

FLORIDA PUBLIC SERVICE COMMISSION

VOTE SHEET

JULY 21, 1998

RE: DOCKET NO. 980001-EI - Fuel and purchased power cost recovery clause and generating performance incentive factor.

Issue 1: Should Florida Power & Light Company's Motion for Reconsideration of Order No. PSC-98-0073-FOF-EI, Docket No. 980001-EI be granted?

Recommendation: No. Florida Power & Light Company's Motion for Reconsideration fails to demonstrate a basis for reconsideration because it is vague. However, staff recommends the Commission, on its own motion, amend the order to remedy inconsistencies within the order.

VOTE SHEET

JULY 21, 1998

DOCKET NO. 980001-EI - Fuel and purchased power cost recovery clause and generating performance incentive factor.

(Continued from previous page)

Issue 2: Should Florida Power Corporation's Motion for Reconsideration of Order No. PSC-98-0073-FOF-EI, Docket No. 980001-EI be granted?

Recommendation: Yes. Florida Power Corporation has met the standard for reconsideration by demonstrating that the Commission may have made a mistake of fact or law when it rejected the Florida Power Corporation's request for jurisdictional separation of transmission revenues. Because there is insufficient evidence in the record to fully analyze the issue, staff recommends that the matter be addressed at hearing.

APPROVED

Alternative Recommendation: No. FPC did not present any new evidence that was not already discussed at the hearing. Therefore, FPC's request for reconsideration should be denied. Staff understood FPC's argument and Order No. PSC-98-0073-FOF-EI states several reasons why the Commission disagreed with FPC. The focus of the Commission's order was to keep gains on broker sales the same before and after FERC Order 888. FPC's logic merely reclassifies existing production related revenues which would reduce the credit to retail customers. FPC can file new tariffs at FERC to correct any perceived harm to its stockholders.

DENIED

Issue 3: Should this docket be closed?

Recommendation: No.
