Re: FPSC Staff Audit  
UNDOCKETED: AFA 98-082-2-1

REQUEST FOR SPECIFIED CONFIDENTIAL TREATMENT

**DECLASSIFIED**

Dear Ms. Bayo:

We submit herewith Tampa Electric Company's one highlighted copy of FPSC Staff audit workpapers and request specified confidential treatment pursuant to Section 366.093, Fla. Stat., for the reasons detailed in Tampa Electric Company's Request for Confidential Treatment, which document is being simultaneously filed under separate cover. The sensitive information contained in these audit workpapers has been highlighted in yellow.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

  
James D. Beasley

AUDIT DISCLOSURE NO. 7

**SPECIFIED  
CONFIDENTIAL**

/ SUBJECT: SUBSIDIARIES NOT ALLOCATED COSTS BY TECO ENERGY

2 STATEMENT OF FACT:

3 Audit staff noted that several subsidiaries of TECO Energy are not being allocated a portion of the  
4 administrative and general expenses of TECO Energy.

5 The company was asked to explain why the following listed companies did not receive cost allocations  
6 from TECO Energy.

- 1) Peoples CoGen
- 2) PGS Florida
- 3) Bosek Gibson
- 4) TeCom
- 5) TECO Finance
- 6) TECO Investments
- 7) Suwanee Gas

7 The company responded that "All operating subsidiaries of TECO Energy, Inc. including downstream  
8 holding companies, were included in the allocation process. The only exceptions were subsidiaries that  
9 were not-operating, had negative 12-month operating income, had no revenues for the 12-month period,  
10 or had no operating assets as of the allocation date.

11 The seven companies listed in FPSC Request Number AF16, do not receive an allocation of TECO  
12 Energy allowable corporate expenditures as they met one or more of the exemptions identified in the  
13 preceding paragraph."

14 The company provided further explanations of which specific criteria the above listed companies met.  
15 Also, Balance Sheets and Income Statements of various companies, for the period under audit, were  
16 provided.

17 The company explanations were:

- 18 1) Peoples Cogeneration Company was a non-operating subsidiary, and had no revenues or  
19 operating income in 1997. No financial statements were prepared for this entity in 1997.
- 20 2) PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues and  
21 no operating assets in 1997. No financial statements were prepared for this entity in 1997.
- 22 3) Bosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to transition  
23 from a traditional engineering services company to a company focussed more on energy  
24 performance contracting. Due to its efforts to redefine its business focus, this company is  
25 considered non-operating. Revenues for 1997 were \$7.4 million with operating income for  
26 the year of only \$.3 million.

DISCLOSURE NO. 7 (con't.)

SPECIFIED  
CONFIDENTIAL

1 Total assets of Bosek, Gibson and Associates at 12/31/97 were \$6,233,450.  
2 Operating assets of Bosek, Gibson and Associates at 12/31/97 were \$6,062,891.

3 4) TeCom is considered a non-operating subsidiary. This company is in the process of  
4 developing and marketing advanced energy management, automation and control systems.  
5 For 1997, TeCom has \$1.2 million in revenues but had negative operating income.

6 Total assets of TeCom, at 12/31/97 were \$14,454,278.  
7 Operating assets of TeCom, at 12/31/97 \$14,454,278

8 5) TECO Finance, Inc. is considered a non-operating subsidiary. This company is the source  
9 of debt capital for the diversified operations of TECO Energy. For 1997, this company had  
10 \$1.7 million in revenues, all from affiliated companies, and negative operating income. This  
11 company has no employees. All legal and accounting costs related to this subsidiary are  
12 billed directly to TECO Finance.

13 Total assets of TECO Finance, at 12/31/97 were \$216,772,000.  
14 Operating assets of TECO Finance at 12.31.97 were \$216,622,000

15 6) TECO Investments, Inc. is considered a non-operating subsidiary. This company invests  
16 capital in short-and long-term securities and financial instruments. Revenues for 1997 were  
17 \$3 million with operating income of \$.2 million. Its assets at December 31, 1997 were  
18 comprised of cash, receivables and investments. This company has no employees. All legal  
19 and accounting costs related to this subsidiary are billed directly to TECO Investments.

20 Total assets of TECO Investments at 12/31/97 were \$66,330,000.  
21 Operating assets of TECO Investments at 12/31/97 were \$66,209,000

22 7) Sewanee Gas Marketing, Inc. is a downstream holding company and considered non-  
23 operating. This company had no revenues in 1997. No financial statements were prepared  
24 for this entity in 1997. This company has no employees.

TAX ALLOCATION AGREEMENT

SPECIFIED  
CONFIDENTIAL

THIS TAX ALLOCATION AGREEMENT, made this 1st day of June, 1992, between and among TECO Energy, Inc. (hereinafter referred to as "Parent"), and such of its affiliates ("Subsidiaries"), whether presently existing or hereinafter acquired, as are or shall be part of the "Affiliated Group" as hereinafter defined. This Agreement is to document the tax allocation method used by the Affiliated Group from inception forward.

WITNESSETH:

WHEREAS, the parties (hereinafter sometimes referred to as "Members"; or in the singular "Member") hereto are part of an affiliated group ("Affiliated Group") as defined by the Internal Revenue Code of 1986, as amended ("Code"), I.R.C. Section 1504(a); and

WHEREAS, such Affiliated Group has since the taxable year ended December 31, 1971, filed a consolidated federal income tax return in accordance with I.R.C. Section 1501 and is required to file consolidated federal income tax returns for years subsequent to such year of first consolidated filing; and

WHEREAS, it is the intent and desire of the parties hereto to set forth in writing the method that has been and continues to be used (1) for allocating the consolidated "federal income tax liability" (as determined under Regulations Section 1.1502-2) of the Affiliated Group among its Members, (2) for allocating the consolidated Florida income tax liability (as determined under Florida Statutes Section 220.131(4)) of the Affiliated Group among its Members, (3) for reimbursing Parent for payment of such taxes, (4) for compensating any Member for use of its "net operating loss" or "tax credits" in arriving at such tax liability, and (5) to provide for the allocation and payment of any refund arising from a carryback of net operating losses or tax credits from subsequent taxable years.

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein, the parties hereto agree as follows:

1. A U.S. consolidated federal income tax return has been filed by Parent for the taxable year ended December 31, 1971, and has been or will be filed for each subsequent taxable year in respect of which this Agreement is in effect and for which the Affiliated Group is required or permitted to file a consolidated federal income tax return. Parent and each Subsidiary has or will execute and file such consents, elections, and other documents that may be required or appropriate for the proper filing of such returns.

10-8/5  
(1tx10)

**SPECIFIED**

2. In order to allocate the consolidated federal income tax liability of the Affiliated Group among the Members and to compensate Members of the Affiliated Group for the use of net operating losses or tax credits in arriving at said consolidated federal income tax liability, the Members of the Affiliated Group agree to determine and allocate the tax liability of the Affiliated Group among themselves in the following manner:

**Step 1.** The consolidated federal income tax liability of the Affiliated Group, as determined under Regulations Section 1.1502-2, shall be allocated to the Members in accordance with the method set forth in Regulations Section 1.1552-1(a)(2), except that for purposes of determining the "separate return tax liability" of a Member (both for purposes of this Step 1 and Step 2):

a. Limitations on the calculation of a deduction or the utilization of tax credits or the calculation of a tax liability shall be made on a consolidated basis. Accordingly, the limitations provided in I.R.C. Sections 38(c), 56(a), 170(b)(2), 172(b)(2), and similar limitations shall be applied on a consolidated basis.

b. Elections as to tax credits and tax computations which may have been different from the consolidated treatment if separate returns were filed shall be made on an annual basis by Parent.

c. The benefit of the graduated tax rates set forth in I.R.C. Section 11(b) and any similar benefits shall be allocated exclusively to Tampa Electric Company.

**Step 2.** An additional amount shall be allocated to each Member equal to 100 percent of the excess, if any, of (1) the "separate return tax liability" of such Member for the taxable year, over (2) the tax liability of such Member that is determined in accordance with Step 1 of paragraph 2 of this Agreement.

**Step 3.** The total of any additional amounts allocated to Members pursuant to Step 2 of paragraph 2 of this Agreement (including amounts allocated as a result of a carryback) shall be paid (as provided in paragraph 5 of this Agreement) by such Members to those other Members which had items of income, deductions, net operating losses, or tax credits to which such total is attributable pursuant to a consistent method which reasonably reflects such items of income, deductions, net operating losses, or tax credits (such consistency and reasonableness to be determined by the party charged with the administration of this Agreement in accordance with paragraph 4 of this Agreement). However, for this purpose, the amounts paid to Members will generally be deemed

consistent and reasonable if paid on a basis equal to 34 percent (or such other percentage as may be, or previously was, set forth from time to time in I.R.C. Section 11(b)(1)(C) or any successor or predecessor provision thereto) of net operating losses utilized and 100 percent of tax credits utilized (unless, due to special circumstances, this would be inequitable) and which is substantiated by specific records maintained by the group for such purposes.

