SPECIALIZED COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

1. Access Line
A dedicated arrangement which connects a customer location to an Global NSC (see below for definition).
2. Administrative Change
The modification of an existing circuit, dedicated access line or port, at the request of the customer, that involves changes in authorization codes, speed numbers, route guide, consolidation of billing, verification of testing performed by parties other than , or any other administrative change not covered by a Billing Record Change. (See below for definition)
3. Global
Global Crossing Telecommunications, Inc.
4. Application for Service
A standard Global order form which includes all pertinent billing, technical and other descriptive information which will enable Global to provide the communication service as required.
5. Authorization Code
A multi-digit code, one or more of which are available to Metered Use Service customers to enable them to identify individual users or groups of users, and thereby allocate the costs of their long distance service; except where Equal Access Dialing is used by the customer and costs are allocated on the basis of the telephone number from which the customer uses the service.
6. Authorized User
A person, firm, corporation or other entity authorized by the customer to receive or send communications. Such permission includes, without limitation, 1) the use of the customer's Authorization Code where the Authorization Code has been made known to the user by the customer, its employees, or agents and 2) the use of customer's telephone number when Equal Access Dialing is used.
7. Billing Record Change
A change in customer billing address or a change from one billing package to another using the same access method.

All Material on this page was located on 4th Revised Sheet 6 of Florida Tariff PSC No. 1, with the exception of item #3 which was located on 3rd Revised Sheet 7 of Florida Tariff PSC No. 1.

SPECIALIZED COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS (Cont'd)

8. Cancellation of Order
A customer initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion. Cancellation charges will be assessed for each dedicated access line canceled from an order prior to its completion by Global under the following circumstances:
- (1) if the local Telco has already confirmed in writing to Global that the dedicated access line will be installed; or
 - (2) if Global has already submitted facilities orders to an interconnecting telephone company. (This differs from a Disconnection, see below for definition).
9. Circuit Termination
The point at which Global's circuit originates, terminates, or drops for the insertion or removal of a customer's signal.
10. Customer
The person, firm, corporation or other entity which orders service, including the ordering or use of Equal Access Dialing, either for its own use, as an Other Common Carrier, or as a non-profit manager of a sharing group, and which is thereby responsible for the payment of charges and for compliance with Global tariff regulations. For billing purposes, a customer is considered to be an account. If a customer orders an authorization code or orders or uses Equal Access Dialing, in more than one Global originating city, or requests the assignment of more than one Authorization Code in a particular city, each such account is a separate customer for billing purposes.
11. Customer-provided Terminal Equipment
Terminal equipment, as defined herein, provided by a customer.

SPECIALIZED COMMON CARRIER SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS (Cont'd)

12. Disconnection
The disconnection of a dedicated access line or port connection being used for existing service. (This differs from a Cancellation; see above for definition.)
13. Equal Access Dialing
The use of service through Telco Equal Access facilities allowing the customer to access Global's NSC through either a "1+" or 10444 dialing sequence. Customers using Equal Access Dialing may be billed to the telephone number from which the Equal Access Dialing originates.
14. Installation
The connection of a dedicated access line or port for new or additional service.
15. Joint User
A person, firm, or corporation designated by the customer as a user of communication facilities furnished to the customer by Global, and to whom a portion of the charges for such facilities are billed under a joint user arrangement.
16. National Holidays
Global-recognized National Holidays are New Year's Day, Fourth of July, Labor Day, Thanksgiving Day and Christmas Day.
17. Network Switching Center (NSC)
Any location where Global has a network switch installed.
18. Network Trunks
Access lines, interswitch trunks, and circuits connecting services and facilities of Global or other carriers to Global NSC's.
19. Numbering Plan Area (NPA)
A three digit code which is assigned to a specific geographical calling area as denoted in the North American Numbering Plan.
20. Off-Network Access Line
A local exchange, foreign exchange, or WATS line connecting both incoming and outgoing traffic from the Global switched service network to the public switched network.

