REQUEST FOR CONFIDENTIAL CLASSIFICATION

Dear Ms. Bayo:

Enclosed for filing is an unedited version of Attachment "A" to ALLTEL Florida, Inc.'s Request for Confidential Classification. The portions of this document that are confidential have been highlighted in accordance with the Commission's rules on confidential documents. Please keep this document confidential pending a decision on the Company's Request for Confidential Classification, and thereafter, if the Company's Request is granted.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

J. Jeffrey Wahlen

ANALYSIS STATEMENT
Fort White - Gainesville EAS

All traffic data collected for the calling rate computation for this study is based on the October 1997 billing period. Calling main stations for this study includes 1B, Semi-Public Paystations, PBX Trunks, Key System Lines, Centrex, Customer-Owned Paystations, and 1R. Calling main totals differ from access line totals. Access line totals include Public Paystations and Special Services (Private Lines, Special Access, FX, and Wats.) Totals on both counts exclude test lines and official company lines.

All community of interest factors reported in this study are based on only the usage which ALLTEL bills on behalf of specific interexchange carriers. To the extent other IXC's may be carrying traffic of which we are unaware, the community of interest may be affected. Usage of this type is not available for study by ALLTEL since we do not perform the recording and billing function for all carriers.

FX Lines 1. Fort White (Closed End) - Gainesville - 0

The communities of interest for the citizens residing in the Fort White area for calling to Gainesville are the University of Florida, Medical Facilities, employment, shopping, entertainment, and calling of friends and family.

On the enclosed map the existing EAS routes are shown with solid arrows and the proposed routes are shown with broken arrows.
