Summary of Direct O& M Expense Allocation - 1995 Sewer	169

SUPPLEMENTAL ALLOCATION SCHEDULES

This Volume IIA, Book 2 of 4 supplements the allocation schedules contained in Volume II, Book 2 of 4 and reflects the inclusion of Hernando, Hillsborough and Polk Counties (County Plants) in this filing. The inclusion of County Plants in this filing does not change the allocations to individual plants, but it does change the roll-up or summary allocations for the FPSC filed amounts. Therefore, this volume does not duplicate the detailed allocation to individual plants, but provides revised summaries reflecting the new FPSC filed amounts.

Note: * SSU has not projected a change in total company rate case expense due to the inclusion of county plants and has not reallocated rate case expense between individual plants. The reallocation of rate case expense does not affect total revenue requirements because individual plants have uniform rates which rates would not be materially affected by the reallocation of rate case expenses given the approximately \$75 million revenue requirement associated with this filing. The impact of reallocating rate case expense to the classes would be to increase revenue requirements to the conventional class by \$20,772, reduce revenue requirements to the revenue crosses class by \$6,461 and reduce revenue requirements to the wastewater class by \$14,310.
