RE : UTILITY: GENERAL DEVELOPMENT UTILITIES, INC. (DESOTO, CHARLOTTE
AND SARASOTA)

DOCKET NO. 900051-WS

COUNTY: DESOTO, CHARLOTTE AND SARASOTA

CASE: APPLICATION FOR MULTI-COUNTY WATER AND SEWER CERTIFICATES
FOR WEST COAST DIVISION

AGENDA : MARCH 20, 1990 - CONTROVERSIAL - PROPOSED AGENCY ACTION FOR
ISSUE 2 - PARTIES MAY PARTICIPATE

PANEL : FULL COMMISSION

CRITICAL DATES: 90-DAY PROCESSING PERIOD EXPIRES APRIL 24, 1990

ISSUE AND RECOMMENDATION SUMMARY

ISSUE 1: Should General Development Utilities, Inc. (GDU) be authorized to amend its Water Certificate No. 444-W in Desoto County to include territory in Charlotte and Sarasota Counties and should the utility be granted Sewer Certificate No. 462-S for its multi-county sewer system in Charlotte and Sarasota Counties?

DOCUMENT NO. DATE
02097.90 3/7/1990
FPSC - COMMISSION CLERK

DOCKET NO. 900051-WS
MARCH 8, 1990

RECOMMENDATION: Yes, the utility should be authorized to amend its Desoto County Certificate No. 444-W to include Charlotte and Sarasota County water service territories and granted Sewer Certificate No. 462-S for its multi-county sewer system in Charlotte and Sarasota Counties described in Attachment A for Charlotte County and Attachment B for Sarasota County. The utility should be directed to return Certificate No. 444-W and revised tariff sheets reflecting the additional territory as set forth in this recommendation within 20 days of the date of the Commission's order. The utility should be directed to furnish legal descriptions and applicable tariff sheets which comply with Rule 25-30.035(i), Florida Administrative Code, within 120 days of the issue date of the order in this proceeding. (CHAPDELAINE)

ISSUE 2: What rates and charges should be approved for the Charlotte County territory of the GDU West Coast Division?

RECOMMENDATION: The existing rates and charges as specified in the staff analysis should be approved including reducing the customer deposit amount from a three month to a two month average bill. (CHAPDELAINE)

ISSUE 3: What rate and charges should be approved for the Sarasota County territory of the GDU West Coast Division?

RECOMMENDATION: The existing rates and charges as specified in the staff analysis should be approved. (CHAPDELAINE)

ISSUE 4: Should the docket be closed?

RECOMMENDATION: Yes. (A. CROSBY)

DOCKET NO. 900051-WS
MARCH 8, 1990

CASE BACKGROUND

On January 24, 1990, General Development Utilities, Inc. (GDU) filed an application for water and wastewater certificates for its multi-county West Coast Division which provides service to areas in Desoto, Charlotte and Sarasota Counties. As of October 1, 1989, the Charlotte and Sarasota County portions of the GDU West Coast Division became subject to the Commission's jurisdiction pursuant to Section 367.171(7), Florida Statutes. The referenced subsection provides that the Commission has "exclusive jurisdiction over all utility systems whose service transverses county boundaries, whether the counties involved are jurisdictional or nonjurisdictional, except for utility systems that are subject to, and remain subject to, inter-local utility agreements in effect as of October 1, 1989."

GDU currently provides only water service in Desoto County and operates the system pursuant to Water Certificate No. 444-W issued by the Commission. Water and wastewater service is provided by GDU in Charlotte County pursuant to a franchise granted by the County. Water and wastewater is provided by GDU in Sarasota County pursuant to a franchise granted by the City of North Port.

On October 13, 1989, GDU filed a Petition for Declaratory Statement with the Commission, seeking a declaration as to whether or not the Commission had exclusive jurisdiction over the West Coast Division or whether or not the jurisdiction remained split as a result of an agreement entered into among Desoto and Charlotte Counties and the City of North Port. In Docket No. 891190-WS, the Commission determined that it had exclusive jurisdiction at the January 2, 1990, Agenda Conference.

DOCKET NO. 900051-WS
MARCH 8, 1990

The Desoto County water system had two (2) commercial customers during 1989 and generated approximately \$24,000 in annual revenues. The Port Charlotte water and wastewater system in Charlotte County had approximately 27,000 water customers and \$9,400,000 in annual revenue and 10,000 wastewater customers and \$3,200,000 in annual revenue for 1989. The North Port water and wastewater system in Sarasota County had 6,200 water customers and \$1,400,000 in annual revenue and 5,300 wastewater customers and \$1,300,000 in annual revenue for 1989. The entire West Coast Division generated nearly \$16,000,000 in revenue for calendar year 1989.