Under the principles of Revenue Ruling 66-374 [1966-2 C.B. 427], the "net operating loss" of a Member is the deduction which such Member would have had available if it actually filed a separate return for the year and thus would not include any portion of a Member's net operating loss sustained in a prior or subsequent year which had been absorbed by the Affiliated Group or by the Member in computing actual liabilities for prior or subsequent years. Notwithstanding the preceding sentence, no benefit under Step 3 of paragraph 2 of this Agreement shall be granted a Member unless the net operating loss is availed of in reducing the consolidated federal income tax liability. The rules stated in the previous sentences regarding carryover net operating losses will also apply in the computation of other carryover items such as investment tax credits, foreign tax credits, and charitable contribution deductions.

3. Because the imposition of any alternative minimum tax on the Affiliated Group results from investment decisions made by Parent, Parent shall be charged with and shall pay the full amount of any such alternative minimum tax. Any resulting minimum tax credit shall be treated as a tax credit of Parent for all purposes of this Agreement, including the application of paragraph 5 of this Agreement.

4. The provisions of this Agreement shall be administered by the individual who is the director of the corporate tax department of Parent (the "Tax Director").

5. Each Member shall pay Parent its allocated consolidated federal income tax liability under Step 1 of paragraph 2 of this Agreement. Each Member benefitting from net operating losses and tax credits shall pay to Parent its added tax assessment determined under Step 2 of paragraph 2 of this Agreement. Parent shall pay to each Member with a net operating loss or tax credits during the taxable year its allocable share of the total of the additional amounts due from other Members pursuant to Step 3 of paragraph 2 of this Agreement. Payments for these allocable shares are to be made no later than five days after the date of filing of the consolidated federal income tax return for such taxable year.

6. The Tax Director shall have the right to assess Members their share of estimated tax payments to be made on the projected consolidated federal income tax liability for each year. Payment

**SPECIFIED  
CONFIDENTIAL**

to Parent shall be made within five days after such assessment. Such Member will receive credit for such prepayments in the year-end computation under paragraph 5 of this Agreement.

7. If part or all of an unused consolidated net operating loss or tax credit is allocated to a Member of the Affiliated Group pursuant to Regulations Section 1.1502-79, and it is carried back or forward to a year in which such Member filed a separate income tax return or a consolidated federal income tax return with another affiliated group, any refund or reduction in tax liability arising from the carryback or carryover shall be retained by such Member. (If such refund or reduction goes to some entity other than the Member, then such entity shall pay over such amount to the Member.) Notwithstanding the above, Parent shall determine whether an election shall be made not to carryback any consolidated net operating loss arising in a consolidated return year (including any portion allocated to a Member under Regulations Section 1.1502-79) in accordance with I.R.C. Section 172(b)(3).

8. If the consolidated federal income tax liability is adjusted for any taxable period, whether by means of an amended return, claim for refund, or after-tax audit by the Internal Revenue Service, the liability of each Member shall be recomputed under paragraph 2 of this Agreement to give effect to such adjustments. In the case of a refund, Parent shall make payment to each Member for its share of the refund, determined in the same manner as in paragraph 5 of this Agreement, at the time that is determined by the Tax Director to be appropriate, which shall be no later than five days after the later of (a) the receipt of the refund by Parent, and (b) the expiration date of the periods of limitations for the relevant taxable periods; and in the case of an increase in tax liability, each Member shall pay to Parent its allocable share of such increased tax liability within five days after receiving notice from the Tax Director of its obligation to pay its allocable share of such liability. If any interest is to be paid or received as a result of a consolidated federal income tax deficiency or refund, such interest shall be allocated to the Members in the ratio each Member's change in consolidated federal income tax liability bears to the total change in tax liability. Any penalty shall be allocated upon such basis as the Tax Director deems just and proper in view of all applicable circumstances.

9. This Agreement shall apply to the taxable year specified in the preamble of this Agreement, and all subsequent taxable years, unless the Members agree in writing to terminate the Agreement. Notwithstanding such termination, this Agreement shall continue in effect with respect to any payments or refunds due for all taxable periods prior to termination.

10. This Agreement shall also apply to the consolidated State of Florida income tax liability of the Affiliated Group. The Tax Director shall apply the provisions of this Agreement in a manner

**SPECIFIED  
CONFIDENTIAL**

that results in their appropriate application to the Affiliated Group's Florida income tax liability. Accordingly, the separate return Florida income tax liability of each Member shall be determined in a manner consistent with the procedure set forth in paragraph 2 of this Agreement. The Tax Director shall also take into account the following special rules in determining each Member's allocable portion of the Affiliated Group's Florida income tax liability. Each Member's share of the Affiliated Group's income (as determined in accordance with the procedure described in paragraph 2 of this Agreement) that shall be treated as attributable to it for purposes of determining its share of the Affiliated Group's Florida income tax liability shall be determined by applying the apportionment provisions of Florida Statutes § 220.15, as if the Member was not a member of an affiliated group. The Member shall pay to Parent at the times otherwise provided for in this Agreement the amount of its share of the Affiliated Group's Florida income tax liability determined under such special rule. Parent shall be responsible for the payment of the actual Florida income tax liability of the Affiliated Group to the extent it differs from the aggregate amount of payments received by it from the Members. Any difference between the aggregate amount of payments received by Parent from the Members and the actual Florida income tax liability of the Affiliated Group shall inure to the benefit or detriment of Parent, as the case may be. Any Member that is not a member of the Affiliated Group for the purpose of filing Florida income tax returns shall be solely responsible for the payment of its Florida income tax liability and shall not otherwise be responsible for the Florida income tax liability of the Affiliated Group.

11. This Agreement shall not be assignable by any Member without the prior written consent of the others.

12. All material including, but not limited to, returns, supporting schedules, work papers, correspondence, and other documents relating to the consolidated federal or Florida income tax returns filed for a taxable year during which this Agreement was in effect shall be made available to any party to this Agreement during regular business hours for a minimum period equal to applicable federal record retention requirements.

13. A dispute or difference between the parties with respect to the operation or interpretation of this Agreement shall be decided by the Tax Director.

14. Any Member corporation which leaves the Affiliated Group shall be bound by this Agreement.

15. The Members hereto specifically recognize that from time to time other companies may become Members of the Affiliated Group and hereby agree that such new Members may become parties to this Agreement by executing the master copy of this Agreement which

~~SECURED~~  
**CONFIDENTIAL**

shall be maintained at Parent's headquarters. It will not be necessary for all the other Members to re-execute the Agreement but the new Member may simply sign the existing Agreement and it will be effective as if the old Members had re-executed.

16. Any alteration, modification, addition, deletion, or other change in the consolidated income tax return provisions of the Code or the regulations thereunder or the Florida Statutes or any rules thereunder shall automatically be applicable to this Agreement mutatis mutandis.

17. Failure of one or more parties hereto to qualify by meeting the definition of Member of the "Affiliated Group" shall not operate to terminate this Agreement with respect to the other parties as long as two or more parties hereto continue so to qualify.

18. This Agreement shall apply only to the allocation of the federal and Florida income tax liability of the Affiliated Group and shall not apply to the allocation of any other tax liability.

19. The Tax Director shall be responsible for determining the effect of allocations made under this Agreement upon the earnings and profits of each Member of the Affiliated Group.

20. This Agreement shall bind and inure to the respective successors and assigns of the parties hereto; but no assignment shall relieve any party's obligations hereunder without the written consent of the other parties.

21. This Agreement shall be governed by the laws of the State of Florida.

IN WITNESS WHEREOF, the parties hereto have caused their names to be subscribed and executed by their respective authorized officers on the dates indicated, effective as of the date first written above.

Apollo Beach, FL 33572-9200

Mr. McBride:

This is in response to your letter of March 13, requesting certain information relative to JEA's transportation costs. We do not maintain records in a format that would allow us to readily provide the information requested in #1, however we can furnish data requested in Nos. 2, 3 and 4.

**Non-Discounted Contract Rail Rates - 1997**

- 3 Annual Cost of private railcar ownership for 1997 was \$276,026 after crediting lease revenue to maintenance costs. Capital costs are treated as a sunk cost and are not included in the annual cost.

Please send me a copy of the completed benchmark comparison between TECO and the four municipal utilities in Florida when completed.

We trust the above will satisfy your needs.

