For Traffic Terminated to Internet)
Service Providers)

Docket No. 981008-TP

DIRECT TESTIMONY

OF

KEVIN A. CUMMINGS

ON BEHALF OF

e.spire COMMUNICATIONS, INC.

AND ITS SUBSIDIARIES

Dated: November 12, 1998

DOCUMENT NUMBER-DATE
12709 NOV 12 98
FPSC-RECORDS/REPORTING

1 **Q. PLEASE STATE YOUR NAME, TITLE AND BUSINESS ADDRESS FOR**
2 **THE RECORD.**

3 A. My name is Kevin A. Cummings. I am Director of Billing Operations/Revenue
4 Assistance for e.spire Communications, Inc. ("e.spire"), formerly American
5 Communications Services, Inc. ("ACSI"). My business address is 133 National
6 Business Parkway, Suite 200, Annapolis Junction, Maryland 20701.

7 **Q. PLEASE DESCRIBE YOUR PROFESSIONAL EXPERIENCE AND**
8 **BACKGROUND.**

9 A. I have worked at e.spire since October 1997 as Director of Billing
10 Operations/Revenue Assistance. In this capacity, I am responsible for end user
11 and carrier access billing. Prior to taking this position, I was Director of Strategic
12 Operations for LightCom International, Inc. ("LightCom") from June 1997 to
13 October 1997. Before working at LightCom, I held several successive positions
14 at AT&T in marketing, finance and billing, beginning in June 1990 and
15 culminating as International Product Marketing Manager from June 1995 to June
16 1997. I have a bachelor of Arts degree from Hampton University, and a Master of
17 Science degree in Management from Hampton University.

18 **Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THIS COMMISSION?**

19 A. No.

20 **Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE ANY OTHER STATE**
21 **COMMISSION?**

1 A. Yes. Earlier this year, I testified in a proceeding before the Georgia Public
2 Service Commission with respect to another complaint against BellSouth related
3 to reciprocal compensation for ISP traffic.

4 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?**

5 A. The purpose of my testimony is to explain the manner in which e.spire has
6 calculated and billed BellSouth for local reciprocal compensation.

7 **Q. HOW DID E.SPIRE ARRIVE AT THE TOTAL AMOUNT TO BILLED**
8 **BELLSOUTH FOR RECIPROCAL COMPENSATION?**

9 A. The billing for reciprocal compensation is based on a straightforward calculation
10 in which the minutes of use are multiplied by the reciprocal compensation rate.

11 The reciprocal compensation rate is discussed in the testimony of James C.
12 Falvey. The minutes of use or MOUs are the minutes of traffic from BellSouth
13 end users terminated on e.spire's network. Minutes of use for billing reciprocal
14 compensation have been obtained from e.spire's monthly usage reports.

15 **Q. WHEN DID E.SPIRE BEGIN BILLING BELLSOUTH FOR**
16 **RECIPROCAL COMPENSATION?**

17 A. e.spire's first reciprocal compensation bill to BellSouth in Florida was for traffic
18 terminated by e.spire in March 1998. Pursuant to e.spire's Interconnection
19 Agreement with BellSouth, there is to be no cash compensation for transporting
20 and terminating each other's traffic unless the difference in minutes of use
21 exceeds 2 million minutes per state on a monthly basis. e.spire's usage reports

1 show that this 2 million minutes of use difference occurred in March 1998 and has
2 continued to occur each month thereafter.

3 **Q. WAS BELLSOUTH OBLIGATED TO REPORT LOCAL MINUTES OF**
4 **USE TO E.SPIRE?**

5 A. Yes. Pursuant to Section VI.B of the Interconnection Agreement between e.spire
6 and BellSouth, BellSouth was required to report local minutes usage to e.spire.
7 The relevant portion of the Interconnection Agreement provides: "The Parties
8 agree that BellSouth will track the usage for both companies for the period of the
9 Agreement. BellSouth will provide copies of such usage reports to ACSI on a
10 monthly basis."