Staff's recommendation is that Water Certificate No. 444-W be amended to include the territories in Charlotte and Sarasota Counties, Wastewater Certificate No. 462-S be granted for the territories in Charlotte and Sarasota Counties and that all rates and charges continue as previously approved by the counties with a minor exception for Charlotte County discussed in Issue 2. It should be noted that the utility filed its application under Section 367.171(7), Florida Statutes, which "suggests" a "grandfather" processing of the application. Staff accepted that as the proper filing basis even though the existing water certificate must be amended to include the additional territories in the two counties entering Commission jurisdiction.

For information, the currently approved (tariffed) rates for Desoto County water service are as follows:

Rates and charges are effective September 30, 1985 as determined and ordered in Docket No. 850010-WU, Order Nos. 14894 and 15123.

DISCUSSION OF ISSUES

ISSUE 1: Should General Development Utilities, Inc. (GDU) be authorized to amend its Water Certificate No. 444-W in Desoto County to include territory in Charlotte and Sarasota Counties and should the utility be granted Sewer Certificate No. 462-S for its multi-county sewer system in Charlotte and Sarasota Counties?

RECOMMENDATION: Yes, the utility should be authorized to amend its Desoto County Certificate No. 444-W to include Charlotte and Sarasota County water service territories and granted Sewer Certificate No. 462-S for its multi-county sewer system in Charlotte and Sarasota Counties described in Attachment A for Charlotte County and Attachment B for Sarasota County. The utility should be directed to return Certificate No. 444-W and revised tariff sheets reflecting the additional territory as set forth in this recommendation within 20 days of the date of the Commission's order. The utility should be directed to furnish legal descriptions and applicable tariff sheets which comply with Rule 25-30.035(i), Florida Administrative Code, within 120 days of the issue date of the order in this proceeding. (CHAPDELAINÉ)

STAFF ANALYSIS: On January 24, 1990, General Development Utilities, Inc. (GDU) filed an application pursuant to Section 367.171(7), Florida Statutes, for amendment of its Water Certificate No. 444-W to include territories served in Charlotte and Sarasota Counties, and for a sewer certificate for the territories served in those same two counties. Water Certificate No. 444-W is currently granted by the Commission for water service in Desoto County. That certificate is recommended to be amended to include the territory served in Charlotte and Sarasota Counties by the West Coast Division. As discussed in the background, the West Coast Division serves approximately 33,000 water

DOCKET NO. 900051-WS
MARCH 8, 1990

customers and 15,000 wastewater customers in the three counties with nearly \$16,000,000 in revenues during calendar year 1989.

The application complies with Section 367.045, Florida Statutes, with the exception that noticing was not conducted since the process resembled a "grandfather" application more than any of the other possible choices. In particular, the application contains:

- 1) A check in the amount of \$4,500 which, upon calculation, equates to the correct filing fee as prescribed by Section 367.145, Florida Statutes, and Rule 25-30.020, Florida Administrative Code.
- 2) Adequate territory and system maps have been filed as well as a service territory description pursuant to Rule 25-30.035(h) and (i), Florida Administrative Code. The utility provided copies of the franchise agreements with the counties which contain a description of the franchised territories. Territory descriptions for Charlotte and Sarasota Counties are attached to this recommendation as Attachments A and B, respectively.
- 3) Evidence that the utility owns the land upon which the utility's facilities are located as required by Rule 25-30.035(3)(f), Florida Administrative Code.

Regarding the territory description discussed in 2) above, the utility furnished data which did not state the territory in terms of sections, metes and bounds as specified in the Rule. Some of the description satisfied the Rule, but a significant amount of the description was stated in terms of lots, contrary to the requirements. The utility has indicated that it will take about 120 days to restate the description in the terms required by the Rule. The utility should be directed to furnish the restated description within 120 days of the date of issue of the order in this proceeding. The legal description, as currently filed, should be accepted on a temporary basis until the final version is furnished and accepted by the Commission.

DOCKET NO. 900051-WS
MARCH 8, 1990

GDU is a wholly-owned subsidiary of General Development Corporation and has been providing the area with service for several decades. GDU also holds FPSC certificates in Brevard, Marion, St. Johns, and very recently was granted certificates in Glades and Hendry Counties (Docket No. 891313-WS). The utility has consistently demonstrated its financial and technical ability to provide safe and reliable service to its customers and to comply with the rules and regulations of the Commission. Further, the Department of Environmental Regulation has indicated to staff that no outstanding citations or violations exist for the utility systems being considered in this instance.

