BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

IN RE: Joint Petition of Florida)
 Power & Light Company and)
 Jacksonville Electric)
 Authority to approve a new) DOCKET NO. 980755-EU
 territorial agreement between)
 the two utilities.)
 _____)

JOINT MOTION TO APPROVE TERRITORIAL AGREEMENT

Pursuant to Rule 25-22.037(2) and Rule 25-6.0440, Florida Administrative Code, FLORIDA POWER & LIGHT COMPANY ("FPL") and JACKSONVILLE ELECTRIC AUTHORITY ("JEA") jointly file this Motion for Approval of a territorial agreement and say:

I. Procedural Background

1. After lengthy negotiations between the parties and the PSC staff, on June 10, 1996, the PSC entered Order Number PSC-96-0755-FOF-EU which allowed the two utilities to resolve many issues between them and permitted them to eliminate many areas of possible future uneconomic duplication of facilities between the utilities in Duval, Clay, Nassau, and St. Johns Counties. Subsequent to the issuance of the Order, the two utilities discovered an inconsistency between that Order and JEA's agreement with Clay Electric Cooperative. Discussions initially began to correct the inconsistencies and then continued in an effort to further consolidate the service areas, to provide more efficient, reliable and economic service within their respective territories and further prevent future uneconomic duplication of facilities within the respective territories of the two utilities.

DOCUMENT NUMBER-DATE

06312 JUN 15 88

FREE REPRODUCING

II. The Territorial Agreement

2. Under the proposed agreement, JEA would serve all FPL customers within the city limits of Jacksonville and/or Duval County. FPL would serve customers in portions of northern St. Johns County currently being served by JEA. These customers are adjacent and contiguous to the area currently served by FPL. The result is more compact service territories with easily identifiable boundaries. In the future, service to customers of both utilities should be more easily planned, coordinated and delivered. Most, if not all, service pockets have been eliminated.

3. FPL and JEA have now reached agreement on all outstanding issues previously dividing the parties and have incorporated their agreement in the Territorial Agreement submitted as part of this motion. A copy of the Territorial Agreement is attached as Attachment "A".

4. FPL and JEA suggest that the proposed Territorial Agreement achieves the Commission's standards set forth in Rule 25-6.0440, Fla. Admin. Code, and will provide for the continued orderly and efficient provision of electric service for FPL and JEA customers while allowing for growth in service for both parties.

5. FPL and JEA jointly represent to the Commission that the Territorial Agreement: (a) is in the public interest, (b) will not cause a decrease in the reliability of electrical service to the existing or future customers of the parties to the Agreement, and (c) will eliminate existing or potential future uneconomic

duplication of facilities. A summary of the Territorial Agreement is set forth in the following paragraphs.

6. Territorial Maps. Exhibit "A" of the Territorial Agreement contains the proposed territorial boundary between FPL and JEA in Clay, Nassau and Duval Counties. Exhibit "B" of the Territorial Agreement illustrates the proposed territorial boundary between FPL and JEA in St. Johns County. These maps provide the Commission and the parties with sufficient detail for the economical and efficient administration of the boundary by the utilities and their customers.

7. Number and Classes of Customers to be Transferred. The Territorial Agreement provides for the orderly transfer of 3,557 customers between FPL and JEA. FPL will transfer 1,755 customer accounts to JEA of whom 1,490 will be residential, 246 commercial, 3 industrial, and 16 other. JEA will transfer 1,806 customer accounts to FPL of whom 1,664 shall be residential, and 142 shall be commercial.

Exhibits "C" and "D" of the Territorial Agreement list the customers to be transferred from JEA to FPL and from FPL to JEA, respectively.

8. Customer Contacts. Each customer listed in Exhibits "C" and "D" of the Territorial Agreement will be mailed an appropriate copy of one of the letters attached to this Motion as Attachment "B" notifying the customer of the proposed transfer and explaining the rate differential involved in such transfer. As the transfer letter indicates, a telephone number is provided for any interested

customer to register approval/disapproval of the proposed transfer. FPL and JEA will update Commission staff as to the responses received from affected customers on a periodic basis pending final Commission action on the proposed Territorial Agreement.

WHEREFORE, FPL and JEA jointly request that the Commission enter an order approving the Territorial Agreement attached hereto as Attachment "A".

DATED this 15th day of June, 1998.

