Question 15:

David W. Wigginton-President & Shareholder (Filed for Bankruptcy in 1995)

My financial problems in 1995 were the result of a failed restaurant business, I owned, which forced me into personal bankruptcy. In 1992 I opened my first restaurant with a partner. By the winter of 1994 our first restaurant was so profitable that we were able to open two more units using only our cash flow. Unfortunately, at the same time the state of Kentucky was hit with the worst snowstorm of the century. The state was totally unprepared for such a storm and commerce virtually ceased for a full two weeks. Our restaurants, of course, were closed as well and did not fully recover sales volumes for almost six weeks. Since our business was based on cash flow we failed to recover from this setback. We tried to get financial assistance but because of the nature and newness of our business were unsuccessful.

Question 18:

Universal Telecom, Inc. has sufficient financial resources to provide prepaid local telephone service in the state of Florida. Universal Telecom, Inc. will be reselling services from the primary Local Exchange Carriers (LEC's) on a prepaid basis, affording Universal Telecom, Inc. the opportunity to provide the same quality service without investing large sums of capital in infrastructure. Having the experience of starting and operating another similar telecommunications business, we are well aware of the capital that will be needed and have planned according to a strict budgeting schedule. We know very precisely what our income and expenses will be. The shareholders have committed, in writing, to provide the necessary funds to operate the company within the highest industry standards possible. Our diverse shareholders have availability to large sums of capital through personal assets and from lines of credit from many financial institutions.

Universal Telecom, Inc. has substantial financial resources to maintain prepaid local telephone service in the state of Florida. Universal Telecom, Inc. offers service on a prepaid basis to residential customers, allowing the cost to be assumed by the End User. In addition, Universal Telecom, Inc. maintains several lines of credit with lending institutions, should additional capital be needed.

Universal Telecom, Inc. has the sufficient financial resources to meet our lease obligations. The before mentioned answers indicate that Universal Telecom, Inc. will meet it's obligations associated with providing quality local phone service to the residents of Florida. Universal Telecom, Inc. uses existing businesses to market and sell our services, Therefore it is unnecessary for Universal Telecom, Inc. to invest in points of distribution.