Sincerely,

P.G. Para  
Director - SJRPP Fuels

Sr. Consulting Engineer  
Tampa Electric Company  
Fuels Dept. - PSC  
6944 U.S. Highway 41 North  
Apollo Beach, FL 33572-9200

Dear Carey:

In response to your request for rail transportation costs paid by Gainesville Regional Utilities in 1997, I have listed the cents per ton mile cost. Pursuant to our discussion, the following cost data will be used solely for the purpose of the Florida Public Service Commission's annual review of transactions between TECO and its affiliate, TECO Transport and Trade.

GRU's cost was calculated on the following basis:

Rail Rates (Discounted & Non-discounted)  
Railcar Lease Payments  
Railcar Maintenance Cost  
Average Miles (one way)

GRU's 1997 Calculated Cost: (Cents per ton mile)

1- Discounted: 2.62  
2- Non-Discounted: 2.70 45-1%

## Memorandum

To: J. S. Chronister  
From: Randall Zavertnik  
Date: August 24, 1998  
Subject: FPSC Audit Document/Record Request  
Audit Purpose AFA 98-082-2-1  
Request Number AF 29

1 In connection with the follow-up request for additional information on AF 16, the companies  
2 listed below did not receive an allocation of A&G from TECO Energy in 1997. The reasons for  
3 not allocating A&G to these companies are documented in the following:

- 4 1. Peoples Cogen - Peoples Cogeneration Company was a non-operating subsidiary, and had  
5 no revenues or operating income in 1997. No financial statements were prepared for this  
6 entity in 1997.
- 7 2. PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues  
8 and no operating assets in 1997. No financial statements were prepared for this entity in  
9 1997.
- 10 3. BGA - Bosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to  
11 transition from a traditional engineering services company to a company focussed more  
12 on energy performance contracting. Due to its efforts to redefine its business focus, this  
13 company is considered non-operating. Revenues for 1997 were \$7.4 million with  
14 operating income for the year of only \$3 million.
- 15 4. TeCom - TeCom Inc. is considered a non-operating subsidiary. This company is in the  
16 process of developing and marketing advanced energy management, automation and  
17 control systems. For 1997, TeCom had \$1.2 million in revenues but had negative  
18 operating income.
- 19 5. TECO Finance - TECO Finance, Inc. is considered an non-operating subsidiary. This  
20 company is the source of debt capital for the diversified operations of TECO Energy. For  
21 1997, this company had \$1.7 million in revenues, all from affiliated companies, and  
22 negative operating income. This company has no employees. All legal and accounting  
23 costs related to this subsidiary are billed directly to TECO Finance.

PCU

Q38 11/19

**TAMPA ELECTRIC COMPANY**  
**SUMMARY OF WORK PERFORMED**  
**COMPANIES NOT RECEIVING ALLOCATIONS FROM TECO ENERGY**  
**CALENDAR YEAR 1997**

AFIA 98-082-3-1

**SUMMARY OF WORK PERFORMED**  
**SUBSIDIARIES NOT RECEIVING ALLOCATION FROM TECO ENERGY**

**SPECIFIED  
CONFIDENTIAL**

**Audit Work Performed:**

Audit staff noted that several subsidiaries of TECO Energy are not being allocated a portion of the administrative and general expenses of TECO Energy.

The company was asked to explain why the following listed companies did not receive cost allocations from TECO Energy.

- 1) Peoples CoGen
- 2) PGS Florida
- 3) Bosek Gibson
- 4) TeCom
- 5) TECO Finance
- 6) TECO Investments
- 7) Suwanee Gas

The company responded that "All operating subsidiaries of TECO Energy, Inc. including downstream holding companies, were included in the allocation process. The only exceptions were subsidiaries that were not-operating, had negative 12-month operating income, had no revenues for the 12-month period, or had no operating assets as of the allocation date.

The seven companies listed in FPSC Request Number AF16, do not receive an allocation of TECO Energy allowable corporate expenditures as they met one or more of the exemptions identified in the preceding paragraph."

The company provided further explanations of which specific criteria the above listed companies met. Also, Balance Sheets and Income Statements of various companies, for the period under audit, were provided.

The company explanations were:

- 1) Peoples Cogeneration Company was a non-operating subsidiary, and had no revenues or operating income in 1997. No financial statements were prepared for this entity in 1997.
- 2) PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues and no operating assets in 1997. No financial statements were prepared for this entity in 1997.
- 3) Bosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to transition from a traditional engineering services company to a company focussed more on energy performance contracting. Due to its efforts to redefine its business focus, this company is considered non-operating. Revenues for 1997 were \$7.4 million with operating income for the year of only \$.3 million.

July 11/1/98

**TAMPA ELECTRIC COMPANY**  
**SUMMARY OF WORK PERFORMED**  
**COMPANIES NOT RECEIVING ALLOCATIONS FROM TECO ENERGY**  
**CALENDAR YEAR 1997**

AFA 98-082-3-1

Total assets of Bosek, Gibson and Associates at 12/31/97 were \$6,233,450.  
Operating assets of Bosek, Gibson and Associates at 12/31/97 were \$6,062,891.

- 4) TeCom is considered a non-operating subsidiary. This company is in the process of developing and marketing advanced energy management, automation and control systems. For 1997, TeCom has \$1.2 million in revenues but had negative operating income.

Total assets of TeCom, at 12/31/97 were \$14,454,278.  
Operating assets of TeCom, at 12/31/97 \$14,454,278

- 5) TECO Finance, Inc. is considered a non-operating subsidiary. This company is the source of debt capital for the diversified operations of TECO Energy. For 1997, this company had \$1.7 million in revenues, all from affiliated companies, and negative operating income. This company has no employees. All legal and accounting costs related to this subsidiary are billed directly to TECO Finance.

Total assets of TECO Finance, at 12/31/97 were \$216,772,000.  
Operating assets of TECO Finance at 12/31/97 were \$216,622,000

- 6) TECO Investments, Inc. is considered a non-operating subsidiary. This company invests capital in short-and long-term securities and financial instruments. Revenues for 1997 were \$.3 million with operating income of \$.2 million. Its assets at December 31, 1997 were comprised of cash, receivables and investments. This company has no employees. All legal and accounting costs related to this subsidiary are billed directly to TECO Investments.

Total assets of TECO Investments at 12/31/97 were \$66,330,000.  
Operating assets of TECO Investments at 12/31/97 were \$66,209,000

- 7) Suwancee Gas Marketing, Inc. is a downstream holding company and considered non-operating. This company had no revenues in 1997. No financial statements were prepared for this entity in 1997. This company has no employees.

1997 TRANSPORTATION MARKET PRICE APPLICATION

Tampa Electric Weighted Average per ton

Water Transportation Price from All

Tampa Electric Coal Sources

(\$134,037,857.58 divided by 7,184,320.18)

45.2 \$18.66 *AA*

*(b) ↗*

*(a) ↗*

2 Transportation Benchmark

45.1 \$28.10

3 Over/(Under) Benchmark

(9.44)

4 Total Tons Transported in 1997

45.2 7,184,320.18 *a* *↑*

5 Total Transportation Cost in 1997

45.2 \$134,037,857.58 *b*

Total Amount Allowable for Recovery

Using Benchmark

(\$ 28.10 x 7,184,320.18)

\$ 201,895,989.25

Note A

6 Total Cost Over/(Under) Benchmark - 1997

\$ (67,858,131.67)

7 Prior Year's Cumulative Benefit (1988-1996) \$ (260,742,395.51)

8 Net Benefit for 1988-1997

\$ (328,600,527.18)

Note A:

Computations: *(b) ↗* *c* *↑* *↑* *d* *↑*  
 $28.10 \times 7,184,320.18 = 201,895,989.25$   
which is a difference of \$ 16,572.19 less than and  
showing denominator of 1000 - 110 M/gal.

RANGE NAME: SUMMARY

1 7/21/98:  
 2 Verb of from  
 3 Carl Hines today  
 4 is that all we've -  
 5 borne transportation  
 6 is performed by  
 7 TECO Transport on  
 8 our affiliated company  
 9 under the TECO Energy  
 10 umbrella.  
 11 TECO Transport  
 12 includes Mid South  
 13 Towing, Electro-Cool  
 14 and G-1st Coal  
 15 Transit Services.  
 16 Mid South Towing  
 17 transports coal to  
 18 the Electro-Cool  
 19 facility at the Vaca, La.  
 20 From the Electro-Cool  
 21 storage facility, the  
 22 coal is moved to  
 23 Tampa Electric on  
 24 Goliad Power barges.  
 25 Rail transportation  
 26 is priced separately  
 27 and is not part of  
 28 these \$/ton costs.

| CONTRACT             | TONNAGE      | \$/TON | TOTAL DOLLARS   |

AUDIT DISCLOSURE NO. 7

/ SUBJECT: SUBSIDIARIES NOT ALLOCATED COSTS BY TECO ENERGY

2 STATEMENT OF FACT:

3 Audit staff noted that several subsidiaries of TECO Energy are not being allocated a portion of the  
4 administrative and general expenses of TECO Energy.