SECTION 2 - RULES AND REGULATIONS2.1 Description of Service

- 2.1.1 Global is an interexchange common carrier furnishing communications services between specified locations under the terms of this tariff.
- 2.1.2 Global, when acting at the customer's request, and as his/her authorized agent, will make reasonable efforts to arrange for service requirements which may include terminal equipment and circuit conditioning or Equal Access Dialing.

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of facilities and the provisions of this tariff.
- 2.2.2 Global reserves the right to immediately discontinue furnishing service, upon written notice, when necessitated by conditions beyond its control or when the customer is using the service in violation of the provisions of this tariff, or in violation of law.

2.3 Terms and Conditions

- 2.3.1 Service is provided and billed on the basis of a minimum period of at least one month, beginning on the date that billing becomes effective, and continues to be provided until canceled, by the customer, in writing, on not less than thirty (30) days notice. In the event a customer orders an Global option that does not require a monthly subscription fee, Global reserves the right to treat a period of non-use of not less than 90 days as a cancellation and to discontinue furnishing service, without notice, after such ninety (90) day period.
- 2.3.2 Service is offered on a monthly basis.
- 2.3.3 For the purpose of computing charges in this tariff, a month is considered to have thirty (30) days.
- 2.3.4 The name(s) of the customer(s), including members of a sharing group, desiring to use the service must be stipulated in the application for service.

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.4 Liability

- 2.4.1 The liability of Global, for whatever reason, shall not exceed an amount equivalent to the proportionate charge otherwise payable for the period of time during which any mistake, omission, interruption, delay, error or defect, or any other event giving rise to a claim, occurs. In no event shall Global be liable for special, consequential or incidental damages.
- 2.4.2 Global shall be indemnified and held harmless by the customer against:
- a) claims for libel, slander, or infringement of copyright arising out of the material, data, information, or other content transmitted over Global's channels; and
 - b) patent infringement claims arising from combining or connecting Global's furnished channels with apparatus and systems of the customer; and
 - c) all other claims arising out of any act or omission of the customer in connection with any service provided by Global.
- 2.4.3 Global is not liable for any act or omission of any other company or companies furnishing a portion of the service.

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.6 Use of Service

2.6.1 The services offered herein may be used for one or more of the following:

- a) for the transmission of communications to or by the customer;
- b) for the transmission of communications to or by an authorized user or joint user.

2.6.2 Service may be arranged for joint use or authorized use. The joint user or authorized user shall be authorized to use such service in the same manner as the customer, but subject to the following:

- a) One joint user or authorized user must be designated as the customer. The designated customer does not necessarily have to have communications requirements of his own. The customer must specifically name all joint users or authorized users in the Application for Service. Orders which involve the start, rearrangement, or discontinuance of joint use or authorized use service will be accepted by Global only from that designated customer and will be subject to all regulations in this tariff.
- b) All charges for the service will be computed as if the service were to be billed to one customer and any discount arrangements will be based on the actual number of circuits installed at the beginning of the billing period. The customer shall be responsible for allocating charges to each joint user or authorized user.

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.6 Use of Service (Cont 'd)

2.6.3 Service may be arranged for use by Other Common Carriers for the purposes of resale subject to the following:

- a) Other Common Carriers will be responsible for charges, costs, etc. incurred by Global with respect to Services as referenced in Section 4.
- b) Other Common Carriers are responsible for all interaction and interface with their own subscribers or customers.

2.6.4 Service shall not be used:

- a) for any unlawful purpose;
- b) for any purpose for which payment or other compensation is received by the customer, except when the customer is a duly authorized and regulated common carrier. This provision does not prohibit an arrangement between the customer, authorized user or joint user to share the cost of the service so long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.

2.6.5 An Global customer who resells or rebills any services contained in this tariff is required by law to have a Certificate of Public Convenience and Necessity as an interexchange carrier issued by the Florida Public Service Commission.