Respectfully submitted,

ATTACHMENT "A"
TERRITORIAL AGREEMENT

TERRITORIAL AGREEMENT
BETWEEN
FLORIDA POWER & LIGHT COMPANY
AND
JACKSONVILLE ELECTRIC AUTHORITY

Section 0.1 Territorial Agreement - This is a Territorial Agreement made and entered into by and between FLORIDA POWER & LIGHT COMPANY, a corporation organized and existing under the laws of the State of Florida ("COMPANY"), and JACKSONVILLE ELECTRIC AUTHORITY ("AUTHORITY") for the express purpose of seeking an Order of the Florida Public Service Commission adopting the following recommended Territorial Agreement;

Section 0.2 WHEREAS, the COMPANY, by virtue of its Charter and the laws of the State of Florida, is authorized and empowered to furnish electricity and power to persons, firms and corporations throughout the State of Florida and pursuant to such authority presently furnishes electricity and power to customers in areas of St. Johns, Nassau and Duval Counties, Florida, and elsewhere; and

Section 0.3 WHEREAS, the AUTHORITY, as an electric utility created by the Charter of the Consolidated City of Jacksonville, Florida, is authorized under that Charter and the laws of the State of Florida to produce and provide electricity and power to customers in Duval County and elsewhere; and

Section 0.4 WHEREAS, the respective areas of service of the parties in Duval, Clay, St. Johns and Nassau Counties are

contiguous in many places with the result that potential growth within the area may result in future uneconomic duplication of facilities unless such duplication is precluded by a territorial agreement; and

Section 0.5 WHEREAS, the Florida Public Service Commission ("COMMISSION") has previously recognized that any such duplication of said service facilities by the parties will result in needless and wasteful expenditures; and

Section 0.6 WHEREAS, the COMPANY and the AUTHORITY have previously entered into territorial agreements and such agreements have been approved by the COMMISSION; and

Section 0.7 WHEREAS, the AUTHORITY has previously entered into a territorial agreement with Clay Electric Cooperative ("CEC") which has been approved by the COMMISSION and by which, CEC has agreed to transfer all of its customers in Duval County to JEA. A portion of those customers are situated west of the existing JEA-FPL territorial boundary which is the subject matter of this Agreement. If approved, these CEC customers west of the existing FPL-JEA line will become JEA customers; and

Section 0.8 WHEREAS, the COMPANY and the AUTHORITY desire to avoid and eliminate any circumstances giving rise to possible duplication of service facilities and also desire to eliminate any

inconsistencies with the AUTHORITY's agreement with CEC, and, to that end, to modify the existing territorial boundaries; and

Section 0.9 WHEREAS, the COMMISSION is empowered by Section 366.04, Florida Statutes, to approve territorial agreements.

Section 0.10 NOW, THEREFORE, in fulfillment of the purposes and desires aforesaid, and in consideration of the mutual covenants and agreements herein contained, the parties hereto, subject to the approval of the COMMISSION, and subject to the terms and conditions herein set forth, do hereby agree as follows:

**ARTICLE I
DEFINITIONS**

Section 1.1 **Territorial Boundary Lines** - As used herein, the term "Territorial Boundary Lines" shall mean boundary lines which delineate areas on the maps and legal description attached hereto as Exhibits "A" and "B" and which differentiate and divide the COMPANY Territorial Area from the AUTHORITY Territorial Area in the counties of St. Johns, Nassau, Clay and Duval.

Section 1.2 **COMPANY Territorial Area** - As used herein, the term "COMPANY Territorial Area" shall mean the geographic area shown on Exhibits "A" and "B" labeled "FPL."

Section 1.3 **AUTHORITY Territorial Area** - As used herein, the term "AUTHORITY Territorial Area" shall mean the geographic area shown on Exhibits "A" and "B" labeled "JEA."

Section 1.4 **End Use Facilities** - As used herein, the term "End Use Facilities" shall mean a geographic location where the electric energy used by a customer is ultimately consumed.

Section 1.5 **Distribution Facilities** - As used herein, the term "Distribution Facilities" shall mean all electric facilities of either party having a voltage rating of up to but not including 69 KV.

Section 1.6 **Net Book Value** - As used herein, the term Net Book Value shall mean original installation cost less depreciation, or in the case of real property, the original acquisition cost.

