NOTICE OF PROPOSED AGENCY ACTION
ORDER APPROVING FIRM TRANSPORTATION SERVICE AGREEMENT

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.).

Background

On June 10, 2019, Peninsula Pipeline Company, Inc. (Peninsula) filed a petition seeking approval of a firm transportation service agreement (Agreement) between Peninsula and the Florida Division of Chesapeake Utilities Corporation, d/b/a Central Florida Gas (CFG), collectively the parties. Peninsula operates as a natural gas transmission company as defined by Section 368.103(4), Florida Statutes (F.S.).¹ CFG is a local distribution company (LDC) subject to our jurisdiction pursuant to Chapter 366, F.S.

By Order No. PSC-07-1012-TRF-GP,² Peninsula received approval of an intrastate gas pipeline tariff that allows it to construct and operate intrastate pipeline facilities and to actively pursue agreements with natural gas customers. Peninsula provides transportation service only; it

¹ Order No. PSC-06-0023-DS-GP, issued January 9, 2006, in Docket No. 050584-GP, *In re: Petition for declaratory statement by Peninsula Pipeline Company, Inc. concerning recognition as a natural gas transmission company under Section 368.101, F.S., et seq.*

² Order No. PSC-07-1012-TRF-GP, issued December 21, 2007, in Docket No. 070570-GP, *In re: Petition for approval of natural gas transmission pipeline tariff by Peninsula Pipeline company, Inc.*

does not engage in the sale of natural gas. Pursuant to Order No. PSC-07-1012-TRF-GP, Peninsula is allowed to enter into certain gas transmission agreements without prior approval.³ However, Peninsula is requesting our approval of this proposed Agreement as it does not fit any of the criteria enumerated in the tariff for which our approval would not be required.⁴ The parties are subsidiaries of Chesapeake Utility Corporation (Chesapeake), and pursuant to Section 368.105, F.S., and Order No. PSC-07-1012-TRF-GP, we must approve agreements between affiliated companies.

Pursuant to the proposed Agreement (Attachment A), Peninsula will acquire, construct, and operate a natural gas pipeline, and construct a new interconnection in Polk County. During the evaluation of the petition, two data requests were issued to the parties for which responses were received on July 2 and July 15, 2019. We has jurisdiction over this matter pursuant to Sections 366.05(1), 366.06, and 368.105, F.S.

Decision

CFG provides natural gas service to residential, commercial, and industrial customers in Polk County, and receives deliveries of natural gas to serve these customers over interstate transmission pipelines owned by Gulfstream and Florida Gas Transmission (FGT). In addition, CFG uses a connection with Peoples Gas System (which is referred to as an LDC to LDC interconnection) and a section of intrastate pipeline in Haines City owned by Peninsula.

The parties have entered into the proposed Agreement to allow CFG to meet increased demand in the Polk County area. The proposed Agreement specifies an initial term of 20 years and thereafter shall be extended for additional 10-year increments, unless either party gives no less than 180 days of written notification of termination. The proposed Agreement has the added benefit of providing CFG with an additional source of gas (via the Gulfstream interstate pipeline) and enhancing an existing interconnection with the FGT pipeline. The specific projects are discussed below and shown in Attachment B.

First, Peninsula would acquire 1,200 feet of existing 12 inch steel pipeline from Calpine (CPN). The CPN pipeline is shown as the short blue line on Attachment B and already connects to the existing Gulfstream Gate Station (south of the CPN pipeline). The CPN pipeline would also connect with a new interconnection Peninsula would construct directly to the south of Derby Avenue and to the east of the CPN pipeline. This interconnection would give CFG a secondary source of natural gas from Gulfstream.

Second, Peninsula would acquire 13,000 feet of 10 inch steel pipeline from CFG that runs from CFG's Lake Blue Gate Station north to the newly proposed interconnection south of Derby Avenue. This is shown as the red line on Attachment B. Peninsula would increase the pressure on this pipeline resulting in the pipeline operating as a transmission pipeline (and not a distribution pipeline). CFG explained that Peninsula, as a transmission pipeline operator, would be more suited to provide the on-going operations and maintenance and meet the Pipeline and

Hazardous Materials Safety Administration's compliance and safety requirements. Peninsula would increase the pressure on the 10 inch steel pipeline by installing a regulator at the existing Lake Blue Gate Station.

