As a Florida resident and U.S. citizen, I would simply like to voice my concern regarding commercial solar and wind farms in Florida. They would be a monumental mistake for the state - we all know they are the most expensive way to generate energy.

I want to see commercial solar farms banned. Peoples' pockets are being lined. The current farms in central Florida need to be dismantled.

Nuclear energy is the only method that can reliably, safely and affordably meet our future energy needs.
Thank you.