ARTICLE II
TERMINATION OF PRE-EXISTING TERRITORIAL AGREEMENTS

Section 2.1 **Pre-Existing Territorial Agreements** - Upon final approval of this agreement by the COMMISSION, all previous Territorial Agreements between the COMPANY and the AUTHORITY are hereby terminated.

ARTICLE III
ELIMINATION OF OVERLAPPING FACILITIES

Section 3.1 **Transfer of Customers** - As a result of the establishment of the boundary herein certain customer accounts and distribution facilities shall be transferred between the parties to comply with Section 1.1. Until such transfers are accomplished pursuant to Section 3.5, each utility is authorized to continue providing service to those identified customer locations.

Section 3.2 Those customer accounts identified in Exhibit "C" shall be transferred from the AUTHORITY to the COMPANY.

Section 3.3 Those customer accounts identified in Exhibit "D" shall be transferred from the COMPANY to the AUTHORITY.

Section 3.4 Each party is responsible for making the necessary modifications to its facilities to effect the transfers in Sections 3.2 and 3.3. Both parties agree to coordinate those modifications such that they do not unduly impede the progress of the other party.

Section 3.5 **Timing of Transfers** - The distribution facilities of either party that are located in the other party's Territorial Area, not including the express feeders referred to by section 3.12 of this Agreement, and the identified customer accounts, shall be transferred to the appropriate party within three years of the

COMMISSION's final order approving this Territorial Agreement. The three-year period beginning with the COMMISSION's final order of approval shall be the "Transfer Period".

If during the transfer period major repairs to the facilities to be transferred occur before the transfer due to damage from a hurricane, tropical storm, or tornado, then the party which is to acquire those facilities shall pay, upon presentation of appropriate cost information, all capital costs only of the aforesaid repairs. However, before any major storm damage repairs are made, the acquiring party shall be given the opportunity to do the repairs itself, and effectuate the transfer of those storm damage customers at the time of repair. The parties hereto agree to timely notify each other, by letter, of any governmental mandate to relocate, for road modifications, facilities scheduled for transfer, and coordinate the customer transfers to allow the receiving party to carry out the relocation.

It is further agreed that upon final approval of this Territorial Agreement by the COMMISSION that the COMPANY shall sell the COMPANY's Steelbald Substation to the AUTHORITY at net book value, which conveyance of real and personal property shall be made in accordance with Exhibit "E" attached hereto. Notwithstanding any delay that may occur in the execution of the conveyance documents, it is agreed by the parties that the AUTHORITY shall have the right to the use, egress and ingress, and occupancy of the described land and facilities effective immediately upon final approval of this Territorial Agreement. In accordance with Exhibit

"E", the COMPANY will remove all its transmission voltage facilities from said substation at the COMPANY's expense, and such removal shall be consistent with the orderly transfer of customers and facilities during the Transfer Period. The COMPANY shall sell to the AUTHORITY and the AUTHORITY shall sell to the COMPANY, at net book value, all required distribution feeders or portions of feeders (including easements and rights of way) to effect the transfer of customers as provided for in this Agreement. The COMPANY also grants the AUTHORITY an option to purchase the southernmost portion of the COMPANY's Duval to Steelbald Transmission right-of-way at net book value, which portion shall be no more than 100 feet wide and adequate for a double circuit 230 kv transmission line of vertical construction, and all necessary easements or licenses for cross-over of existing lines where necessary. Said option shall be exercised by the AUTHORITY within one year of final COMMISSION approval of the Territorial Agreement. The COMPANY will also allow unlimited access and use of the existing patrol road by the AUTHORITY on this Right of Way necessary to access the AUTHORITY's distribution or transmission facilities. The AUTHORITY and the COMPANY further agree to construct whatever additional facilities are necessary to serve the transferred customers and each will bear the cost of such construction in their new territories.

The AUTHORITY and COMPANY's 115kv interconnection from the AUTHORITY's Normandy Substation to the COMPANY's Baldwin Substation will be discontinued.

Prior to and after transfer of these facilities, it may be necessary for the parties to jointly use certain facilities and the COMPANY and the AUTHORITY shall enter into, as necessary, an appropriate joint use agreement for those specific facilities. Facilities are to be transferred in good operating condition. Customer meters and oil-filled equipment will not be transferred (with the exception of those specified oil-filled items of equipment in Exhibit "E"). Upon transfer of any facilities, the receiving utility shall be solely responsible for any maintenance, removal, upgrading or improvements to those facilities.