11 **Q. HAS BELLSOUTH ADMITTED THAT IT HAS FAILED TO TRACK**
12 **LOCAL USAGE?**

13 A. Yes. BellSouth admitted in its letter dated January 8, 1998 that it has agreed to
14 track local usage but "that it has failed to provide these reports." A copy of
15 BellSouth January 8 letter is attached to the testimony of James Falvey market
16 Exhibit No. JCF-5. BellSouth further committed in that letter that, "[b]ecause of
17 the absence of such reports BellSouth agrees to use ACSI's usage reports for
18 determining the local traffic differentials."

19 **Q. HAS BELLSOUTH EVER REPORTED THESE LOCAL MINUTES TO**
20 **E.SPIRE?**

21 A. No. Even today, when BellSouth has admitted that it has failed to meet its
22 obligation to e.spire, BellSouth is not sending local traffic reports to e.spire.

1 **Q. DID BELLSOUTH'S OBLIGATION TO TRACK LOCAL USAGE**
2 **DEPEND UPON REACHING A THRESHOLD OF LOCAL MINUTES?**

3 A. No, it did not. The obligation to track local usage began as soon as the parties
4 began exchanging local traffic. BellSouth and e.spire began exchanging local
5 traffic in Florida in [date].

6 **Q. IN YOUR OPINION, DOES BELLSOUTH HAVE SYSTEMS IN PLACE**
7 **TODAY THAT COULD TRACK LOCAL USAGE?**

8 A. I cannot state with certainty what systems BellSouth actually has in place today to
9 track local usage. I can state with certainty that other local exchange companies
10 have in place today software in their switches that generates traffic reports to
11 indicate how much traffic flows over each of their trunk groups.

12 **Q. HAVE ANY STATE REGULATORY AUTHORITIES CONCLUDED**
13 **THAT BELLSOUTH COULD TRACK LOCAL USAGE?**

14 A. Yes, in fact the Hearing Examiner handling e.spire's complaint regarding
15 reciprocal compensation for ISP traffic before the Georgia Public Service
16 Commission specifically stated that:

17 BellSouth has admitted that it failed to perform its contractual
18 obligation to track and report to e.spire local minutes usage (or
19 local traffic) under Subsection VI.B of the [e.spire/BellSouth
20 Interconnection Agreement]. Moreover, [BellSouth's] counsel at
21 hearing did not contest the accuracy of e.spire's
22 TrafficMASTER™ reports, although he refused to stipulate such
23 reports as accurate, pending audit to eliminate ISP traffic. The
24 unrefuted testimony of e.spire's witnesses at hearing demonstrated
25 that e.spire used TrafficMASTER™ software to track local
26 minutes of usage only on local trunks in Georgia. In light of the
27 demonstrated capability of other Regional Bell Operating
28 Companies to track local traffic and in view of [BellSouth's]

1 failure to explain satisfactorily or sufficiently its nonperformance
2 in this matter, it is difficult for the [Georgia Public Service
3 Commission] to understand why [BellSouth] has not measured and
4 reported local traffic for and to e.spire as it was obligated to do
5 under the Interconnection Agreement. Moreover, it is precisely
6 because of [BellSouth's nonperformance in this area that e.spire
7 was put to the effort and expense of measuring such local traffic
8 (i.e., of performing in [BellSouth's] stead or of curing
9 [BellSouth's] nonperformance). *e.spire Communications, Inc. v.*
10 *BellSouth Telecommunications, Inc. Regarding Reciprocal*
11 *Compensation for Traffic Terminated to Internet Service*
12 *Providers*, Docket No. 9281-U, Initial Decision of the Hearing
13 Officer, Georgia Public Service Commission, p. 23 (October 19,
14 1998) (appended to the testimony of James C. Falvey at Exhibit
15 JCF-8.
16

17 As a result, the Hearing Examiner ordered BellSouth to pay compensatory
18 damages in the amount of e.spire's incurred costs in reconstructing and
19 monitoring local traffic (including ISP traffic). *Id.*

20 **Q. HAS BELLSOUTH STATED WHETHER IT HAS THE CAPABILITY TO**
21 **MEASURE LOCAL TRAFFIC?**

22 A. BellSouth has repeatedly asserted that it cannot measure local traffic. e.spire's
23 good faith estimates should therefore serve as the basis for a Commission decision
24 that BellSouth should pay e.spire's bills plus interest for the large quantities of
25 local traffic terminated to e.spire's network.

