Executive Summary

Introduction

This tariff filing deletes from the tariff the Talking Call Waiting feature.

Description of Service

This service was established in May 2002 for residence customers and is being discontinued due to limited customer response. There are currently about 700 customers subscribing to this feature.

Customer Impact

Existing customers were notified in November 2004 that BellSouth is planning to discontinue this service on February 15, 2005. Therefore, these customers had three months to make any changes necessary to accommodate the termination of this optional service.

A3.4.3 Complete Choice[®] Service

A. General

1. Complete Choice[®] service provides the features specified following in conjunction with a flat rate access line. The access line includes Touch-Tone capability. (T)
2. The rate specified herein entitles a residence subscriber to access all exchange access lines in the subscriber's local calling area as defined in A3.3.1 of this Tariff.
3. The rate specified herein also entitles a residence subscriber to unlimited use of the services/features specified in the following sections of this Tariff:

A13.9	Custom Calling Services —all services except Talking Call Waiting	(C)
A13.19	TouchStar [®] Services excluding Calling Number Delivery Blocking-Permanent	(T)
A13.20	Customized Code Restriction	
A13.34	RingMaster [®] Service	(T)
A13.47	Message Waiting Indication	
A113.10	Obsolete Custom Calling Services	
A12.16.2.A	Call Hold and Call Pickup only (PCS limitations do not apply)	

A subscriber may select an unlimited number of compatible services or features from the sections listed above. All rules, regulations and limitations specified in the sections listed (except as indicated above) apply to the respective services/features requested as part of this service. Service charges specified in Section A4. of this Tariff do not apply for transactions involving only additions, deletions or changes to the services/features requested as part of this service.

Note 1: The Multi-line Exchange Access Line rate applies per line to subscribers with more than one exchange access line. (E)

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.9 Custom Calling Services (Cont'd)

A13.9.1 Description of Service (Cont'd)

J. Call Forwarding Multipath

Provides customers who subscribe to Call Forwarding Busy Line, Call Forwarding Don't Answer, Customer Control Call Forwarding Busy Line, Customer Control Call Forwarding Don't Answer, Call Forwarding Variable, or Remote Access Call Forwarding Variable the capability to specify the number of calling paths that will be forwarded to another telephone number.

K. Remote Access Call Forwarding Variable

Provides a customer the Call Forwarding Variable feature and the capability to activate and deactivate the service remotely from any line/equipment capable of Touch-Tone signaling rather than only from the base station line. This feature does not require that a courtesy call be completed to the forward-to telephone number.

L. Call Waiting Deluxe (CWD)

Allows a customer to control the treatment applied to incoming calls while the customer is off-hook on a call. Call Waiting Deluxe includes the functionality of the Call Waiting feature and provides several additional call disposition options.

Call disposition options provided with Call Waiting Deluxe include:

- Answer the waiting call, placing the first party on hold
- Answer the waiting call, dropping the first party
- Direct the waiting caller to hold via a recording
- Forward the waiting call to another location (e.g., a voice mailbox or Telephone Answering Service)
- Conference the waiting call with the existing, stable call and, if desired, subsequently drop either leg of the "conferenced" call.

Utilization of the full capabilities of Call Waiting Deluxe requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation and maintenance of the ADSI-compatible CPE and its technical capability to function in conjunction with the features specified herein is the responsibility of the customer. The Company assumes no liability, and will be held harmless, for any incompatibility between this equipment and the network features described herein.

M. Three-Way Calling with Transfer

This feature allows a user to hold an in-progress call and complete a second call while maintaining privacy from the first call, or to add on the previously held call for a three-way conference. Incoming calls may be transferred to another access arrangement on an inter- or intra-switch basis. Where the subscriber originates both legs of a three-way call, those legs will remain bridged together when the subscriber goes on hook when at least one of the legs is an intra-switch call. Where the subscriber originates two inter-switch legs of a three-way call, both legs remain bridged when the subscriber goes on hook where the serving switch is not a 5ESS switch. For such calls in a 5ESS switch, both inter-switch legs are disconnected when the subscriber goes on hook.