5 The company was asked to explain why the following listed companies did not receive cost allocations  
6 from TECO Energy.

- 1) Peoples CoGen
- 2) PGS Florida
- 3) Bosek Gibson
- 4) TeCom
- 5) TECO Finance
- 6) TECO Investments
- 7) Suwanee Gas

7 The company responded that "All operating subsidiaries of TECO Energy, Inc. including downstream  
8 holding companies, were included in the allocation process. The only exceptions were subsidiaries that  
9 were not-operating, had negative 12-month operating income, had no revenues for the 12-month period,  
10 or had no operating assets as of the allocation date.

11 The seven companies listed in FPSC Request Number AF16, do not receive an allocation of TECO  
12 Energy allowable corporate expenditures as they met one or more of the exemptions identified in the  
13 preceding paragraph."

14 The company provided further explanations of which specific criteria the above listed companies met.  
15 Also, Balance Sheets and Income Statements of various companies, for the period under audit, were  
16 provided.

17 The company explanations were:

- 18 1) Peoples Cogeneration Company was a non-operating subsidiary, and had no revenues or  
19 operating income in 1997. No financial statements were prepared for this entity in 1997.
- 20 2) PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues and  
21 no operating assets in 1997. No financial statements were prepared for this entity in 1997.
- 22 3) Bosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to transition  
23 from a traditional engineering services company to a company focussed more on energy  
24 performance contracting. Due to its efforts to redefine its business focus, this company is  
25 considered non-operating. Revenues for 1997 were [REDACTED] with operating income for  
26 the year of only [REDACTED].

DRAFT

WJP 1  
(213)

DISCLOSURE NO. 7 (con't.)

1 Total assets of Bosek, Gibson and Associates at 12/31/97 were \$6,233,450.  
2 Operating assets of Bosek, Gibson and Associates at 12/31/97 were \$6,062,891.

3 4) TeCom is considered a non-operating subsidiary. This company is in the process of  
4 developing and marketing advanced energy management, automation and control systems.  
5 For 1997, TeCom has [REDACTED] in revenues but had [REDACTED] operating income.

6 Total assets of TeCom, at 12/31/97 were \$14,454,278.  
7 Operating assets of TeCom, at 12/31/97 \$14,454,278

8 5) TECO Finance, Inc. is considered a non-operating subsidiary. This company is the source  
9 of debt capital for the diversified operations of TECO Energy. For 1997, this company had  
10 \$1.7 million in revenues, all from affiliated companies, and negative operating income. This  
11 company has no employees. All legal and accounting costs related to this subsidiary are  
12 billed directly to TECO Finance.

13 Total assets of TECO Finance, at 12/31/97 were \$216,772,000.  
14 Operating assets of TECO Finance at 12.31.97 were \$216,622,000

15 6) TECO Investments, Inc. is considered a non-operating subsidiary. This company invests  
16 capital in short-and long-term securities and financial instruments. Revenues for 1997 were  
17 \$3 million with operating income of \$.2 million. Its assets at December 31, 1997 were  
18 comprised of cash, receivables & investments. This company has no employees. All legal  
19 and accounting costs related to this subsidiary are billed directly to TECO Investments.

20 Total assets of TECO Investments at 12/31/97 were \$66,330,000.  
21 Operating assets of TECO Investments at 12/31/97 were \$66,209,000

22 7) Suwannee Gas Marketing, Inc. is a downstream holding company and considered non-  
23 operating. This company had no revenues in 1997. No financial statements were prepared  
24 for this entity in 1997. This company has no employees.

Mr. McBride:

This is in response to your letter of March 13, requesting certain information relative to JEA's transportation costs. We do not maintain records in a format that would allow us to readily provide the information requested in #1, however we can furnish data requested in Nos. 2, 3 and 4.

**Non-Discounted Contract Rail Rates - 1997**

3 Annual Cost of private railcar ownership for 1997 was [REDACTED] after crediting lease revenue to maintenance costs. Capital costs are treated as a sunk cost and are not included in the annual cost.

Please send me a copy of the completed benchmark comparison between TECO and the four municipal utilities in Florida when completed.

We trust the above will satisfy your needs.

Sincerely,

P.G. Para  
Director - SJRPP Fuels

Mr. C. Carey McBride  
Sr. Consulting Engineer  
Tampa Electric Company  
Fuels Dept. - PSC  
6944 U.S. Highway 41 North  
Apollo Beach, FL 33572-9200

Dear Carey:

In response to your request for rail transportation costs paid by Gainesville Regional Utilities in 1997, I have listed the cents per ton mile cost. Pursuant to our discussion, the following cost data will be used solely for the purpose of the Florida Public Service Commission's annual review of transactions between TECO and its affiliate, TECO Transport and Trade.

GRU's cost was calculated on the following basis:

Rail Rates (Discounted & Non-discounted)  
Railcar Lease Payments  
Railcar Maintenance Cost  
Average Miles (one way)

GRU's 1997 Calculated Cost: (Cents per ton mile)

1- Discounted:  
2- Non-Discounted:

1997 COST PER TON MILE

## Memorandum

To: J. S. Chronister  
From: Randall Zavertnik  
Date: August 24, 1998  
Subject: EPSC Audit Document/Record Request  
Audit Purpose AFA 98-082-2-1  
Request Number AF 29

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

In connection with the follow-up request for additional information on AF 16, the companies listed below did not receive an allocation of A&G from TECO Energy in 1997. The reasons for not allocating A&G to these companies are documented in the following:

1. Peoples Cogen - Peoples Cogeneration Company was a non-operating subsidiary, and had no revenues or operating income in 1997. No financial statements were prepared for this entity in 1997.
2. PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues and no operating assets in 1997. No financial statements were prepared for this entity in 1997.
3. BGA - Bosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to transition from a traditional engineering services company to a company focussed more on energy performance contracting. Due to its efforts to redefine its business focus, this company is considered non-operating. Revenues for 1997 were [REDACTED] with operating income for the year of only [REDACTED]
4. TeCom - TeCom Inc. is considered a non-operating subsidiary. This company is in the process of developing and marketing advanced energy management, automation and control systems. For 1997, TeCom had [REDACTED] in revenues but had [REDACTED] operating income.
5. TECO Finance - TECO Finance, Inc. is considered an non-operating subsidiary. This company is the source of debt capital for the diversified operations of TECO Energy. For 1997, this company had \$1.7 million in revenues, all from affiliated companies, and negative operating income. This company has no employees. All legal and accounting costs related to this subsidiary are billed directly to TECO Finance.

**SUMMARY OF WORK PERFORMED  
SUBSIDIARIES NOT RECEIVING ALLOCATION FROM TECO ENERGY**

**SPECIMEN**  
**OF  
GENERAL  
MAIL**

#### **Audit Work Performed:**

**Audit Work Performed:** Audit staff noted that several subsidiaries of TECO Energy are not being allocated a portion of the administrative and general expenses of TECO Energy.

The company was asked to explain why the following listed companies did not receive cost allocations from TECO Energy.

- in TECO Energy:

  - 1) Peoples CoGen
  - 2) PGS Florida
  - 3) Bosek Gibson
  - 4) TeCom
  - 5) TECO Finance
  - 6) TECO Investments
  - 7) Suwanee Gas

7) Suwanee Gas  
The company responded that "All operating subsidiaries of TECO Energy, Inc. including downstream holding companies, were included in the allocation process. The only exceptions were subsidiaries that were not-operating, had negative 12-month operating income, had no revenues for the 12-month period, or had no operating assets as of the allocation date." The company also responded that it was not receiving an allocation of TECO

The seven companies listed in FPSC Request Number AF16, do not receive an allocation of TECO Energy allowable corporate expenditures as they met one or more of the exemptions identified in the preceding paragraph."

The company provided further explanations of which specific criteria the above listed companies met. Also, Balance Sheets and Income Statements of various companies, for the period under audit, were provided.