26 **Q. ASSUMING THAT BELLSOUTH DOES NOT HAVE THIS CAPABILITY**
27 **TODAY, COULD IT IMPLEMENT A SYSTEM SUCH AS THE TRAFFIC**
28 **MASTER SYSTEM IMPLEMENTED BY E.SPIRE TO TRACK THE**
29 **VOLUME OF LOCAL TRAFFIC TERMINATED TO E.SPIRE?**

1 A. Yes. e.spire has implemented the TrafficMASTER™ Software to track usage
2 over the local trunk groups terminating to e.spire's switch. BellSouth is a much
3 larger corporation than e.spire. If, for some reason, BellSouth does not currently
4 have the capability to track local usage flowing to e.spire, I am aware of no reason
5 why BellSouth could not implement the necessary software to track the volume of
6 this traffic.

7 **Q. WHAT ARE THE BENEFITS OF HAVING BELL SOUTH MONITOR**
8 **THIS TRAFFIC?**

9 A. There are several. First, BellSouth could comply with its obligations under the
10 Interconnection Agreement with e.spire. Second, we would have a BellSouth
11 record as to when the 2 million minute threshold was reached. Third, we would
12 have a BellSouth record of the exact volume of local minutes on a month by
13 month basis flowing between the two networks. As it is, we only have one set of
14 reports – those generated by e.spire.

15 **Q. PLEASE DESCRIBE E.SPIRE'S USAGE REPORTS.**

16 A. When it became apparent to e.spire that BellSouth would not provide the usage
17 reports pursuant to its obligation under the Interconnection Agreement, e.spire
18 was forced to develop its own usage reports. e.spire selected TrafficMASTER™,
19 a software product developed by Objective Systems Integrator, Inc. ("OSI") for
20 its usage reporting. e.spire implemented TrafficMASTER™ in November 1997.

1 Q. DID E.SPIRE'S USAGE REPORTS INDICATE THAT THE DIFFERENCE
2 IN THE MINUTES OF USE EXCEEDED 2 MILLION MINUTES IN
3 FLORIDA?

4 A. Yes.

5 Q. PLEASE EXPLAIN HOW E.SPIRE DETERMINED MONTHLY USAGE
6 RECIPROCAL COMPENSATION BILLS.

7 A. The process is very simple. When e.spire generates a bill for reciprocal
8 compensation, e.spire relies upon local usage reports generated by the
9 TrafficMASTER™ software which captures the data from its Lucent 5ESS switch
10 located in Jacksonville. TrafficMASTER™ performs the function of analyzing the
11 amount of traffic coming into the switch. This software provides e.spire with a
12 report of "peg counts" (or number of local calls) and local usage or minutes of use
13 received at e.spire's switch on a trunk group by a trunk group basis. e.spire and
14 BellSouth have established multiple trunk groups that carry exclusively local
15 traffic. These trunk groups have been designated as local trunk groups pursuant to
16 Section V.D.1.A of the Interconnection Agreements. A diagram of the e.spire-
17 BellSouth trunk groups in Jacksonville is attached as Exhibit No. KAC-1.
18 TrafficMASTER™ can distinguish between local and all other types of traffic
19 because local traffic is carried over a separate trunk group, and the software
20 measures traffic terminating to the e.spire switch on a trunk group by trunk group
21 basis. By measuring the traffic coming into e.spire's switch over these trunk

1 groups, e.spire can determine how many local minutes are terminated to e.spire's
2 customers.

