Mr. Joseph Schad has asked to participate on Item 3 via telephone. At the May 5, 1998, TASA Advisory Committee meeting, Committee Member Joseph Schad made a presentation regarding the need for an electrolarynx device to be distributed by Florida Telecommunications Relay, Inc. Mr. Schad's presentation was the impetus for staff's investigation regarding the distribution of this device. Furthermore, Mr. Schad is a user of an electrolarynx device; therefore, staff believes Mr. Schad has a substantial interest in this item, not only as a Committee Member but also as a consumer. Staff would recommend that his request be granted.