The company explanations were:

- company explanations were:

  - 1) Peoples Cogeneration Company was a non-operating subsidiary, and had no revenues or operating income in 1997. No financial statements were prepared for this entity in 1997.
  - 2) PGS Florida, Inc. is a non-operating subsidiary with no operating income, no revenues and no operating assets in 1997. No financial statements were prepared for this entity in 1997.
  - 3) Dosek, Gibson and Associates was acquired in late 1996 and, in 1997, began to transition from a traditional engineering services company to a company focussed more on energy performance contracting. Due to its efforts to redefine its business focus, this company is considered non-operating. Revenues for 1997 were [REDACTED] with operating income for the year of only [REDACTED]

**SPECIFIED  
AUDIT DISCLOSURE NO. 2  
CONFIDENTIAL**

**SUBJECT: BENCHMARK CALCULATIONS - COAL & TRANSPORTATION**

**STATEMENT OF FACT:**

Tampa Electric provided audit staff with the computation and supporting schedules for: (1) pricing coal and transportation costs received from affiliated parties and (2) calculating the benchmark pricing.

The benchmark calculation for coal cost uses the base price of coal as of 12/31/92 adjusted by the percent change in the Consumer Price Index - Utilities (CPI-U) for the period 12/31/92 to 12/31/97. The benchmark calculation for transportation costs uses the 1996 cents/per ton-mile for rail coal transportation rates for publicly owned utilities in Florida, including discounts for volume and private rail cars *times* the average rail mileage to Tampa for all waterborne coal supplies to Tampa Electric's plants plus the 1996 cost of privately owned rail cars.

Tampa Electric computes its average water transportation cost per ton, for the transport of coal from all its suppliers by affiliates [Midsouth (river transportation) and TECO Transport (gulf transportation)], by dividing total 1997 transportation cost by the total tons transported during 1997. Tampa Electric's coal price is the result of a contract with Gatliff Coal.

Total cost of coal purchased by Tampa Electric, as included in the benchmark schedule Coal Market Price Application - 1997 does not include the dollars associated with BTU adjustments. The total amount paid to Gatliff Coal for these adjustments was \$ 1,118,797.

Staff recalculated Tampa Electric's computations for weighted average coal transportation cost; agreed CPI-U rates to the consumer price index; traced tonnage and tonnage cost (river & barge) to invoices for individual coal suppliers via Form 423-2 and File No. 2; traced base price of coal to FPSC Commission Order; and recalculated average rail mileage to Tampa.

**DRAFT**

Note:      Form 423-2 = Monthly Report of Cost and Quality of Coal for Electric Plants Origin, Tonnage, Delivered  
                Price and As Received Quality  
File No. 2    = Transportation Cost

**TAMPA ELECTRIC COMPANY**  
**UTILITY RESPONSE TO DOC/REC REQ #12-ANALYTICAL REVIEW**  
**TWELVE MONTHS ENDED 12/31/97**

AFA 98-082-2-1

Audit Response to Request AF 12

**SPECIFIED  
CONFIDENTIAL**

**Gatlift Coal Company: Coal Purchase.**

The variances from 1994-1997 were due to lower tons purchased.

1994: 1,979,429 tons  
1995: 1,546,427 tons  
1996: 1,223,738 tons  
1997: 1,004,249 tons

**Hardee Power Partners: Purchased Power.**

The variances in purchase power MWH volumes were primarily weather related. The 1995-1996 variance was primarily due to higher price for Natural Gas. The 1996-1997 variance was primarily due to failure of the main transformer and scheduled Hot Gas Path inspection in 1997. This information was provided in the Fuel Clause Audit for the 12 month period ended March 31, 1998.

1994: 67,756 MWH.  
1995: 361,734 MWH.  
1996: 309,720 MWH.  
1997: 281,366 MWH.

**Management Svcs: financial; Econ; Gov't affairs.**

→ Traced to Revised  
Diversification Rpt  
(7-2)

(2) We omitted, in error, the Parent Company Allocation of \$12.2 million from the original 1997 Diversification Report. We plan to submit to Tallahassee this month a revised version of the Diversification Report for this item. The revised variance of \$2.5 million between 1996 and 1997 was primarily due to the addition of 19 employees (19% increase over 1996) to TECO Energy. The 1994-1995 variance was primarily due to the addition of 20 employees (25% increase over 1994).

**Risk Management:**

Insurance premium was included in the risk management category in 1994 and 1995. Insurance Premium was more appropriately categorized in 1996, 1997 and future years as convenience of payment in that no goods or services were sold or purchased between affiliates.

→ Traced to diversification w/p's  
company.

**Lease of Parking Facilities:**

(PBC)

1997: \$418,480 Variance. → Traced to Revised Diversification Rpt  
(7-2)  
We reported \$792,484 in error and mislabeled the line as TECO Energy/234-09 instead of TECO Properties/234-04. The correct amount is \$374,004. We plan to submit to Tallahassee this month a revised version of the Diversification Report for this item.

(1) Utility segment agrees with variance  
in AF 45-5/1 for FPC audit period 3/31/98.

(2) Dollars at 12/31/97 per FPC Inv. 17-2 328,924 ↑  
Parent Company Allocation 12,200,000 (6)  
Provised Allocation at 12/31/97 12,518,924

Dollar difference at 12/31/97 17,998,504  
Provised Variance 237,420 (6)

**TWELVE MONTHS ENDED 12/31/97**

AFA 98-082-2-1

**Data Processing.**

The positive and negative variances that existed were primarily due to changes in the volume of Mainframe usage.

**SPECIFIED  
CONFIDENTIAL**

**Personnel Services:**

**1995: \$127,994 Variance**

1. 146-23 TECO Power Services.

The \$32,900 increase was due to quality control inspections performed by Tampa Electric employees.

Two new affiliates: TeCom(146-17) and TCAE (146-35) were the reason for \$36,032 of the variance.

**1996: \$336,604 Variance.**

1. 146-12: TEMS Pilot Program (Receivable from TeCom).

TEMS Project contributed \$240,912 to variance.

**1997: (\$340,427) Variance.**

The TEMS project was completed in 1996, therefore, there were no charges in 1997.

**Purchasing department activities** - is defined as items owned by TEC and sold to Affiliate companies. (Items such as computers).

**1996:** The Diversification Report showed zero in 1996 since we decided that purchasing activities would be reported as a subset of Building Services. TECO Power Services purchasing activities of \$37,778 would be reported as Building Services and TECO Energy purchasing activities of \$13,832 would be reported as Building Services.

In 1997, we decided to resume presenting purchasing activities as a separate line item on the Diversification Report. Dollars identified as purchasing related have gone up, explaining the 1997 increase over 1994 and 1995 levels as well as the decrease in the Building Service amount from 1996 to 1997. — *Verified*

**PBC**

**Building Services:**

1996 amount jumped (and 1997 amount returned to normal) because 1996 included \$474,300 to renovate the 8<sup>th</sup> floor of the Plaza for TECO Power Services.

**Office Space Cost Allocation.**

**PBC**

**1995: \$110,335 Variance.**

- 146-10: TECO Transport (TT).

TT moved to the Plaza during the 3<sup>rd</sup> quarter of 1995. This contributed \$91,003 to the variance.

**1996: \$328,332 Variance.**

TECO Transport Office Space cost which existed for all 4 quarters of 1996 was \$207,764. TeCom Inc moved to the Plaza during 1996. 1996 charges were \$128,703. TeCom did not have an office space charge in 1995.

## Audit Response to Request AF 12

### Gatliff Coal Company: Coal Purchase.

The variances from 1994-1997 were due to lower tons purchased.

1994: 1,979,429 tons  
1995: 1,546,427 tons  
1996: 1,223,738 tons  
1997: 1,004,249 tons

**SPECIFIED  
CONFIDENTIAL**

### Hardee Power Partners: Purchased Power.

The variances in purchase power MWH volumes were primarily weather related. The 1995-1996 variance was primarily due to higher price for Natural Gas. The 1996-1997 variance was primarily due to failure of the main transformer and scheduled Hot Gas Path inspection in 1997. This information was provided in the Fuel Clause Audit for the 12 month period ended March 31, 1998.

1994: 67,756 MWH.  
1995: 361,734 MWH.  
1996: 309,720 MWH.  
1997: 281,366 MWH.

### Management Svcs: financial; Econ; Gov't affairs.

We omitted, in error, the Parent Company Allocation of \$12.2 million from the original 1997 Diversification Report. We plan to submit to Tallahassee this month a revised version of the Diversification Report for this item. The revised variance of \$2.5 million between 1996 and 1997 was primarily due to the addition of 19 employees (19% increase over 1996) to TECO Energy. The 1994-1995 variance was primarily due to the addition of 20 employees (25% increase over 1994).

### Risk Management:

Insurance premium was included in the risk management category in 1994 and 1995. Insurance Premium was more appropriately categorized in 1996, 1997 and future years as convenience of payment in that no goods or services were sold or purchased between affiliates.

### Lease of Parking Facilities:

#### 1997: \$418,480 Variance.

We reported \$792,484 in error and mislabeled the line as TECO Energy/234-09 instead of TECO Properties/234-04. The correct amount is \$374,004. We plan to submit to Tallahassee this month a revised version of the Diversification Report for this item.

