Complaints against Florida Power & Light Company
Details:

I am formally filing a complaint against FPL and the proposed largest rate increase. I am a resident ratepayer on SSDI and cannot afford medications due to costs now FPL wants me choose between my medication and electric Bill. I understand infrastructure is necessary to upgrade electric grid but this is about greed. FFL residents with not only pay residential rates but businesses will also pass their higher utility costs unto us the consumer. Please evaluate your decision to approve this massive increase coming in January 2026 which will greatly impact the most vulnerable residents.

I do not wish to pay Higher electric rates. I feel they are high enough. If we have more people living in Florida Florida, we have more people paying electric bills. So I feel we shouldn't have to raise them.

Dear Florida Public Service Commission PSC,

My name is [NAME], and I am a resident of [COUNTY NAME]. As a member of Florida Rising and a Florida Power & Light customer, I strongly oppose the rate increase request of almost \$10 billion — the largest in US history. This unjust and excessive increase would further cause everyday Floridians, especially Black and Brown communities, to fall deeper into a burden caused by the high costs of living currently.

During the public service hearings, we witnessed firsthand how real Floridians are currently struggling to pay their bills, rent, groceries, and medications. Community organizations are standing up against corporate greed and revealing the conditions that everyday Florida residents are currently experiencing.

The PSC should prioritize consumers by ensuring fair and affordable utility rates. I urge the Public Service Commission to reject this massive rate hike and stand by Floridians and not for-profit corporations. We need affordable and clean energy.

Sincerely,
Mrs. Carolyn Fay

Please don't approve PSC Docket 20250011 is too drastic . I understand they have to make a profit but the 2021 rate hike hurt. PSC Docket 20250011 is bad, too much , please cut it down for FL residents. Please
