Based on our conversation with Tommy, we will treat this filing from OneStar as a request for cancellation of UStel, Inc.'s IXC certificate, based on the information given in the filing: Ustel has recently declared bankruptcy and OneStar understands that UStel and its subsidiary Arcada will continue to provide IXC service after the transfer of UStel's customer base to UStel. The transfer of customer base is discussed in the filing but will not need to be approved or acknowledged by the PSC. Our docket will simply cancel UStel's IXC certificate.