10-12  
1  
1083

**SPECIFIED  
CONFIDENTIAL**

**Data Processing.**

The positive and negative variances that existed were primarily due to changes in the volume of Mainframe usage.

**Personnel Services:**

**1995: \$127,994 Variance**

1. 146-23 TECO Power Services.

The \$32,900 increase was due to quality control inspections performed by Tampa Electric employees.

Two new affiliates: TeCom(146-17) and TCAE (146-35) were the reason for \$36,032 of the variance.

**1996: \$336,604 Variance.**

1. 146-12: TEMS Pilot Program (Receivable from TeCom).

TEMS Project contributed \$240,912 to variance.

**1997: (\$340,427) Variance.**

The TEMS project was completed in 1996, therefore, there were no charges in 1997.

**Purchasing department activities** - is defined as items owned by TEC and sold to Affiliate companies. (Items such as computers).

**1996:** The Diversification Report showed zero in 1996 since we decided that purchasing activities would be reported as a subset of Building Services. TECO Power Services purchasing activities of \$37,778 would be reported as Building Services and TECO Energy purchasing activities of \$13,832 would be reported as Building Services.

In 1997, we decided to resume presenting purchasing activities as a separate line item on the Diversification Report. Dollars identified as purchasing related have gone up, explaining the 1997 increase over 1994 and 1995 levels as well as the decrease in the Building Service amount from 1996 to 1997.

**Building Services:**

1996 amount jumped (and 1997 amount returned to normal) because 1996 included \$474,300 to renovate the 8<sup>th</sup> floor of the Plaza for TECO Power Services.

10-12  
1  
20f3

**Office Space Cost Allocation.**

**1995: \$110,335 Variance.**

146-10: TECO Transport (TT).

TT moved to the Plaza during the 3<sup>rd</sup> quarter of 1995. This contributed \$91,003 to the variance.

**1996: \$328,332 Variance.**

TECO Transport Office Space cost which existed for all 4 quarters of 1996 was \$207,764. TeCom Inc moved to the Plaza during 1996. 1996 charges were \$128,703. TeCom did not have an office space charge in 1995.

10-18

**SPECIFIED  
CONFIDENTIAL**

**Audit of 1996 Off-Site Media Inventory**

**Purpose:** To ensure that the company is protected from inadvertent or intentional loss of data or programs.

**Control Assessments:**

- 1) Procedures to establish an off-site tape rotation exist and are operating as intended.
- 2) Procedures to recall tapes from the off-site storage facility exist and are operating as intended.
- 3) Procedures to rotate back-up media to and from off-site storage facilities were in place and operating as intended.
- 4) Controls surrounding the transfer of RS 6000 and LAN back up tapes and from outside storage facilities were not in place
- 5) Tapes from all sources were properly located at the off-site storage facility.

The contract for the off-site storage facility is with Business Information Management System (BIMS) for the period 12-1-90 thru 12-31-96.

Management action was taken, when applicable, to correct necessary situations.

Audit of 1995 By-Product Sales

**Purpose:** To test Internal Controls over Reporting, Monitoring, Billing, and Collection of by-product sales.

**Control Assessments:**

- 1) All gypsum tonnages for 1995 were billed
- 2) Segregation of duties was not proper for monitoring, reporting and billing of gypsum sales
- 3) Gypsum contracts were not administered as written and contained unclear or confusing language.
- 4) Procedures were not adequate to ensure all fly ash sales were billed
- 5) All remittances for the sale of slag were properly supported and recorded
- 6) Procedures were not adequate to ensure that slag tonnages reported by the customer were reasonable

Management action was taken, when applicable, to correct necessary situations.

Sales for 1995 were:

|         |             |
|---------|-------------|
| Gypsum  | \$1,086,000 |
| Fly-Ash | 641,000     |
| Slag    | 437,000     |

10-20/2

Audit Energy Technology Resource Center (ETRC)

~~SPECIFIED  
CONFIDENTIAL~~

**Purpose:** Determine that controls over ETRC's physical security were appropriate, significant activities were monitored, and local area network (LAN) configuration complied with corporate standards and was protected from unauthorized access via the Internet connection.

This audit was performed in conjunction with an audit of the Energy Services Department as of 02-28-96. The Energy Services Department consists of four major groups: (1) Market Services, (2) Power Supply Services, (3) Market Communication Services, and (4) ETRC.

**Control Assessments:**

- 1) Physical security controls were adequate.
- 2) Business partnerships and activities were properly tracked and monitored.
- 3) Risk minimization for loaned equipment was not fully addressed and resolved.
- 4) Controls over the ETRC LAN were in place and operating.
- 5) The ETRC LAN was protected against unauthorized access gained through their Internet connection.

Found deficiency for loaned equipment.

**Management Action:**

Manufactures loan equipment to the ETRC. The ETRC provides demonstrations to customers using the loaned equipment. TEC's Legal department designed a liability waiver form protecting TEC and the ETRC, but the manufactures rejected it.

Management worked with Legal and Risk Management to minimize TEC's liability for loaned equipment. They were unable to develop an agreement mutually acceptable to TEC and the manufactures. Customers are instructed not to operate the equipment. The company feels it has mitigated its risk satisfactorily,

ELECTRIC TECHNOLOGY RESOURCE CENTER OVERVIEW  
AS OF 2/29/96

Q18  
3/7/96  
ghp  
SFTV

*Source of information: Vicky Westra, Manager-ETRC*

*Vice President Strategic Planning & Analysis*

**Tour the ETRC**

On 2/22/96 I visited the ETRC at USF. Vicky Westra (Manager-ETRC) gave me a tour of the facilities. A map of the ETRC is located at W/P F2. Vicky provided me with an overview of all significant activities at the ETRC. These activities will be discussed below.

**What is the primary mission of the ETRC?**

The primary mission of the ETRC is the promotion of electric technologies. Primary areas of focus include: advanced technologies, food service technologies, and lighting.

**What are the operating hours of the ETRC?**

General operating hours are generally 8:00 AM - 5:00 PM. However, the ETRC offers night training classes which can run as late as 9:30 PM. Additionally, some of the sponsoring companies have also requested weekend seminars. An ETRC employee will be on-site for all activities conducted at the ETRC. The evening seminars are divided among employees based on availability and work schedules.

**How is the ETRC funded?**

The ETRC is funded primarily by TEC. The break-even point for the ETRC is approximately \$176,000 annually. The ETRC plans to cover their costs through seminar fees and the generation of non-fuel revenues. The ETRC has formed partnerships with companies to obtaining equipment on a loan/donation basis. Additionally, sponsoring companies also donate food/beverage items for tests conducted at the ETRC. The ETRC currently leases all of their furniture.

**How many employees staff ETRC?**

The ETRC currently has six employees on staff. A copy of the organizational chart is presented at W/P B1. A Business Information Center employee (Ray Eydman) spends approximately 4 hours per day at the ETRC developing their information library and performing research.

PBC

(O-21/2-1  
(1 of 11)

Plans to expand the staff?

There are no plans to expand the staff.

Training program for employees?

Two major sources of training available:

- 1] In-house training
- 2] Outside training - some of the training is conducted by sponsoring companies.

Do you have direct customer contacts?

Direct customer contacts are made at the ETRC. An ETRC employee is assigned as the TEC representative for each of the three major areas: Lighting, Advanced Technologies, and Food Service.

What system are you utilizing to track all customer contacts?

An in-house Micro-Soft Access database was developed to track all of ETRC's activities and customers. The main menu from the system is presented at W/P F7. This database tracks the following:

- 1] *Customer Contacts* - key information for all customer contacts (key contact, phone number, uses of ETRC, equipment on loan, etc.).
- 2] *Event Listing* - listing of all key information for events conducted at ETRC. See a sample of the event listings at W/Ps F9-F10.
- 3] *Project Listing* - listing of all projects performed by the ETRC. This lists equipment sales resulting from ETRC efforts. This listing also tracks the generation of non-fuel revenue from the sale of equipment. A sample from this listing is at W/P F8.

TAMPA ELECTRIC COMPANY  
ENERGY SERVICES REVIEW  
ETRC SUMMARY  
PAGE 3

~~SPECIFIED  
CONFIDENTIAL~~

How do you market the ETRC?

The ETRC is marketed through marketing materials. Samples of these marketing materials are as follows:

ETRC Marketing Brochure: W/P F2  
ETRC Training Activities Mail-Out: W/P F3  
ETRC Training Class Announcement: W/P F4  
ETRC TEC Employee Day Mail-Out: W/P F5

The ETRC was recently mentioned in the Wall Street Journal. A copy of the article is presented at W/P F6.

