Dear Mrs. Salak:

Pursuant to Florida Statute 364.051, we are filing revisions to our General Subscriber Service Tariff. Attached for filing with the Commission are the following tariff pages:

General Subscriber Service Tariff

Subject Index -	Seventh Revised Page 15
Section A13 -	Contents - Eighth Revised Page 9
	Fifth Revised Page 92
Section A113 -	Contents - Original Page 4

Executive Summary

Introduction

Internet Call Waiting is an optional feature available to residence customers that allows a subscriber to manage incoming calls while the subscriber's line is being used for dial-up Internet connection. This tariff filing moves Internet Call Waiting to the Obsolete tariff and grandfathers the service.

Rationale for Change

Internet Call Waiting was created to make it more convenient for a customer to use a single telephone line for dial-up internet access and voice telecommunications. DSL and other broadband services have in large part eliminated the need for Internet Call Waiting service. There are currently fewer than 600 customers in Florida. By grandfathering this service for six months, the number of customers will continue to decline and remaining customers will have time to make alternative service arrangements.

Impact on Customers

Customers will receive direct mail notification of this change on or after January 8, 2008. The service will be discontinued on or after July 8, 2008.

In the interim, customers can evaluate several options to select the alternative that suits them best. Among the alternatives are DSL Internet service, call waiting features offered by some Internet service providers or by other calling feature service providers, an additional telephone line, or forwarding busy line calls to a mobile telephone.

A13.76.1 ~~Definition of Feature Offering~~

~~A. Internet Call Waiting service (ICW) allows customers to manage their incoming calls while logged onto the Internet. When a customer is on the Internet with ICW running and receives a call, a small window pops up on the computer screen with the name and number of the caller and four disposition options for the call. Those options are as follows:~~

- ~~1. Accept the Call: This option terminates the Internet session. The user then must wait for the phone to ring to pick up the call.~~
- ~~2. Send the Call to Voice Mail: This option sends the caller to voice mail if the ICW subscriber has voice mail.~~
- ~~3. Place the Call on Hold: With this option the subscriber can generate a network announcement to the caller to please hold while the subscriber completes the current call.~~
- ~~4. Forward the Call: The subscriber can route the call to another pre-selected phone number~~
- ~~5. Ignore the Call/Time Out: If the subscriber fails to choose a disposition option within 24 seconds, the time-out condition will occur. The caller will hear continuous ringing until the call is disconnected. This is a default option for customers who do not subscribe to Voice Mail.~~

A13.76.2 ~~Regulations and Limitations of Service~~
