DIVISION OF AUDITING AND FINANCIAL ANALYSIS AUDITOR'S REPORT

November 9, 1998

TO: FLORIDA PUBLIC SERVICE COMMISSION AND OTHER INTERESTED PARTIES

We have applied the procedures described later in this report and have recalculated the true-up and interest exhibits filed by St. Joe Natural Gas Company in support of Docket No. 980002-EG for the six months ended March 31, 1998, to determine that the exhibits represent the utility's books and records and that those books and records are maintained in compliance with Commission directives and that facts hich may influence the Commission's decision process are disclosed. There is no confidential information associated with this audit.

This is an internal accounting report prepared after performing a limited scope audit. Accordingly, this report should not be relied upon for any purpose except to assist the Commission staff in the performance of their duties. Substantial additional work would have to be performed to satisfy generally accepted auditing standards and produce audited financial statements for public use.

In our opinion, the ECCR exhibits for the six months ended March 31, 1998, present fairly, in all material respects, the utility's books and records, maintained in conformity with the accounting practices prescribed by the Florida Public Service Commission. The attached findings discuss all differences and other matters which were noted during our examination.

SUMMARY OF SIGNIFICANT PROCEDURES

Our audit was performed by examining, on a test basis, certain transactions and account balances which we believe are sufficient to base our opinion. Our examination did not estail a complete review of all financial transactions of the company. Our more important audit procedures are summarized below. The following definitions apply when used in this report:

Compiled - The exhibit amounts were reconciled with the general ledger, and accounts were scanned for error or inconsistency.

Verify - The item was tested for accuracy, and substantiating documentation was examined.

Conservation Revenues: Compiled the conservation revenues and determined that the company has used the approved ECCR factors as set forth in Commission Order No. PSC-97-0291-FOF-EG, obtained a sample of bills and recalculated conservation revenues for each rate class for the six months ended March 31, 1998; obtained company's therm count and recalculated total conservation revenues for each rate class for the six months ended March 31, 1998.

Conservation Expenses: Compiled conservation program expenses; performed a physical invoice count for incentive expenses; verified that conservation rebate programs have been excluded from conservation cost.

Other: Recalculated Company true-up and interest provision; verified the correct beginning true-up; verified that the interest rates applied to under/over recovery amounts for the six months ended March 31, 1998 were correct.

DISCLOSURES

Disclosure No. 1

Subject: Conservation Revenues

Statement of Fact: Total conservation revenues per general ledger does not agree with total conservation revenues per schedule CT-3.

| Total Conservation Revenues Per Schedule CT-3 | Total Conservation Revenues Per General Ledger | Variance | |
|---|--|------------|--|
| \$14,390.00 | \$14,646.49 | (\$256.49) | |

St. Joe Natural Gas Company billed Eagle Recycle under the conservation program as a large commercial customer. Eagle Recycle is an interruptible customer and should not be billed as a large commercial customer under the conservation program. As a result, Eagle Recycle was overcharged by \$256.49 for the 6 month period ended March 31, 1998. The auditor verified the company made the adjustment in April 1998 to reflect a credit of \$256.49.

Recommendation: St. Joe Natural Gas Co. should not bill Eagle Recycle as a large commercial customer. Eagle Recycle is an interruptible customer. The auditor contacted Eagle Recycle and verified the refund was made in April 1998.