Another major marketing effort is word-of-mouth. Companies are learning that the ETRC can directly benefit their operations, therefore, the word is spreading.

How are you planning to increase manufacturer partnerships?

Due to the ETRC's success, companies are contacting the ETRC about future opportunities. The ETRC evaluates each opportunity and based upon current and future needs will pursue opportunities.

How do you interact with USF?

Interaction with USF is somewhat limited. Training classes benefitting USF employees have been held at the ETRC. The ETRC also interacts with the Small Business Development Center at USF. The ETRC is also utilizing USF's on-line connection to the Internet. This on-line connection is free to the ETRC. Thus, research on the Internet can be performed for free.

How do you decide what equipment will be displayed and rotated?

Equipment is rotated based upon customer needs. The basis for equipment selection depends on the needs of the ETRC and donation opportunities from the sponsoring companies.

How do you track all equipment on loan to you?

Equipment on loan is tracked through the Micro-Soft Access Database.

73C

10-20/2-1  
(3 qtr)  
71

~~SPECIFIED  
CONFIDENTIAL~~

**Liabilities for equipment on loan (fire/theft)?**

Currently, there is no formal liability policy for equipment on loan. The ETRC contacted the Legal Department about developing a liability waiver for all equipment on loan. However, the sponsoring companies did not want to sign the agreement. Therefore, the issue has stalled and no further action has been taken.

PAC# 1 @ W/P<sup>A</sup>Y<sub>1</sub> See copy of exhibitors Agreement (draft) @ R13

**What physical security measures do you have in place?**

Currently, a monitored alarm system is in place at the ETRC. This system is monitored by the TEC security office. Keypads allow access to each room in the ETRC. Thus, the security system can track access to each room. These keypads can also limit access to rooms to authorized individual only.

During normal operating hours, a surveillance camera monitors the main entrance for all activity. TV monitors are located in the break room and the Manager's office in order to view the main entrance.

With the exception of a few false alarms, no issues with physical security have occurred.

**How many individuals can access the ETRC during off-hours?**

10 individuals can access the ETRC during off-hours. This includes ETRC employees and building services. Each employee has a unique code to enter the building. Thus, off-hour employee activity can be monitored.

**Are security reports generated?**

Security reports are maintained by the Security Department. If the ETRC has any issues/concerns, they can contact security and obtain the reports.

**1996 goal generate \$250,000 of non-fuel revenues-How accomplish?**

The generation of non-fuel revenue by the ETRC is accomplished by acting as a liaison between manufacturers and customers. Manufacturers will sell equipment based upon exposure from the ETRC, thus, adding load to TEC's system. A portion of this load [50%] is considered to be non-fuel revenue.

Night visit: On 4/11/91, I visited the ETRC & approximately 10:30pm I noted that the area was well lit but poorly secured. I noted an area that exposed TEC to unnecessary risk.

73C

10-293-1  
(481)

~~SPECIFIED  
CONFIDENTIAL~~

**How do you measure non-fuel revenues?**

50% of the electric revenues generated from the sale of equipment are classified as non-fuel revenues. This is the same rate utilized by Bulk Power in calculating non-fuel revenues.

**How do you track non-fuel revenues?**

Non-fuel revenues are tracked via the Micro-Soft Access database developed by an ETRC employee. A sample is presented at W/P F8.

**What other performance indicators do you use?**

Some of the other performance indicators include: number of partners and customers, number of visitors, and training courses and seminars held at the ETRC.

**How are costs recovered for ETRC seminars?**

The ETRC incurs nominal expenses for seminars and training courses held on-site. The ETRC is recouping these expenses by charging nominal fees for the courses. Additionally, the ETRC has concluded (through research) that free courses are subject to a very high no-show rate, whereas, courses with fees attached have a very low rate of no-shows (\$30 appears to be the magic number for perceived value by the customer).

The ETRC develops the course fees based upon average costs for the seminar (e.g. \$5 for lunch, printing costs, speaker costs, etc.).

The procedures for the collection of course fees and the reimbursement of expenses were reviewed at W/P F11 - F12.

**Is an electric technology financing program currently being evaluated?**

As part of the Customer Value recommendations, the feasibility of creating a financing program for the sale of electric technology is being evaluated. This program could increase the sale of electric technology by making it easier for customers to purchase the items.

TAMPA ELECTRIC COMPANY  
ENERGY SERVICES REVIEW  
ETRC SUMMARY  
PAGE 6

What are the key strategic issues that will determine the success of the ETRC?

- 1] Meeting the needs of the customers
- 2] Tracking the results of ETRC's impact on the customer
- 3] Ability to change the mind-set of the customer away from gas toward efficient electric technologies.

CONFIDENTIAL AUDIT  
SERVICES

MEMORANDUM

SUBJECT: ETRC Seminar Revenue Procedures

DATE: March 5, 1996

TO: Vicky Westra, Manager-ETRC

FROM: Todd Rehder, Auditor *(Signature)*

Audit Program Step F4 @ 1/8

I have reviewed the list of preliminary procedures developed by Derryl Bodiford pertaining to the collection, disbursement, and recording of seminar fees and expenses. I wanted to provide you with my comments.

Revenues - Page 2 of 3

Policy A: Ensure that you have procedures in place for the collection of cash (e.g. if cash is received in the mail, have two individuals verify the amount). Even if the registration form indicates payment by check or money order, people will still send cash!

Policy C: You could use your current Micro-Soft database to record revenues and expenses for each seminar. This could be the method to track attendance, seminar fees, and related expenses. This would be a method to ensure that you are recovering your seminar costs from the related revenues.

Proc #3: Your policy should have a formal deposit requirement (e.g. deposits will be made every three business days or more as required). This will help ensure that checks are not left in the deposit box for long periods of time.

Expenses - Page 3 of 3

Policy A: Utilizing standard costs for determining the amount of revenues required from an event is a good practice (e.g. \$5 for lunch). These costs should be adjusted for future seminars to reflect changing costs. I believe you said that you were already doing this.

**SPECIFIED  
CONFIDENTIAL**

Policy B: Is a check request going to be an efficient way of paying for items? Will this create an administrative burden (i.e. receiving check in time for goods to be acquired). Also, aren't many of these purchases for relatively small dollar items?

**Overall Comments**

Proper segregation of duties is vital when dealing with cash/cash equivalents. I would recommend the following segregation of duties:

- Receipts:*
- 1] Have an administrative specialist open the mail, restrictively endorse the checks, and record the checks on a deposit slip.
  - 2] Have someone other than the administrative specialist record the receipts in the tracking database. You don't want someone who has initial access to the asset (checks) to also have access to the related accounting records. This would create the opportunity to commit fraud and manipulate the related records.

*Reconciliations:*

Reconciliations should be performed by someone who does not open the mail, input revenues/expenses into the tracking spreadsheet or approve disbursements. The purpose of reconciliations is an independent comparison of internal and external records.

In speaking with Derryl, he indicated that you would be developing specific procedures. I will be happy to provide you with any comments or input. Internal auditing standards require that auditors remain independent from the operations under review, therefore, I cannot actively develop procedures for you.

If you would like to discuss any of these items in detail, please contact me (ext. #31613). I greatly appreciate your assistance during this review.

Date: February 20, 1996

From Derryl Boddiford

To: Vicki Westra

Re: Seminar, Training, & Misc revenue procedures

Vicki, as a result of our meeting on your revenue concerns, you now have your own job order opened to run these transactions through. Job Order 73558 has been set aside to record these transactions. I have included a preliminary procedures list to get started. I talked to Dee Brown in Internal Audit about your situation and she indicated that Todd Rehder would be giving you a call to go over the transactions. Together you can document the proper policies and procedures needed for the Resource Center.

If you have any questions, please call.....

Derryl

F11

SPECIFIED  
CONFIDENTIAL

Policy

- A. A policy needs to be made and adhered to on the acceptance of funds. Only Checks or money orders made out to Tampa Electric Co. / ETRC will be accepted.
- B. A stamp needs to be made up with ETRC for stamping the front of the check if it is made out to TEC only. (The check needs to have some reference to ETRC on it)
- C. The back needs to be stamped with a Deposit Only to TEC - provided by G/A)
- D. A Revenue/Cost spreadsheet needs to be created to log revenues and costs. This will serve as the ETRC's tracking mechanism of related revenues and expenses. This will be a detailed source document. ETRC will receive a monthly total transaction in their PAR report from G/A that will need to be reconciled on a monthly or quarterly basis. The spreadsheet will allow you to make a reconciliation report.