N. Star 98 Access

Allows a subscriber to access a service, generally their local voice mail service, when they dial *98 from their home or business telephone line. Star 98 Access connects the customer to the local telephone number, generally of their voice mail provider, to whom their calls are forwarded via a version of Call Forwarding Don't Answer.

O. ~~(DELETED) Talking Call Waiting~~

~~Provides an enhancement for customers who subscribe to a call waiting feature. This feature announces the listing name of the calling party when a call waiting subscriber receives a call waiting tone. The spoken name is played only after the first call waiting tone for any incoming call. When a customer who subscribes to both Talking Call Waiting and Call Waiting Deluxe receives an incoming call while using equipment capable of displaying the name and number of the incoming call originator, the Call Waiting Deluxe feature will take precedence, i.e. the equipment will display visually the name and number of the calling party and the Talking feature will not be activated.~~

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.9 Custom Calling Services (Cont'd)

A13.9.2 Rules, Regulations and Limitations

H. Call Forwarding Multipath

Where facilities permit for a single (non-rotary) exchange line/trunk or a rotary (hunting) arrangement of 10 or less lines/trunks, up to 10 calling paths will be provided at no charge. For a hunting arrangement greater than 10 lines/trunks, additional paths (in excess of the 10 provided at no charge) can be purchased. The total number of calling paths cannot exceed the number of lines/trunks in the forwarding hunting arrangement. In all cases, the number of call forwarding paths is dependent upon the terminating capability of the forward-to directory number. For the Call Forwarding Don't Answer feature each call will be forwarded at the completion of each ring cycle. A service order charge will apply to requests to increase or decrease the number of calling paths. The service order charge will not apply for the first sixty (60) days following the effective date of this Tariff.

I. Call Waiting Deluxe (CWD)

1. Except where specifically provided otherwise in this Tariff, Call Waiting-Deluxe is furnished only to single line residence customers.
2. Subscribers to Call Waiting Deluxe must have Touch-Tone service.
3. The customer must have a Calling Identification Delivery feature, such as Caller ID-Basic or Caller ID-Deluxe for the calling identification data of the waiting call to be provided following the Call Waiting Deluxe alerting tone.
4. The customer must subscribe to a Call Forwarding Don't Answer feature in order to forward a waiting call to another location.
5. All terms and conditions, including rates, for the other features associated with the line are as described in the feature-specific sections of this Tariff. Such features must be ordered separate from Call Waiting Deluxe.
6. Service charges for establishment of Call Waiting Deluxe on a customer's line do not apply.

J. Three-Way Calling with Transfer

This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the subscriber.

K. Star 98 Access

1. Star 98 Access is only available to subscribers on lines which are equipped with a version of Call Forwarding Don't Answer.
2. Star 98 Access is provisioned on a per line basis and functions only from a line provisioned with this feature and the appropriate auxiliary calling features.
3. Star 98 Access is not available on ISDN, Prestige®, Foreign Central Office (FCO), Foreign Exchange (FX) lines or any Centrex type service.
4. Star 98 Access may not be compatible with all auxiliary calling features.

L. ~~(DELETED) Talking Call Waiting~~

1. ~~Talking Call Waiting is only available to residence subscribers on lines that are equipped with a version of Call Waiting or Call Waiting Deluxe. The rate for this service does not include a charge for the call waiting capability.~~
2. ~~The Secondary Service Charge as specified in Section A4 of this Tariff does not apply for any order that adds Talking Call Waiting to a subscriber's existing service.~~
3. ~~This feature is not compatible with Prestige® Communications service.~~

Provides customers who subscribe to Call Forwarding Busy Line, Call Forwarding Don't Answer, Customer Control Call Forwarding Busy Line, Customer Control Call Forwarding Don't Answer, Call Forwarding Variable, or Remote Access Call Forwarding Variable the capability to specify the number of calling paths that will be forwarded to another telephone number.

K. Remote Access Call Forwarding Variable

Provides a customer the Call Forwarding Variable feature and the capability to activate and deactivate the service remotely from any line/equipment capable of Touch-Tone signaling rather than only from the base station line. This feature does not require that a courtesy call be completed to the forward-to telephone number.

