RE: Docket No. 960833-TP and Docket No. 971140-TP

Dear Mrs. Bayo:

Pursuant to Orders Nos. PSC-98-0810-FOF-TP and PSC-98-1271-FOF-TP, enclosed for filing in the above referenced dockets is AT&T of the Southern States, Inc.'s (AT&T's) Proposed Modifications of the Final Arbitrated Interconnection Agreement between BellSouth and AT&T. AT&T and BellSouth have not been successful in reaching an agreement regarding the language to modify the interconnection agreement. Accordingly, AT&T has enclosed its proposed language to comply with the filing directive in Order No. PSC-98-1271-FOF-TP.

Copies of the foregoing are being served on all parties or record in accordance with the attached Certificate of Service. Thank you for your assistance in this matter.

Sincerely,

Tracy Hatch

FPSC-RECORDS/REPORTING

AT&T PROPOSED MODIFICATIONS TO REFLECT FPSC ORDER NOS. PSC-  
98-0810-FOF-TP AND PSC-98-1271-FOF-TP REGARDING UNE  
COMBINATIONS

PARAGRAPH 1.A.

The Services and Elements provided pursuant to this Agreement may be connected to other Services and Elements provided by BellSouth or to any Services and Elements provided by AT&T itself or by any other vendor. AT&T may purchase unbundled Network Elements that are not already combined for the purpose of combining Network Elements in any manner that is technically feasible, so long as such combination does not recreate an existing BellSouth service including recreating existing BellSouth services. Combinations that do not recreate an existing BellSouth retail service and that exist at the time of AT&T's order, the price AT&T shall pay is the sum of the prices for the component elements shown in Table 1 of part IV. For the specific case of migration of an existing BellSouth customer to AT&T, the price AT&T shall pay is the sum of the prices for the loop and the switch port. For those combinations of network elements not already in existence that recreate an existing BellSouth retail service, the parties agree that prices must be negotiated. For purposes of this Section 1.A., to recreate an existing BellSouth retail service, the prices, terms and conditions of the AT&T service offered to a customer must be identical to all prices, terms and conditions of the service then provided by BellSouth to that particular customer, whether provided under tariff or contract.