2.7 Payment Arrangements

2.7.1 The customer is responsible for payment of all charges for services furnished to the customer or any authorized user through customer's Authorization Code or Equal Access Dialing telephone number. Charges for installation, physical or administrative changes, or for cancellation of orders are payable upon completion. Recurring charges are billed in advance. Estimated usage charges are determined by Global based on the customer's projected use of service or at Global's option, on the highest previous monthly usage charges incurred by the customer.

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.7 Payment Arrangements, (Cont'd)

2.7.4 The charges set forth in this tariff for circuit terminations contemplate installation made in normal locations and under normal working conditions. Any installation to be made under other circumstances are subject to additional charges, which will be tarified as appropriate.

2.7.5 If notice of a dispute as to charges is not received, in writing, by Global within three months after an invoice is rendered, such invoice shall be deemed to be correct and binding upon the customer.

2.8 Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Global, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

SECTION 2 - RULES AND REGULATIONS (Cont'd)2.9 Restoration of Service

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

2.10 Inspection

Global may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements of this tariff are being complied with in the installation, operation or maintenance of the customer or Global equipment. Global may interrupt the service at any time, without penalty to Global, because of departure from any of these requirements.

2.11 Cancellation For Cause By Global

(See Section 2.5 for Cancellation by Customer)

Upon nonpayment of any sum owing to Global, or upon a violation of any of the provisions governing the furnishing of service under this tariff, Global may, upon written notification to the customer, without incurring any liability, immediately discontinue the furnishing of such service.

2.12 Testing and Adjusting

Upon reasonable notice, the circuits provided by Global shall be made available to Global for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

2.13 Local Charges

In certain instances, the customer may be subject to local telephone charges or message unit charges in using Global's service. Global is not responsible for any such local charges imposed directly on the customer by the local telephone company for gaining access to Global's intercity network.

Customer will be billed for and is liable for payment of all applicable federal, state, and local taxes, surcharges or other assessments including such amounts as Global may be authorized to pass through to the customer.

2.15 Special Rules for the Handicapped2.15.1 Directory Assistance

There will be no charge for up to fifty (50) calls per billing cycle from lines or trunks serving individuals with disabilities. The Company will charge the prevailing tariff rates for every call in excess of fifty (50) within a billing cycle.

2.15.2 Hearing and Speech Impaired Persons

Intrastate toll message rates for TDD users shall be evening rates for daytime calls and night rates for evening and night calls.

2.15.3 Telecommunications Relay Service

For intrastate toll calls received from the relay service, the Company will, when billing relay calls, discount relay service calls by fifty (50) percent off of the otherwise applicable rate for a voice nonrelay call. Where either the calling or called party indicates that either party is both hearing and visually impaired, the call will be discounted sixty (60) percent off of the otherwise applicable rate for a voice nonrelay call. The above discounts apply only to time sensitive elements of a charge for the call and shall not apply to per call charges such as credit card surcharge.

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)3.2 Metered Use Service

3.2.1 General Description

Metered Use Service offers the use of intercity communication facilities shared among multiple users. The individual customer's basic monthly charges for its use of these intercity communication facilities are based upon the total time the customer utilizes such facilities from each originating location and can vary, depending upon the option chosen, with the distance of each call. Unless otherwise specified, calls will be measured from the end of the three second measurement point of the Global switch immediately following the time that the called party answers to the end of the three second measurement point of the Global switch immediately following the time that either the calling or called party disconnects from the call, as indicated by answer supervision. No charge is made for calls not completed. It is never the Carrier's policy to charge a customer for incomplete calls. A customer may dispute any charge by contacting the Carrier's Customer Service Department and proper credits will be issued if, upon investigation, the disputed charges are found to be incorrect. For billing purposes, the duration of each call will be rounded as specified in the description of each service option in the following sections. The rates per minute charged for service are set forth in Section 4.

