Subject

Energy in Florida

Message

Why is Florida buying more wind and solar products from China for mass energy supply?? FERC just approved duke energy increase of 2% over the next 3 years due to storm damages. Everyone I know has had an increase of \$100 per month for the last 3 months, and now i find out that Florida is incresing wind and solar programs through major energy companies. Not only is this the most expensive energy production but the damage being done to the enviroment is unpresidented you are making life too expens
