EXECUTIVE SUMMARY
VISION REGIONAL PROMOTION

MCI introduced the Vision Regional Promotion as part of its strategy to offer Customized Business Programs to meet the specialized needs of prospective and current customers. The Vision Regional Promotion provides reduced "regional" domestic rates for customers with the majority of their outbound calls terminating to a specific geographic area of the country. This promotion targets customers with an average of 55¢ or more of their domestic outbound usage resulting from calls terminating within a pre-selected geographic region. Qualifying customers for the program will receive an average savings of 5¢ versus the Standard Vision offering savings via reduced rates for "regional" calling.

Customers may select only one region. The Regions are defined as follows:

- a) In-Region Interstate traffic is an Interstate call terminating within an eligible NPA in another state in the pre-selected region.
- b) In-Region Intrastate traffic is a call that originates and terminates in the same eligible state that is assigned to the pre-selected region.
- c) Out-of-Region calls are defined as any MCI Vision domestic outbound call that does not qualify as an In-Region Interstate or In-Region Intrastate call.

If a customer selects a) or c) above, the following per minute usage rates tariffed in MCI's FCC Tariff No. 1 apply:

	<u>Switched</u>	<u>Dedicated</u>
In-Region	\$0.1855	\$0.1413
Out-of-Region	\$0.2270	\$0.1730

If a customer selects b) above, the following per minute usage rates tariffed in the F.P.S.C. Tariff No. 2 apply:

<u>Switched Access</u>	<u>Dedicated Access</u>
\$0.1710	\$0.1120

There are 15 pre-defined regions available to customers enrolling in the promotion. Each region is comprised of up to 10 NPAs for interstate calling, as well as, intrastate calling within the states where these NPAs reside. Customers may select any region, irrespective of the headquarter location since the program is based on call termination versus origination.