A monthly listing of each individual call and its duration is available as a standard.

In order to utilize Global's facility intrastate, a subscriber must be a subscriber under Global's Tariff FCC No. 5. Appropriate rates and charges found therein apply for all options and services other than intrastate calling. Rates for intrastate calling are governed by the rates set forth in Section 4.

Customers may experience busy signals in less than one percent of all calls.

SECTION 3 - DESCRIPTION OF SERVICE, (Cont'd)

3.2 Metered Use Service, (Cont'd)

3.2.2 Service Options, (Cont'd)

a) Allnet Option 1

Allnet Option 1 is an outbound, dial-up multipoint service whereby the customer originates and terminates calls via Global provided local business telephone lines or Allnet Option A Travel service. Subscribers to Global service may originate calls by dialing the access number of Global's NSC switch or through Equal Access Dialing. The rates for this service are contained in Section 4.

b) Allnet Maxcess I

Allnet Maxcess I is an outbound, multipoint service designed for very high volume users. Maxcess I customers may originate calls via voice grade special access or high capacity (T1) access arrangements provided by the customer between the customer's premise and Global's switch. Global reserves the right to limit service availability to customers with a minimum requirement for 17 voice grade equivalent channels. The customer's per minute usage rates are based upon the airline distance between the originating and terminating locations of each call and are contained in Section 4. Calls are measured in six (6) second increments. Any fraction of an increment is rounded up to the next whole increment. A monthly recurring charge is assessed per originating Global switch assessed. Recurring and nonrecurring charges for the dedicated access facilities associated multiplex and customer premises equipment will apply as set forth in the appropriate local exchange company's tariff and Global's FCC Tariff No. 5.

c) Allnet Maxcess II

Allnet Maxcess II is an outbound, multipoint service designed for high volume users. Maxcess II customers may originate calls via voice grade special access or high capacity (T-1) access provided by the customer between the customer's premises and Global's switch. The applicable per minute rates are contained within Section 4 and are based on the airline distance between the originating and terminating locations of each call. Calls are measured in six (6) second increments with an eighteen second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. All applicable recurring and nonrecurring charges for Maxcess II will be billed by the local telephone company in accordance with the charges set forth in its applicable tariff.

d) Allnet Maxcess III

Allnet Maxcess III is an outbound, multipoint service whereby the customer originates calls via dedicated facilities or by presubscribing long distance service to Global. Calls can be completed from the customer's premises to any location within the state of Florida. The rates for this service are contained in Section 4. Maxcess III calls are measured in six (6) second increment with a minimum usage of **one minute** per call. Any fraction of an increment is rounded up to the next whole increment.

p) Allnet Edge

Allnet Edge 1+ is a two-way switched access service offered only in conjunction with Global's interstate Edge service. Allnet Edge provides customers with mileage based per minute rates for both their inbound (800) and outbound (1+) usage. Allnet Edge customers may originate outbound intrastate interLATA calls by dialing 1 plus an area code and the desired telephone number, or may originate intrastate calls by dialing 10XXX and then the area code and the desired telephone number. Inbound calls are originated to the Edge customer's designated location by users dialing 1+ the Edge customer's 800 telephone number.

Rate Structure

Allnet Edge calls are based on length of call, the distance between the originating and terminating locations of each call, and time of day.

Usage Charges

The customer's total monthly use of Allnet Edge service is charged at the applicable rates per minute and service hours set forth in Section 4 of the tariff. Calls are billed in six (6) second increments, with a thirty (30) second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Ancillary Services

Allnet Edge customers will receive the following discount credits on qualifying usage: (1) a discount credit of 10% will be applied to all outbound Allnet Edge calls made to a single area code with highest total domestic usage during a billing cycle; and (2) a discount credit of 10% will be applied to all outbound Allnet Edge calls between telephone numbers (ANIs) on the same Global account.