It is agreed that voltage flicker and var fluctuations from the steel mill and other existing industrial operations will be acceptable to either the COMPANY or the AUTHORITY, so long as the detrimental effects do not exceed current levels.

Section 3.6 **Bulk Power** - No provision of this Agreement shall be construed as applying to either bulk power supply for resale, or to facilities dedicated to such bulk power supply that operate at a voltage of 69 KV or higher.

Section 3.7 **Customer Deposits** - The utilities intend that transferred customers suffer no hardship due to different deposit requirements of each utility. The transferring utility will refund and/or apply to the final bill any deposit currently applicable. The receiving utility may then bill the customer a deposit, provided that such deposit is no greater than the deposit required

by the transferring utility. The customer will be allowed to make up to three equal payments over three months to meet the deposit requirements of the receiving utility.

Section 3.8 Assignment of Rights - All easements, street light contracts, franchise agreements and joint use agreements held by either the COMPANY or the AUTHORITY necessary or appurtenant to serving customers transferred pursuant to this Agreement are hereby assigned to the utility receiving the transferred customers.

Section 3.9 Allocations - The COMPANY's Territorial Area, as herein defined in Exhibit "A", is hereby allocated to the COMPANY as its service area, and the AUTHORITY's Territorial Area, as herein defined, is hereby allocated to the AUTHORITY as its service area. The parties shall each have the right to provide retail distribution electric service to all customers within their respective territorial area. Neither party shall hereafter serve or offer to serve a retail customer whose End Use Facilities are located in the territorial area of the other party except as provided in Section 3.10 below.

Section 3.10 Temporary Service - The parties recognize that in exceptional circumstances, economic constraints or good engineering practices may indicate that a customer's end use facilities either cannot or should not be immediately served by the party in whose territorial area they are located. In such situations, upon

written request by the party in whose territorial area the end use facilities are located, to the other party, the other party may agree in writing to temporarily provide service to such customer. If such temporary service lasts, or is expected to last for more than three years, the parties will seek formal approval of the service from the COMMISSION.

Except as outlined in Section 3.11, during the Transfer Period, as defined in Section 3.5, in the event any customer located within one party's service territory requests service from the other party, and the party within whose territory the customer is located approves the provision of such service, then, upon final transfer of that customer, that party shall reimburse the other party for the difference in revenues received from that customer and the capital costs expended in providing such service. Transformers and meters shall not be considered as capital costs with respect to the provision of new service.

The party within whose territory the new customer is located may elect to perform any or all work necessary for the establishment of new service for a new customer; however the party actually providing service shall set a meter for the customer, bill the customer, and receive revenues from the customer until such time as a final transfer of such customer occurs.

Section 3.11 Revenues for New Accounts - Each utility shall reimburse each other for the annualized non-fuel revenue impact of any new accounts added between 5/1/98 and 4/30/99. The annualized

revenue impact will be determined by taking the actual average monthly non-fuel revenues during the period multiplied by 12.

Section 3.12 Express Feeders - The COMPANY and the AUTHORITY shall each have the right to construct and maintain three-phase feeder lines within the Territorial Area of the other party for the purpose of express feed through the area. No such facilities shall be used by the COMPANY or the AUTHORITY to provide service to customers located in the service area of the other party.

ARTICLE IV PREREQUISITE APPROVAL

Section 4.1 Regulatory Approval - The provisions of this Agreement are subject to the regulatory authority of the COMMISSION whose approval shall be a prerequisite to the validity and applicability hereof. Neither party shall be bound hereunder until such approval has been obtained.

ARTICLE V DURATION

Section 5.1 Duration - This Agreement shall continue and remain in effect until the COMMISSION, by order, modifies or withdraws its approval of this Agreement after proper notice and hearing.

ARTICLE VI CONSTRUCTION OF AGREEMENT

Section 6.1 **Intent and Interpretation** - It is hereby declared to be the purpose and intent of this Agreement, in accordance with which all provisions of this Agreement shall be interpreted and constructed, to eliminate and avoid needless and wasteful expenditures, duplication of facilities and potentially hazardous situations, which would otherwise result from unrestrained competition, between the parties operating in overlapping service areas.

