TO: DIRECTOR OF DIVISION OF RECORD AND REPORTING
FLORIDA PUBLIC SERVICE COMMISSION
101 EAST GAINES ST.
TALLAHASSEE, FL 32399-0870

931111-54

We, the undersigned residents of St. George Island, petition the Public Service Commission to deny a certificate for a waste water treatment plant for the Resort Village in St. George Plantation. The area in question is the most environmentally sensitive area on the island, and is an area subject to flooding which presents a threat to Apalachicola Bay. The area in question is in the heart of a low-density residential community, and the plant in question is intended to facilitate a high-density development. Water supplies for the island are already at a critical level, particularly for fire fighting needs. We respectfully request that you deny this request because of the dangers cited above to the community, to the environment, and the health and safety of the public.

THANK YOU!