Based upon the above considerations, staff believes that the public interest would be served by amending Water Certificate No. 444-W and granting Sewer Certificate No. 462-S for service in Charlotte and Sarasota Counties in the territories described in Attachments A and B for each county, respectively. The utility should be directed to return Certificate No. 444-W and revised tariff sheets reflecting the additional territory as set forth in this recommendation within 20 days of the date of the Commission's order. The currently filed legal description should be accepted on a temporary basis until the final version is furnished and accepted by the Commission.

Charge per ERC levels at \$1213.93 after 12/01/93

The rates and charges were effective as of October 1, 1988 pursuant to the authority of Charlotte County, Florida. Staff recommends that the existing rates and charges should be continued, with the modification to the customer deposit charge. The utility is currently basing the initial customer deposit upon three months' estimated billing. The practice violates Rule 25-30.311, Florida Administrative Code, which states that deposits should not exceed an amount equal to the average charge for service for two billing periods. Therefore, GDU should be required to file tariff sheets reflecting customer deposits for the Charlotte County system which are based on two months' average billing. Because this application has many aspects of a grandfather proceeding, Commission policy dictates that the rates and charges should be continued until such time as a complete review can be done in a full-scale rate application. The utility should provide tariffs for the West Coast Division system in Charlotte County that comply with Commission rules and the model tariffs including using a two month average bill or estimate pursuant to Rule 25-30.311, Florida Administrative Code for determining customer deposits.

Main Extension Charge - Water per foot	\$ 2.19
- Sewer per foot	\$ 6.54
Fire Hydrant Charge, allocated per lot	\$ 81.00

Water Meter Installation Charge

<u>Meter Size</u>	<u>Charge</u>
5/8" x 3/4"	75.00
1"	115.00
1 1/2"	190.00
2"	265.00

The rates and charges were effective as of May 27, 1982 pursuant to the authority of the City Commission, City of North Port, Florida.

Because this application has many aspects of a grandfather proceeding, Commission policy dictates that the rates and charges should be continued until such time as a complete review can be done in a full-scale rate application. The utility should provide tariffs for the West Coast Division system, in Sarasota County that comply with Commission rules and the model tariffs.

DOCKET NO. 900051-WS
MARCH 8, 1990

ISSUE 4: Should the docket be closed?

RECOMMENDATION: Yes. (A. CROSBY)

STAFF ANALYSIS: If no protests are filed to the proposed agency action issue (Issue 2), no further action will be required in this docket and it should be closed as soon as staff has updated and issued the certificates and approved the tariff sheets with the temporary legal descriptions of the territories.

SECTION 4:

All Lots and Blocks lying Westerly of the Seaboard Airline Railroad right of way.

Also, a tract of land known as "Pik n Run", that portion of Lot 49, Town of McCall, as recorded in Plat Book 1, on Page 14, of the Public Records of Charlotte County, Florida, lying North of State Road 776, and East of State Road 771, being more particularly described as follows: Commence at the Southwest corner of Section 4, Township 41 South, Range 21 East; Run North 00o 17' 00" East, along the West line of said Section 4, a distance of 1329.42 feet; thence North, 89o 47' 34" East, a distance of 313.22 feet to a point on the Easterly right-of-way of State Road 771. Said Point also being the Point of Beginning. Thence continue North 89o 47' 34" East, a distance of 264.43 feet; thence South 00o 21' 36" West, a distance of 143.74 feet to a point on the Northerly right-of-way of State Road 776. Thence Northerly and Westerly along the arc of a circular curve to the right whose elements are, Delta = 14o 36' 49", Radius = 1095.92 feet, Arc = 279.52 feet to a point on the Easterly right-of-way of State Road 771; thence North 02o 57' 06" East, a distance of 196.29 feet to the Point of Beginning. Containing 1.08 Acres more or less.

Also, a tract of land known as "First Federal", all of Lots 1 through 6, and Lots 9 through 12, less right-of-way for State Road 771 (Sec. 01050-2151) all being in Block 10, Town of McCall, as recorded in Plat Book 1, Page 14, Public Records of Charlotte County.

SECTION 9:

The South one half of Section 9.

SECTION 10:

All Lots and Blocks lying South of the Butterford Waterway and West of the Interceptor Lagoon.

SECTION 15:

All Lots and Blocks lying West of the Interceptor Lagoon.

SECTION 17:

All Lots in Blocks lying Easterly of State Road 771.

SECTION 20:

All Lots and Blocks lying East of State Road 771.