Section 6.2 **Annexation** - Annexation or de-annexation shall not affect this Agreement.

ARTICLE VII
MISCELLANEOUS

Section 7.1 **Negotiations** - Whatever terms or conditions may have been discussed during the negotiations leading up to the execution of this Agreement, the only terms and conditions agreed upon are those set forth herein, and no alteration, modification, enlargement or supplement to this Agreement shall be binding upon either of the parties hereto unless the same shall be in writing, signed by both parties, and approved by the COMMISSION. However, nothing in this Agreement shall be construed as prohibiting either party from unilaterally initiating an action before the COMMISSION, or other entity with appropriate jurisdiction, seeking modification or cancellation of this Agreement.

Section 7.2 **No Assumption of Liabilities by COMPANY** - The COMPANY shall not assume or be responsible for any financial obligations or liabilities of the AUTHORITY. Without limiting the generality of the foregoing, the COMPANY shall not assume or be responsible for:

(a) Any tax, penalty or fee assessed on the AUTHORITY arising out of or resulting from the transfer of facilities;

(b) Any tax, penalty or fee resulting from the operations of the facilities before the date of transfer;

(c) Any attorney's, accountant's or other fees or expenses incurred by the AUTHORITY in connection with this Agreement or any transaction made necessary by this Agreement;

(d) Any liabilities or obligations resulting from any lawsuit or proceeding in any way related to the AUTHORITY arising out of transactions or events in any way related to the facilities;
or

(e) Any accrued but unpaid obligation of the AUTHORITY.

Section 7.3 **No Assumption of Liabilities by AUTHORITY** - The AUTHORITY will not be responsible for any financial obligations or liabilities of the COMPANY. Without limiting the generality of the foregoing, the AUTHORITY shall not assume or be responsible for:

(a) Any tax, penalty or fee assessed on the COMPANY arising out of or resulting from the transfer of facilities;

(b) Any tax, penalty or fee resulting from the operations of the facilities after the date of transfer;

(c) Any attorney's, accountant's or other fees or expenses incurred by the COMPANY in connection with this Agreement or any transaction made necessary by this Agreement;

(d) Any liabilities or obligations resulting from any lawsuit or proceeding in any way related to the COMPANY arising out of transactions or events in any way related to the facilities; or

(e) Any accrued but unpaid obligation of the COMPANY.

Section 7.4 Environmental Indemnification - The AUTHORITY shall indemnify and hold the COMPANY harmless from and against any claims, losses, damages, liabilities, fines, penalties, charges, administrative and judicial proceedings and orders, judgments, remedial action requirements, enforcement actions of any kind, and all costs and expenses incurred in connection therewith, including but not limited to attorney's fees, paralegal charges and expenses, arising directly, or indirectly, in whole or in part, out of:

(a) Any activity by the AUTHORITY'S employees, contractors or agents, in connection with the treatment, decontamination, handling, removal, storage, cleanup, transport or disposal or hazardous material related to the AUTHORITY'S facilities transferred to the COMPANY; and

(b) The presence caused by the AUTHORITY, its employees, agents or contractors of any hazardous materials or releases or discharges of hazardous materials associated with the AUTHORITY'S facilities transferred to the COMPANY occurring before the transfers.

The COMPANY shall indemnify the AUTHORITY in the same manner for Section 7.4, 7.4(a), and 7.4(b) above, as they relate to the COMPANY's facilities transferred to the AUTHORITY.

[The remainder of this page is intentionally left blank]

IN WITNESS WHEREOF, this Agreement has been caused to be executed in triplicate by the AUTHORITY in its name by its Manager and by the COMPANY in its name by its Vice President; and one of said triplicate copies has been delivered to each of the parties hereto.

Re: Account Number
Service Address:

Dear Customer:

Electric service in St. Johns and Duval Counties is provided in some areas by Florida Power & Light Company (FPL) and in other areas by Jacksonville Electric Authority (JEA).

FPL and JEA have entered into an agreement that will modify the territorial boundaries currently served by each utility. Over the past several years FPL & JEA have been trying to re-align territories to avoid costly and unnecessary duplication of facilities, which can adversely affect the rates customers of both companies pay. This modification of territories should also result in quicker restoration following storms and other causes of interruptions of service.