Procedures

1. Payment is received and forwarded to a Senior Administrative Assistant for processing.
2. Payment is stamped (deposit only/ETRC) and receipt is logged onto Revenue/Cost spreadsheet.
3. Payment is transferred to safe storage pending deposit.
4. Fill out deposit sheet or include a copy of the spreadsheet with highlighted receipts being deposited. Make a copy and file in activity folder. Take original to a TEC Customer Service teller and make a deposit (ARM Payment) to 440 - 73558 - 10 - 440. Take the yellow copy of the ARM Payment Receipt and attach it to your deposit detail in the activity folder.
5. Update PC spreadsheet to reflect deposit amount & date.
6. Reconcile Monthly PAR report with your actual spreadsheet to explain difference between what G/A shows and what has not been processed at the time of the report. Send copy of spreadsheet, PAR report, and reconciliation report to the facility manager.

F.D.

**SPECIFIED  
CONFIDENTIAL**

**Expenses**

Policy

- A. Policy statement needs to be made defining what will be considered relevant expenses to be paid out of this fund. Costs should be matched with the activities that provided the revenues. Food for a seminar, a speakers fee, advertising related to a seminar or event are examples of relevant costs. Employee bonuses, petty cash, department supplies, and other misc expenses would not be appropriate to charge to this account. The directions on this need to be specific as possible up front to avoid confusion. There should be NO prepayment to individuals for expected miscellaneous expenses. Payments have to be documented with receipts or invoices, not estimates.
- B. An internal Request for Payment form (RFP) needs to be created that would enable someone to request payment for an item or services related to seminar, training, or misc. revenue. The form should ask for an explanation for the requested funds along with documentation for the need. A bill or invoice needs to be attached. This is forwarded to the facilities manager for approval to pay. Payment is not made unless approved.

Procedures

1. Payment is requested. Request for Payment form is completed with proper documentation including invoice and name and address of requestor.
2. Send RFP to facilities Manager for approval.
3. Receive approved copy of RFP for payment. Fill out check/voucher request form from G/A. Fill in name & address of requestor, social security number for employees, and account information. 440 - 73558 - XX - 440 should be used along with the appropriate resource. 03 for subcontract service (speaker), 15 for food, 07 for supplies/outside purchase, and 10 for miscellaneous expenses. Attach request form. Make copy and file, send original to G/A.
4. Update PC spreadsheet with Cost, date and brief explanation. Match costs on spreadsheet with the relevant seminar or event or under miscellaneous heading.
5. Reconcile Monthly PAR report with your actual spreadsheet to explain difference between what G/A shows and what has not been processed at the time of the report. Send copy of spreadsheet, PAR report, and reconciliation report to the facility manager.

**AUDIT OF TECO ENERGY, INC. AND AFFILIATES \* PAYROLL**

**Purpose:** Scope limited to evaluating and testing the Internal Controls and Operating procedures in effect over payroll (P/R).

**Assessments:**

1. Limitation of the P/R system directly or indirectly resulted in control weaknesses.

**Management Action** - Recommendation will be made by Task Force to Senior Management on most effective technology and best location for the P/R and HRIS function by end of 1/97.

2. Operational procedures were adequately performed and responsibilities were properly segregated. Controls were in place to safeguard assets including P/R data. *(Staff noted that this action had been completed.)*

3. Documentation for the operating procedures for the various job responsibilities was not finalized to ensure the proper completion of these duties.

**Management Action** - As noted, procedures for documenting various P/R job responses are in the process of being updated. The P/R section will continue to update procedures for all job responsibilities to ensure all necessary P/R processing steps can be completed in the absence of the primary employees. To be completed 7/1/97. *(Staff noted that this action had been completed.)*

4. Procedures for final payment to terminated employees were not adequately defined and performed.

**Management Action** - After the Task Force has made recommendations, P/R will work with Human Resources on revising existing policy and associated procedures to ensure them more accurately reflect the current environment. Established completion date - 1/97. *(Staff noted that this action had been completed.)*

5. P/R data was accurately entered and processed and the results were properly verified and approved.

10-20/4  
(112)

CONFIDENTIAL  
SPECIFIED

6. Computation of gross pay, deductions and net pay were accurate and based on authorized time and amounts. Compensation and benefits were made to, or on behalf of bona fide employees for services performed as authorized by management.
7. Fed P/R, W/H taxes were not calculated properly for an isolated group of part-time employees, and
8. P/R checks and P/R tax returns were prepared and issued in a timely manner.

**Opinion:** Except for the control assessments that require management actions, management has established a system of Internal Controls that can be relied upon.

#### **Weaknesses of the P/R System**

The current system was developed in the 1960's and installed in 1983.

1. The Payroll System (PRS) is poorly supported by the vendor and is not year 2000 compliant.
2. The PRS utilizes batch processing that is slow and cumbersome rather than using the more efficient real time processing.
3. PRS changes often require program changes that do not allow quick response to meet business needs.
4. The system does not track quarterly P/R information requiring the P/R section to create duplicate files with the data.
5. The P/R system is not integrated with Human Resources Tesseract system.
6. Limitations have been experienced in calculating various earnings categories.
7. The system only allows for six P/R bank accounts while the TECO Energy Companies use ten.
8. The system report writer has limited capabilities.
9. The system does not limit vacation and sick time taken to allowable maximums.
10. The system cannot process Putnam quarterly company match and additional incentive pay, requiring extensive manual processing

## Memorandum

To: J. S. Chronister  
From: Randall Zavertnik  
Date: September 3, 1998  
Subject: FPSC Follow-up questions  
AF23

In response to the FPSC auditors' follow-up questions on the invoices provided for their request AF23, I am providing the following responses:

1. *What is TECO Energy "Concentration Account" at NationsBank?*  
Our concentration or "pooled" account at NationsBank, our primary banking relationship, represents the combined cash balances available company wide. All available cash is pooled daily from the operating companies. Available cash is then invested in short-term, repurchase instruments. The concentration account is maintained for several reasons including: to maximize the amount of available cash that can be invested; to create a vehicle for the transfer of available cash from the operating companies on a timely basis; and to save on banking fees.
2. *What is Feather Fine postage for?*  
In July 1997, TECO Energy mailed out a brochure to Hillsborough County residents discussing a proposed 10-percent utility tax increase. A copy of this informational document is attached. *Return A to C*
3. *Cambridge Energy Research Associates (total \$285,000), what is Electric Power & Gas Strategy Project?*

TECO Energy contracted with Cambridge Associates to assist the company in developing strategic objectives for competing in the ever changing energy business. The strategies developed were focussed on continually improving customer value by providing innovative and quality products and services to customers while expanding markets served. The strategic objectives that were the results of this planning process included: growing the electric and gas businesses and broadening the energy products and services offered to customers, and building upon the strengths of offering customers a comprehensive package of energy services and products.

4. Copyright Clearance Center - photocopy license. What license costs \$6,680 to photocopy?

Copyright laws indicate that photocopies of published materials may be subject to fees/royalties due to the authors/publishers. Copyright Clearance Center (CCC) provides a service by analyzing TECO Energy's photocopying habits and, through the purchase of a photocopy license based on the results of this survey, collect the appropriate fees on behalf of the publishers. A copy of CCC's homepage, which describes its purpose, and a copy of TECO Energy's homepage, which describes the impact of copyright laws on Corporate activities, are attached. *Return to Co.*

5. HL Culbreath - 6 Konica copiers leased. Please provide copies of contracts.

*See w/P*  
*43-2*  
*S-1*

The description on this invoice is incorrect. The fee paid on this invoice is in connection with the terms of a consulting agreement TECO Energy has entered into with Mr. Culbreath. This agreement is described in the attached Proxy Statement dated March 5, 1998 (page 4) as filed with the Securities and Exchange Commission. *Return to Co.*

6. What did Hooper, Hooper, Owen & Gould do?

Hooper, Hooper, Owen & Gould are attorneys in Washington, DC that specialize in income tax matters. The December 1997 invoice (totaling \$20,122.46) represents the monthly fee for their services. The total fee was split three ways: one-half of the basic fee was charged to Tampa Electric directly and was for tax items related to general FERC issues; of the remainder, one-half was charged to lobbying expense (a non-allocable expenditure) related to Section 29, alternative fuels credit efforts; the remaining \$5,061.23 was charged to Legal Consultant expense, an allocable charge, for general tax work.

3. Cambridge Energy Research Associates (total \$285,000), what is Electric Power & Gas Strategy Project?

TECO Energy contracted with Cambridge Associates to assist the company in developing strategic objectives for competing in the ever changing energy business. The strategies developed were focussed on continually improving customer value by providing innovative and quality products and services to customers while expanding markets served. The strategic objectives that were the results of this planning process included: growing the electric and gas businesses and broadening the energy products and services offered to customers, and building upon the strengths of offering customers a comprehensive package of energy services and products.