3 **Q. PLEASE PROVIDE FURTHER DETAIL AS TO HOW THESE REPORTS**
4 **ARE DEVELOPED.**

5 **A.** The Lucent 5ESS switch creates a Division of Revenue report which details all
6 local calls. A copy of the Division of Revenue report is attached to my testimony
7 marked Exhibit No. KAC-2. This report details the length of calls, but not by
8 minutes of use. This report details the length of calls in units known as "CCS", or
9 100 call seconds. In order to arrive at minutes of local usage, the usage, measured
10 in CCS, is multiplied by 1.66 (converting blocks of 100 seconds into blocks of 60
11 seconds or minutes). This provides the total minutes of use. This calculation is
12 completed on a spread sheet. A spread sheet is included in Exhibit No. KAC-2.

13 **Q. WERE THERE ANY GAPS IN THE DATA PROVIDED BY**
14 **TRAFFICMASTER™?**

15 **A.** Yes. There were individual dates for which there was no data. By way of
16 example, in March 1998, there were a total of 3 days without any data. e.spire
17 was forced to estimate the traffic data for these dates by examining the
18 immediately preceding and succeeding days, weeks, and months. The dates for
19 which traffic data was estimated are shaded and where no data was available,
20 listed as zero on the spread sheets in Exhibit No. KAC-2. The trend has generally
21 been that there has been less lost data with each passing month.

1 **Q. DOES THE INTERCONNECTION AGREEMENT BETWEEN E.SPIRE**
2 **AND BELLSOUTH PROVIDE DIRECTION AS TO HOW THE PARTIES**
3 **SHOULD PROCEED IN THE EVENT OF A LOSS OF DATA?**

4 **A.** Yes. Section VII.D.10 of the Agreement provides that “in the event of a loss of
5 data, both Parties shall cooperate to reconstruct the lost data and if such
6 reconstruction is not possible, shall accept a reasonable estimate of the lost data
7 based upon three (3) to twelve (12) months of prior usage data.” Given that
8 BellSouth has claimed that it has no data to share, e.spire’s approach to these
9 minor gaps is consistent with the Interconnection Agreement.

10 **Q. HOW DID YOU ARRIVE AT THE TOTAL AMOUNT TO BILL TO**
11 **BELLSOUTH?**

12 **A.** As described more fully in the Testimony of James C. Falvey, e.spire billed local
13 reciprocal compensation to BellSouth at the rate of .90 cents/minutes.
14 Accordingly, the total minutes of use was multiplied by this per minute rate to
15 determine the total amount owed by BellSouth. This total does not include
16 interest that has accrued on BellSouth’s past due account.

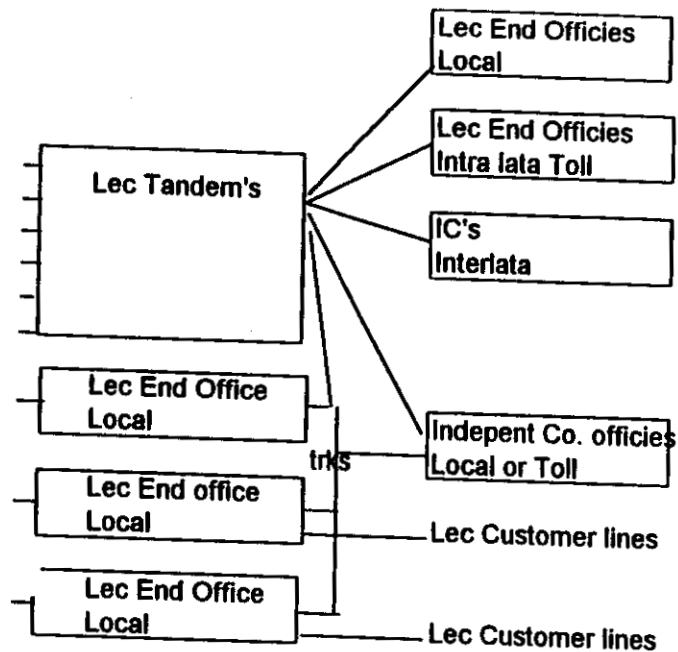

17 **Q. HAS BELLSOUTH PAID E.SPIRE ANY OF THE AMOUNTS OWED**
18 **UNDER THESE BILLS?**

19 **A.** No. BellSouth has made negligible payments to date. It is unclear as to what the
20 payment is for or how it is calculated.

21 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

22 **A.** Yes, it does.