Finally, from the new interconnection south of Derby Avenue, Peninsula would construct 800 feet of six inch polyethylene pipeline to the north where it would interconnect with CFG's distribution system in the vicinity of Derby Avenue in Polk County. The polyethylene pipeline is shown as the short green line on Attachment B.

In response to the first data request, the parties stated that CFG did not issue a Request for Proposals (RFP) from other entities to construct the pipeline. Peninsula, however, engaged in discussions with FGT about extending its existing pipeline in Polk County. CFG stated that FGT declined to bid on the pipeline construction portion of the project citing that constructing and operating laterals such as those proposed in this petition are not a focus of FGT's expansion activities.

The parties assert that the negotiated monthly reservation charge contained in the proposed Agreement is consistent with a market rate since they are within the ranges of rates set forth in similar agreements as required by Section 368.105(3)(b), F.S. CFG is proposing to recover its payments to Peninsula through its swing service rider⁵ mechanism consistent with other gas transmission pipeline costs incurred by CFG. The swing service rider allows CFG to recover intrastate capacity costs from their transportation customers and is a cents per therm charge that is included in the monthly gas bill of transportation customers.⁶ While CFG will incur costs associated with this service expansion, any new load will help spread the costs over a larger customer base.

The benefit of Peninsula, as opposed to CFG, constructing the new pipeline is primarily that Peninsula's construction and ownership of the pipeline will avoid CFG undertaking the costs and risks for the three projects, which in turn protects CFG's customers. Peninsula anticipates the pipeline construction to be completed by September 2019.

Based on our review of the petition and the parties' data request responses, we find that the proposed Agreement is cost effective, reasonable, meets the requirements of Section 368.105, F.S., and benefits CFG's customers. Therefore, we hereby approve the proposed Agreement between the parties dated May 17, 2019.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Peninsula Pipeline Company's request to approve a firm transportation service agreement dated May 17, 2019,

Shipper shall promptly provide notice to Company of all such nominations. Imbalances between quantities (i) scheduled at the Delivery Point(s) and the Point(s) of Delivery, and (ii) actually delivered by the Transporter and/or Company hereunder, shall be resolved in accordance with the applicable provisions of Company's tariff, as such provisions, and any amendments to such provisions, are approved by the Commission.

8.2 The parties hereto recognize the desirability of maintaining a uniform rate of flow of Gas to Shipper's facilities over each Gas Day throughout each Gas Month.

9.5 Severability. If any provision of this Agreement becomes or is declared by a court of competent jurisdiction to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision; provided, however, that if such severability materially changes the economic benefits of this Agreement to either party, the parties shall negotiate in good faith an equitable adjustment in the provisions of this Agreement.

9.6 Waiver. No waiver of any of the provisions of this Agreement shall be deemed to be, nor shall it constitute, a waiver of any other provision whether similar or not. No single waiver shall constitute a continuing waiver, unless otherwise specifically identified as such in writing. No waiver shall be binding unless executed in writing by the party making the waiver.

9.7 Attorneys' Fees and Costs. In the event of any litigation between the parties arising out of or relating to this Agreement, the prevailing party shall be entitled to recover all costs incurred and reasonable attorneys' fees, including attorneys' fees in all investigations, trials, bankruptcies, and appeals.

9.8 Independent Parties. Company and Shipper shall perform hereunder as independent parties. Neither Company nor Shipper is in any way or for any purpose, by virtue of this Agreement or otherwise, a partner, joint venture, agent, employer or employee of the other. Nothing in this Agreement shall be for the benefit of any third person for any purpose, including, without limitation, the establishing of any type of duty, standard of care or liability with respect to any third person.

9.9 Assignment and Transfer. No assignment of this Agreement by either party may be made without the prior written approval of the other party (which approval shall not be unreasonably withheld) and unless the assigning or transferring party's assignee or transferee shall expressly assume, in writing, the duties and obligations under this Agreement of the assigning or transferring party. Upon such assignment or transfer, as well as assumption of the duties and obligations, the assigning or transferring party shall furnish or cause to be furnished to the other party a true and correct copy of such assignment or transfer and the assumption of duties and obligations.