L. Call Waiting Deluxe (CWD)

Allows a customer to control the treatment applied to incoming calls while the customer is of-hook on a call. Call Waiting Deluxe includes the functionality of the Call Waiting feature and provides several additional call disposition options.

Call disposition options provided with Call Waiting Deluxe include:

- Answer the waiting call, placing the first party on hold
- Answer the waiting call, dropping the first party
- Direct the waiting caller to hold via a recording
- Forward the waiting call to another location (e.g., a voice mailbox or Telephone Answering Service)
- Conference the waiting call with the existing, stable call and, if desired, subsequently drop either leg of the "conferenced" call.

Utilization of the full capabilities of Call Waiting Deluxe requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation and maintenance of the ADSI-compatible CPE and its technical capability to function in conjunction with the features specified herein is the responsibility of the customer. The Company assumes no liability, and will be held harmless, for any incompatibility between this equipment and the network features described herein.

M. Three-Way Calling with Transfer

This feature allows a user to hold an in-progress call and complete a second call while maintaining privacy from the first call, or to add on the previously held call for a three-way conference. Incoming calls may be transferred to another access arrangement on an inter- or intra-switch basis. Where the subscriber originates both legs of a three-way call, those legs will remain bridged together when the subscriber goes on hook when at least one of the legs is an intra-switch call. Where the subscriber originates two inter-switch legs of a three-way call, both legs remain bridged when the subscriber goes on hook where the serving switch is not a 5ESS switch. For such calls in a 5ESS switch, both inter-switch legs are disconnected when the subscriber goes on hook.

N. Star 98 Access

Allows a subscriber to access a service, generally their local voice mail service, when they dial *98 from their home or business telephone line. Star 98 Access connects the customer to the local telephone number, generally of their voice mail provider, to whom their calls are forwarded via a version of Call Forwarding Don't Answer.

H. Call Forwarding Multipath

Where facilities permit for a single (non-rotary) exchange line/trunk or a rotary (hunting) arrangement of 10 or less lines/trunks, up to 10 calling paths will be provided at no charge. For a hunting arrangement greater than 10 lines/trunks, additional paths (in excess of the 10 provided at no charge) can be purchased. The total number of calling paths cannot exceed the number of lines/trunks in the forwarding hunting arrangement. In all cases, the number of call forwarding paths is dependent upon the terminating capability of the forward-to directory number. For the Call Forwarding Don't Answer feature each call will be forwarded at the completion of each ring cycle. A service order charge will apply to requests to increase or decrease the number of calling paths. The service order charge will not apply for the first sixty (60) days following the effective date of this Tariff.

I. Call Waiting Deluxe (CWD)

1. Except where specifically provided otherwise in this Tariff, Call Waiting-Deluxe is furnished only to single line residence customers.
2. Subscribers to Call Waiting Deluxe must have Touch-Tone service.
3. The customer must have a Calling Identification Delivery feature, such as Caller ID-Basic or Caller ID-Deluxe for the calling identification data of the waiting call to be provided following the Call Waiting Deluxe alerting tone.
4. The customer must subscribe to a Call Forwarding Don't Answer feature in order to forward a waiting call to another location.
5. All terms and conditions, including rates, for the other features associated with the line are as described in the feature-specific sections of this Tariff. Such features must be ordered separate from Call Waiting Deluxe.
6. Service charges for establishment of Call Waiting Deluxe on a customer's line do not apply.

J. Three-Way Calling with Transfer

This feature shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message charges, toll or otherwise, that would regularly be applicable between the stations bridged together by the subscriber.

K. Star 98 Access

1. Star 98 Access is only available to subscribers on lines which are equipped with a version of Call Forwarding Don't Answer.
2. Star 98 Access is provisioned on a per line basis and functions only from a line provisioned with this feature and the appropriate auxiliary calling features.
3. Star 98 Access is not available on ISDN, Prestige®, Foreign Central Office (FCO), Foreign Exchange (FX) lines or any Centrex type service.
4. Star 98 Access may not be compatible with all auxiliary calling features.
