ORDER APPROVING TARIFF

BY THE COMMISSION:

ALLTEL Florida, Inc., (ALLTEL) has filed a request to modify its Interconnection of Mobile Services tariff, GSST §25.1, to provide that there will be no charge for the establishment or movement of a dedicated NXX code. According to the company, the purpose of the filing is to comply with the requirements of the FCC interconnection order. ALLTEL stated that the order requires that it "cease charging wireless providers for the establishment of an NXX code."

The FCC order requires simply that local exchange companies permit non-discriminatory access to telephone numbers to competing providers, including mobile service providers, that is at least equal in quality to that which they provides themselves. Second Report and Order, FCC 96-333, dated August 8, 1996, issued in Docket No. 95-185, ¶ 101. The Order does not specify that the charge has to be eliminated. Most Florida local exchange companies have, however, eliminated the charge entirely for both establishment and movement of a dedicated NXX code. There is no revenue impact contemplated with this filing because ALLTEL has never received a request to provide a dedicated NXX code to a mobile services provider.