Calls made to directory assistance telephone numbers are charged on a per call basis.

q) Allnet HomeSaver

Allnet HomeSaver is a two-way switched access service offered only in conjunction with Global's interstate HomeSaver service. Allnet HomeSaver provides customers with both inbound (800) and outbound (1+) service. Allnet HomeSaver customers may be billed directly or via their credit card for intrastate and interstate calls that terminate to the customer's HomeSaver station, and are billed to the called party rather than the call originators. HomeSaver customers may originate outbound intrastate calls by dialing 1 plus an area code and the desired telephone number, or by dialing 10XXX and then the area code and the desired telephone number. Inbound calls are originated to the Allnet HomeSaver customer's designated location by users dialing 1 plus the HomeSaver customer's 800 telephone number.

Rate Structure

Allnet HomeSaver calls are based on length of call and time of day.

Usage Charges

The customer's total monthly use of Allnet HomeSaver is charged at the applicable service hours and rates per minute set forth in Section 4. HomeSaver outbound calls are billed in six (6) second increments, with a thirty (30) second minimum per call. HomeSaver inbound calls are billed in six (6) second increments with a one minute minimum per call. Any fraction of an increment is rounded up to the next whole increment.

Allnet HomeSaver subscribers who place Access (Travel) calls are billed in **one minute** increments with a **one minute** minimum per call, according to HomeSaver service hours. The rates applicable to HomeSaver Access (Travel) calls are set forth in Section 4 of the tariff. (I)

s) Allnet Spectrum

Allnet Spectrum is a personal communication service which allows the caller to dial an Allnet Spectrum 800 telephone number and enter a four digit personal identification routing number (PIRN) to complete a call. Allnet Spectrum service is only available in conjunction with Global's interstate Spectrum service offering. As a PIRN-based product that can be shared among customers, customers are not granted exclusive use of the 800 number used for accessing the Allnet Spectrum service and thus, may not continue to use the 800 telephone number upon cancellation of their Allnet Spectrum service. To use Allnet Spectrum service, the caller dials the 800 telephone number for the Allnet Spectrum service. The caller may then (1) enter a PIRN which routes the call to a customer predesignated telephone number (PIRN CALL); or (2) enter a PIRN which permits the customer to then direct dial a telephone number (DIAL TONE PIRN). Certain PIRNS are reserved for use by the Carrier under Allnet Spectrum service or for accessing other services.

Rate Structure

Charges for Allnet Spectrum are based on the length of call, time of day and the distance in airline miles of the call.

Usage Charges

The customer's total monthly usage of Allnet Spectrum service is charged according to the service hours in Section 4 and the rates per minute as set forth in Section 4 of the tariff. Allnet Spectrum travel calls are billed in six (6) second increments with a thirty (30) second minimum for each call. Any fraction of an increment is rounded up to the next whole increment. Calls made to directory assistance are charged on a per call basis.

t) Allnet MobileLine Service

Allnet Mobile Line Service is an ancillary service offering which permits cellular customers to access and route to Global for their transmission and reception, voice, data and other types of telecommunications services. Allnet Mobile Line Service is available to all Global customers in Mobile Line geographically serviceable areas, and is only available in conjunction with interstate Allnet Mobile Line service. Allnet Mobile Line long distance charges are for Global on-net calls (calls to a land line telephone or to a cellular telephone outside of the cellular telephone's home LATA) applied only on completed calls from the time that the originating party completes dialing the telephone number. All MobileLine service calls are billed in one minute increments with a one minute minimum.

Long distance charges are standard Solution II rates, as set forth in Section 4 of the tariff. If a MobileLine customer is also a customer of a land-line accessed Global product, those MobileLine customers making cellular calls through Allnet Access will be assessed long distance charges equal to the Allnet Access rates based upon their associated land-line Allnet product. For other MobileLine customers, the Allnet Access rates for Allnet Solution II will apply. Existing directory assistance and operator assisted services rates may apply as long distance charges to all MobileLine customers for calls from MobileLine cellular subscribed telephones. MobileLine telephone numbers are not eligible for any promotional offerings. MobileLine customers will be assessed an Out-of-Home-Area Origination Surcharge which is assessed in addition to other charges when the call originates from an area other than the home cellular system. MobileLine customers are liable for any Out-of-Home-Area Origination Surcharges billed to Global by any cellular provider and Global will then rebill the customers for all such surcharges.

