After speaking with Kay Flynn, she indicated that it would be best if we gave this undocketed special project a number, 980000-C. She indicated that she would need a memo from you to accomplish this. Having this number will facilitate the receiving of any comments that may come in, as well as the sending out of the preliminary report a week before the workshop. I will be available first thing Monday morning if you have any questions.

Thanks.

Kay, please consider this my request to assign a special project number, 980000C-SP, and title to another legislative project: "Determination of the Amount of Support Necessary to Provide Residential Basic Local Telecommunications Service to Low-Income Customers Who Qualify for Lifeline Service" (or "Lifeline Support" for short). If you need a formal memo, let me know.
