SECTION 3 - LONG DISTANCE SERVICES, (continued)**3.8 General, (continued)****3.8.9 Operator Services**

Operator services are available to Consumers from any Customer location. Operator Services allows the Consumer to place a call from a Customer location and arrange for billing other than to the originating telephone number. Calls are rounded up to the next whole minute for billing purposes and are billed to the Consumer through the monthly bill of the Consumer's local exchange carrier.

The following billing arrangements are available to Consumers through the Company's Operator Services:

a) Customer Dialed Calling/Credit Card

This is a service whereby the end user dials all of the digits necessary to route and bill the call without any operator assistance. Such calls may be billed either to a telephone company issued calling card or a commercial credit card.

b) Operator Station

This is a service whereby the caller places a non-person-to-person call with the assistance of an operator (live or automated). When placing an operator station call, the caller is connected to a non-specified individual at the terminating end. Such calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.

c) Person-to-Person

This is a service whereby the person originating the call specifies to Broadwing Telecommunications Inc.'s operator a particular person to be reached, or a particular person, station, room number, department, or office to be reached through a PBX attendant. Person-to-person calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.

SECTION 3 - LONG DISTANCE SERVICES, (continued)**3.8 General, (continued)****3.8.10 Integrated Access Service**

Integrated Access Service (IAS) offers a discount for Customers who purchase two or more services from the Company under a term agreement of one, two, or three years. The discount offered is based on the number of services purchase and the contract commitment term. Eligible Customers must commit to a minimum aggregated monthly usage of at least \$2,500. If during any month of the term, the Customer's usage of Broadwing's services is less than the minimum commitment, the Customer will pay to Broadwing the difference between the minimum commitment and the Customer's actual usage of Broadwing services. Services eligible for the discount are all Company provided switched and dedicated voice services, dedicated Internet service, Frame Relay Service and Private Line Services billed to one account, including all remote locations (CPE). Dedicated access line charges, customer-premises equipment (CPE), installation and ancillary charges (such as Directory Assistance charges and Operator Services) are not eligible for the discount and do not contribute to the minimum usage commitment. Eligible intrastate, interstate and international usage contribute to the minimum commitment and are discounted according to table found in Section 4.

(T)
(T)
(T)**A. Broadband Services**

In addition to the provisions above and in Section 4, broadband services (i.e., Frame Relay) customers with an IAS plan will be subject to the following additional provisions:

1. At the end of the Customer's service term, service will renew for successive three month periods. Either the Customer or Broadwing may terminate services upon thirty (30) days written notice prior to then of the term or any successive three month renewal.
2. If the Customer terminates usage of IAS services prior to the end of the term, the Customer will pay to Broadwing 100% of the then-current dedicated access monthly charges (for access provided by the Company), multiplied by the number of months remaining in the term.