Product One Term Plan options will automatically renew for successive periods of one year unless the Product One Term Plan customer notifies Global in writing before the end of the term that the Term Plan customer intends to terminate the agreement at the completion of the current one year term. There is a monthly minimum usage level (MMUL) for each term plan option, as set forth in Section 4. Beginning with the customer's second invoice, and for the remaining months of any term plan commitment, the customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. A monthly termination fee, equal to the MMUL of the term plan that the Product One customer is subscribing to, will be assessed per month for each of the remaining months in the then current term after a Product One customer terminates service prior to the completion of the current term of service. Product One, Product One Access, and Product One Spectrum directory assistance calls are charged on a per call basis. Product One customers who have also selected Allnet MobileLine service will have their MobileLine service long distance calls rated and billed at the month-to-month Product One per minute rates in Section 4. Product One customers who also have service long distance Allnet MultipointSM 800 service will have their MultipointSM 800 calls rated and billed at minute rates in Section 4.

3.3 Calculation of Distance

Mileage between Global terminal locations or Metropolitan areas will be determined by applying the formula listed below to the Vertical and Horizontal Coordinates set forth in AT&T's Tariff FCC No. 274 incorporated by reference herein.

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates set forth in Part B of Table II according to the following formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

Where V₁ and H₁ correspond to the V and H coordinates of City 1 and V₂ & H₂ correspond to the V & H coordinates of City 2.

Example:

	<u>V</u>		<u>H</u>
City 1 - New York	4997		1406
City 2 - Chicago	5986		3426

V₁ V₂ H₁ H₂

$$\sqrt{\frac{(4997 - 5986)^2 + (1406 - 3426)^2}{10}}$$

= $\sqrt{505852.1}$

= 711.2328 miles*

Airline Mileage = 712

*Result will always be rounded to the next highest mile.

SECTION 5 - PROMOTIONAL OFFERINGS

The Company may from time to time engage in special promotional trial service offerings of limited duration, designed to attract new customers or to increase existing customer awareness of a particular tariff offering. Requests for promotional offerings will be presented to the Commission for its review, in accordance with rules and regulations established by the Commission, and will be included in this section of the Company's tariff.

1. Max[®] MiserSM Promotion

Allnet Maxcess III customers who sign up for service after December 31, 1993, are eligible to receive (in conjunction with Global's interstate Max[®]MiserSM Promotion) a discount credit of 10% which will be applied for a period of 12 consecutive months to all Maxcess III outbound and inbound calls, and all outbound Allnet Access calls which are made to the single area code or international country with the highest total usage (in dollars) in the period for which a bill is being calculated. Calls to directory assistance and operator services are excluded from this discount credit.

2. Solution II ASP Promotion

Allnet Solution customers located in the 407, 813, or 904 area codes who sign up for a one-year term of service after March 16, 1994, are eligible to receive (in conjunction with Global's interstate Solution II ASP Promotion) a discount credit of 37.80% off of their outbound and inbound (800) total monthly business hour usage, and a discount credit of 24.40% off of their total monthly outbound and inbound (800) off hour usage and during the next nine (9) consecutive months of service, customers may receive a discount credit of 20.21% off of outbound and inbound (800) total monthly business hour usage and a discount credit of 3.70% off of outbound and inbound (800) total monthly off hour usage. Directory Assistance and operator Assisted calls are not eligible for determining the total monthly business hour usage. The discount credit is in lieu of any other applicable promotional discount credits during the same time period, and apply a period of 12 consecutive months of service.
