Dear Commissioners

I am a widow on a fixed income living in Buccanaw Estates, N.F.M. I am very disappointed with the PSC's decision to accept the settlement agreement.

Like many other homeowners in this Park, I was not here for the Aug. 26th meeting when we supposedly voted in favor of having NFMU take over our sewer plant, neither was I consulted by NFMU in any shape, manner or form.

My feeling is that since NFMU invited NFMU into the Park, without consulting residents, they should pay for the system, & all other charges coming from it.

By allowing this agreement to go forward, you are allowing an unlicensed utility to force its way into this community, thus making a hardship on many other residents.

Hoping you will give this matter more consideration, & reverse your previous decision.

Sincerely,
Mrs. Roger Spencer (Vera M.)
