Re: Docket No. 951190-SU, Application for certificate to provide wastewater service in Pasco County by Sky Acres Enterprises.

Dear Mr. Hoffer:

Staff has reviewed the documentation furnished in Mr. Paul Hoffer's May 14, 1996, response to staff's notification of deficiencies as well as the documentation received subsequent to that letter. The application still needs the following modifications and documentation in order to be processed.

1. **System Map.** By letter received May 22, 1996, staff received a copy of the blueprint of the utility's wastewater treatment plant. However, the Commission still needs a map on file which depicts the collection lines. I am returning the territory map provided with the application. With your operator's assistance, please use this map to indicate to the best of your ability where the collection lines are located. These lines will generally run parallel to the streets or between adjoining property boundaries.
2. **Registration of Utility Name.** By conversation with Mr. Paul Hoffer, I understand that the utility name as registered with the Department of State, Division of Corporations is going to be modified to show just "Sky Acres Enterprises". Staff will need confirmation of the recordation of that name. If the utility name is to be anything other than as originally filed with the Commission, which was "Sky Acres Enterprises", you will need to amend the application accordingly.