Under the terms of the proposed agreement (which has been submitted to the Florida Public Service Commission for their approval), the electric service in your area will be transferred from FPL to JEA. Although the exact time frame for the transfer of your account has not yet been determined, it will most likely be sometime within the next three years.

If you currently have a deposit with FPL, it will be credited to your final bill and any excess in the amount will be refunded to you. JEA will not require an initial deposit.

We respectfully request that your contact be no later than July 29, 1998.

The attached information provides you with a summary of rates charged by FPL and JEA. If you would like more specific information on how this will affect your bill, or if you have any questions or concerns, please feel free to call any of the following dedicated phone numbers:

FPL 1-800-468-8243 Ext. 7793
JEA 1-904-632-5200

Thank you for giving us the opportunity to serve you. While we are sorry to lose you as a customer, this agreement will benefit all customers of both utilities. In the near future, additional information regarding this transfer of your electric service will be provided.

Sincerely,

FPL Employee Name

RE: Account No.

Dear Customer:

Electric service in Duval and St. Johns Counties is provided in some areas by JEA and in some areas by FPL. I am writing to you because your service is in an area that is presently served by JEA but which will, under a proposed territorial agreement between JEA and FPL, be transferred to FPL. Likewise, the agreement provides that certain other customers located in areas presently served by FPL will be transferred to JEA. This agreement will help both utilities provide economical and efficient service to all electric utility customers in both counties.

Both JEA and FPL have approved the agreement and it has been submitted to the Florida Public Service Commission for final approval. The Commission encourages agreements such as this because they serve to eliminate costly and unnecessary duplication of facilities. Costs are minimized, the ability to plan for future needs is enhanced, and safety is improved. Following approval by the Commission, all existing JEA customers located in the FPL territory will be transferred to FPL. Likewise, all existing FPL customers located in the JEA territory will be transferred to JEA. This transfer process will last approximately three years and the two utilities will make every effort to ensure that the impact on the affected customers is minimized. Any deposit you may currently have with JEA will be returned and FPL will not require an initial deposit.

The attached information provides you with a summary of the rates charged by JEA and FPL. If you would like more specific information on how this change will affect your service, or if you have any questions or concerns, please do not hesitate to call one of the numbers provided below.

JEA Customer Service	1-904-632-5200

EXHIBIT "E"

CONVEYANCE OF REALTY OR PERSONALTY

Exhibit "E"

The transfer or conveyance of Steelbald Substation as provided for in section 3.5 of this Agreement shall be effected over time and in accordance with this schedule:

1. That portion of the Steelbald Substation, including realty and personalty, consisting of one 70 mva and one 80 mva transformer presently in service and energized including breakers, metering equipment and other equipment ancillary thereto, presently located on the Steelbald Substation site, which conveyance shall be executed so as to be effective on the effective date of final Commission approval of the Territorial Agreement between the parties hereto.
2. The remainder of the Steelbald Substation, including breakers, metering and ancillary equipment shall be conveyed upon completion of the Authority transmission facility to serve Steelbald Substation, which facility the Authority has committed to utilize its reasonable best efforts to have completed within one year of final Commission approval of the Territorial Agreement between the parties hereto, provided the 30 mva transformer presently in service at the Steelbald site shall not be conveyed, but shall be made available to the Authority for continuation of service from said substation during the Transfer Period. The 30 mva substation transformer shall be returned to the Company upon completion of the Transfer Period. The Authority will be responsible for all costs associated with the lease, operation, maintenance and replacement costs, if any, of this transformer during such Transfer Period. Additionally, one 80 mva transformer not energized or presently in service shall be available to the Company as a spare and shall not be conveyed under this Agreement.

- 3 The price for the realty and equipment referred to above shall be the net book value, as defined in this Agreement, which amounts shall be paid in cash at time of closing on the respective segments of Steelbald Substation as provided in paragraphs 1 and 2 above.
- 4 On or before the effective date of final Commission approval of the Territorial Agreement between the Company and the Authority, the parties shall execute an agreement of conveyance that more fully sets forth the terms and conditions hereinabove described in this Exhibit "E"
- 5 Parties agree to enter into agreements which would address, among other things, point of interconnect between the parties, relay protection, metering, access to facilities, maintenance and operational responsibility, liability, indemnification and other applicable commercial terms and conditions during the ownership transition in accordance with industry and engineering practices.