9.10 Governmental Authorizations; Compliance with Law. Company and Shipper shall comply at all times with all applicable federal, state, municipal, and other laws, ordinances and regulations. Company and/or Shipper will furnish any information or execute any documents required by any duly constituted federal or state regulatory authority in

connection with the performance of this Agreement. Each party shall proceed with diligence to file any necessary applications with any governmental authorities for any authorizations necessary to carry out its obligations under this Agreement. In the event this Agreement or any provisions herein shall be found contrary to or in conflict with any applicable law, order, directive, rule or regulation, the latter shall be deemed to control, but nothing in this Agreement shall prevent either party from contesting the validity of any such law, order, directive, rule, or regulation, nor shall anything in this Agreement be construed to require either party to waive its respective rights to assert the lack of jurisdiction of any governmental agency other than the Commission, over this Agreement or any part thereof. In the event of such contestation, and unless otherwise prohibited from doing so under this Section 9.10, Company shall continue to transport and Shipper shall continue to take Gas pursuant to the terms of this Agreement. In the event any law, order, directive, rule, or regulation shall prevent either party from performing hereunder, then neither party shall have any obligation to the other during the period that performance under the Agreement is precluded. If, however, any Governmental Authority's modification to this Agreement or any other order issued, action taken, interpretation rendered, or rule implemented, will have a material adverse effect on the rights and obligations of the parties, including, but not limited to, the relative economic position of, and risks to, the parties as reflected in this Agreement, then the parties shall use reasonable efforts to agree upon replacement terms that are consistent with the relevant order or directive, and that maintain the relative economic position of, and risks to, the parties as reflected in this Agreement as of the date first set forth above. As used herein, "Governmental Authority" shall mean any United States federal, state, local, municipal or other government; any governmental, regulatory or administrative agency, court, commission or other authority lawfully exercising or entitled to exercise any administrative, executive judicial, legislative, police, regulatory or taxing authority or power; and any court or governmental tribunal.

(i) If any Governmental Authority asserting jurisdiction over the pipeline facility contemplated in this agreement, issues an order, ruling, decision or regulation (including denial of necessary permits or amendments to existing permits) related to the operation, maintenance, location, or safety and integrity compliance, including any new or revised enforceable regulatory classification of the pipeline facility, as applicable, which is not reasonably foreseeable as of the Execution Date and which results in a materially adverse effect on either Party's rights and benefits under this Agreement, each Party shall use commercially reasonable efforts and shall cooperate with the other Party to pursue all necessary permits, approvals and authorizations, if any, of such applicable Governmental Authority, and to amend the terms and conditions of this Agreement, in each case as may be reasonably required in order that provision of transportation service under this Agreement shall continue; provided that neither Party shall be required to take any action pursuant to this Section which is reasonably likely to have a materially adverse effect on such Party's rights and benefits under this Agreement.

PENINSULA PIPELINE COMPANY, INC.
FIRM TRANSPORTATION SERVICE AGREEMENT

(ii) In the event of the issuance of any enforceable and unappealable compliance obligations related to operation, maintenance, location, or safety and integrity compliance of the pipeline facility, which are not reasonably foreseeable as of the Execution Date, has a substantial and materially adverse impact on the Company, and such economic impact cannot be substantially mitigated by the Company, Company and Shipper shall meet and negotiate in good faith to determine if appropriate alterations to this Agreement or other arrangements can be agreed to that will address the operational or economic issues caused by such limits or obligations.

(iii) If the Parties are unable or unwilling to reach agreement pursuant to this Section 9.10, Company shall have the right to terminate this Agreement, without any further obligations to Shipper, upon one hundred twenty (120) days prior written notice to Shipper.

9.11 Applicable Law and Venue. This Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of the State of Florida. The venue for any action, at law or in equity, commenced by either party against the other and arising out of or in connection with this Agreement shall be in a court of the State of Florida having jurisdiction.

9.12 Counterparts. This Agreement may be executed in counterparts, all of which taken together shall constitute one and the same instrument and each of which shall be deemed an original instrument as against any party who has signed it.
