**25-104.002(c):** The name, address, telephone number and facsimile number of the qualified representative are: Norman F. Mears, 1344 Vickers Drive, Tallahassee, Florida 32303-3041; Telephone (850) 562-9886; Facsimile (850) 562-9887.

**25-104.002(d):** The applicable rule or portion of the rule is 25-30.110(3). "Each utility shall file with the Commission annual reports on forms prescribed by the Commission. The obligation to file an annual report for any year shall apply to any utility which is subject to this Commission's jurisdiction as of December 31 of that year, whether or not the utility has actually applied for or been issued a certificate." (Emphasis added.)

**25-104.002(e):** The citation to the statute the rule is implementing is Section 367.121(1)(c).

**25-104.002(f):** S. V. Utilities, Ltd. requests the waiver of Rule 25-30.110(3) requiring the filing of an annual report by "any utility which is subject to this Commission's jurisdiction as of December 31 of that year, whether or not the utility has actually applied for or been issued a certificate" for the years 1996 and 1997 on the basis of substantial hardship and violation of principles of fairness.

**25-104.002(g):** The specific facts that demonstrate the substantial hardship and violation of principles of fairness that justify a waiver for the petitioner follow.

## **Background**

S. V. Utilities, Ltd. (S. V. Utilities or SVU) is a small utility providing water and wastewater service to 708 customers in Swiss Village Mobile Home Park, Hidden Cove East Mobile Home Park, and Hidden Cove West Mobile Home Park in Polk County, Florida. On May 14, 1996, the Board of Commissioners of Polk County adopted a resolution declaring water and wastewater utilities in Polk County subject to Public Service Commission regulation.

S. V. Utilities is one of five utilities in Polk County managed by the same group that manages CHC VII, Ltd. On September 12, 1996, CHC VII, Ltd. filed its "Application for Declaratory Statement Relating to Exemption from Regulation or Nonjurisdictional Finding on behalf of CHC VII, Ltd." This application set forth the same basis for exemption from regulation on which the Board of Commissioners of Polk County had ruled the utility exempt from its jurisdiction. This one application reflected the circumstances of all six Polk County utilities managed by this group.

On August 10, 1998, nearly two years later, the commission staff responded to this application with a letter requiring the filing of an application for certificates by October 16, 1998. The letter explained that the staff's response had been delayed due to the application for declaratory statement having been misplaced. S. V. Utilities filed its application for certificates on October 14, 1998, two days early.

By letter dated October 21, 1998, the commission staff required S. V. Utilities to file annual reports for the years 1996 and 1997 within sixty days.

## **Substantial Hardship**

S. V. Utilities is charging a base charge, which includes eight thousand gallons, of \$15.00 per month, plus \$1.25 per thousand gallons for usage over 8,000 gallons up to 10,000 gallons, and \$2.00 per thousand gallons for usage over 10,000

gallons, for water and wastewater service combined. SVU is managed by the management group which filed certificate applications for six utilities under the same circumstances stated above. The management group is not staffed to prepare annual reports for two prior years for six utilities, or twelve prior-year annual reports.

The financial records of S. V. Utilities are in complete compliance with the requirements for mobile home parks and accounting principles. They are not set up in accordance with the Uniform System of Accounts due to Polk County having considered the utility exempt, and due to the two-year delay caused by the commission staff misplacing their application for declaratory statement. Water and wastewater revenue is accumulated in one account. All water expenses are recorded in one account, and all wastewater expenses are recorded in one account. S. V. Utilities would have to hire an accounting consultant to prepare the annual reports. Preparation of these reports would require a complete analysis, including every expenditure for two years. Due to its limited financial and human resources, and due to the substantial cost of outsourcing the task, to require S. V. Utilities to file annual reports for 1996 and 1997 would create a substantial hardship.

#### **Violation of Principles of Fairness**

Requiring S. V. Utilities, Ltd. to file Annual reports for 1996 and 1997 violates principles of fairness due to the circumstances under which recognition of S. V. Utilities as a regulated utility was delayed. SVU has responded appropriately to every requirement. S. V. Utilities responded appropriately to the initiation of Public Service Commission jurisdiction in Polk County by the filing of the application of CHC VII, Ltd. for declaratory statement. The recognition of S. V. Utilities, Ltd. as a regulated utility was delayed for two years due to the application having been

misplaced by staff. SVU has fully cooperated by responding in a timely manner to the requirement to make application for certificates. It is not fair for S. V. Utilities to have to retroactively prepare annual reports for two years, when its recognition as a regulated utility was delayed two years at no fault of its own.

#### **Purpose of the Underlying Statute Achieved**

Commission Order No. PSC-98-0877-FOF-SU, issued on July 2, 1998 in Docket No. 971635-SU, states, "The purpose of requiring annual reports is to enable us to calculate regulatory assessment fees, as well as to determine if the utility is in an overearnings position." Both of these purposes are, or can be, met without S. V. Utilities being required to file annual reports for 1996 and 1997.

S. V. Utilities is requesting that the Commission start the period for regulatory assessment fees for the first billing cycle after the effective date of the pass-through rate adjustment. If this request is granted, the Commission will not need the 1996 and 1997 annual reports to calculate regulatory assessment fees.

The combined water and wastewater rates for S. V. Utilities are \$15.00 per month, which includes 8,000 gallons, plus \$1.25 per thousand gallons for consumption over 8,000 gallons up to 10,000 gallons, and \$2.00 per thousand gallons for consumption over 10,000 gallons. With the pass-through of regulatory assessment fees, the rates will be \$15.71 per month, which includes 8,000 gallons, plus \$1.31 per thousand gallons for consumption in excess of 8,000 gallons up to 10,000 gallons, and \$2.09 per thousand gallons for consumption over 10,000 gallons. With these rates, S. V. Utilities is not likely to be in an overearnings position. Therefore, the purpose of using the 1996 and 1997 annual reports to detect overearnings is met without S. V. Utilities retroactively filing annual reports for 1996 and 1997. In addition, the 1998 annual report is due on March 31, 1999. If, by

some remote possibility, S. V. Utilities were in an overearnings position, the 1998 annual report would alert the Commission to it.

28-104.002(i): The waiver is temporary, because it relates only to the years 1996 and 1997.
