Re: Approval of an Amendment to the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and American Metrocomm Corporation pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and American Metrocomm Corporation are submitting to the Florida Public Service Commission an amendment to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to American Metrocomm Corporation. The Commission approved the initial agreement between the companies in Order No. PSC-99-0191-FOF-TP issued February 5, 1999 in Docket 981719-TP.

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting the negotiated agreement between BellSouth and American Metrocomm Corporation within 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties aver that neither of these reasons exist as to the agreement they have negotiated and therefore, are very hopeful that the Commission shall approve their agreement.

Very truly yours,

*Marshall M. Criser III*

Regulatory Vice President

2nd AMENDMENT TO INTERCONNECTION AGREEMENT BETWEEN  
AMERICAN METROCOMM CORPORATION AND  
BELLSOUTH TELECOMMUNICATIONS, INC.

ATTACHMENT A

AMERICAN METROCOMM CORPORATION -MS98-7040-00

A. Basis of Offering

1. Direct Termination of Megalink® service is an IntraLATA trunk side connection only available in a Digital Central Office. This service provides DS1 access to the telecommunication network for twenty-four (24) voice equivalent channels.
2. The Company shall not be responsible if changes in any of the equipment, operations or procedures utilized by the Company in the provision of Direct Termination of Megalink® service render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
3. Direct Termination of Megalink® service is provided subject to the availability of appropriate digital network facilities and equipment.
4. Digital Information transmission rates of less than 56kbps per circuit may be accomplished as a function of the particular customer premises equipment connected to a Digital Serving Central Office.
5. The DS1 Transport Facilities are provided at the rates and charges specified for Megalink® service as contained in Section B7 of the Private Line Service Tariff.
6. The required components for Direct Termination of Megalink® service are as follows:
  - Megalink® service Digital Local Channel
  - Megalink® service Interoffice Channels where appropriate
  - Trunk side termination for dedicated group of 24 circuits
  - Trunk termination per channel (DSO)
  - Megalink® Channel Service Network Access Service (NAS)
7. Optional features of DS1 Direct Termination trunk group include E & M Signaling, Wink Start, Multifrequency (MF) Pulsing and Answering Supervision. The customer will specify the desired optional features when ordering service.
