### STATE OF FLORIDA OFFICE OF THE PUBLIC COUNSEL IGINAL

c/o The Florida Legislature 111 West Madison St. Room 812 Tallahassee, Florida 32399-1400 850-488-9330

July 31, 2000

Ms. Blanca S. Bayó, Director Division of Records and Reporting Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, FL 32399-0870

RE: Docket No. 991643-SU

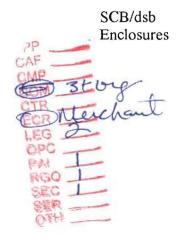

Dear Ms. Bayó:

Enclosed are an original and fifteen copies of the Prefiled Testimony of Hugh Larkin, Jr. for filing in the above-referenced docket.

Also Enclosed is a 3.5 inch diskette containing the Prefiled Testimony of Hugh Larkin, Jr. in WordPerfect for Windows 6.1 format. Please indicate receipt of filing by date-stamping the attached copy of this letter and returning it to this office. Thank you for your assistance in this matter.

Sincerely,

Stephen C. Burgess Deputy Public Counsel

Docket No. 991643-SU Filed: July 31, 2000

#### DIRECT TESTIMONY OF

#### HUGH LARKIN, JR.

Respectfully submitted, Jack Shreve Public Counsel

Office of Public Counsel c/o The Florida Legislature 111 West Madison Street Room 812 Tallahassee, FL 32399-1400

(850) 488-9330

Attorney for the Citizens Of the State of Florida

DOCUMENT NUMPER-DATE

0923 | JUL 31 8 FPSC-RECORDS/REPORTING

1		DIRECT TESTIMONY OF HUGH LARKIN, JR.
2		ON BEHALF OF THE CITIZENS OF FLORIDA
3		BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
4		ALOHA UTILITIES, INC.
5		DOCKET NO. 991643-SU
6		
7		I. INTRODUCTION
8	Q.	WHAT IS YOU NAME, OCCUPATION AND BUSINESS ADDRESS?
9	А.	My name is Hugh Larkin, Jr. I am a Certified Public Accountant licensed in the States of
10		Michigan and Florida and the senior partner in the firm of Larkin & Associates, PLLC,
11		Certified Public Accountants, with offices at 15728 Farmington Road, Livonia, Michigan
12		48154.
13		
14	Q.	PLEASE DESCRIBE THE FIRM LARKIN & ASSOCIATES.
15	А.	Larkin & Associates, PLLC, is a Certified Public Accounting and Regulatory Consulting
16		Firm. The firm performs independent regulatory consulting primarily for public
17		service/utility commission staffs and consumer interest groups (public counsels, public
18		advocates, consumer counsels, attorneys general, etc.). Larkin & Associates, PLLC, has
19		extensive experience in the utility regulatory field as expert witnesses in over 300
20		regulatory proceedings including numerous water and sewer, gas, electric, and telephone
21		utilities.
22		
23		

1	Q.	HAVE YOU PREVIOUSLY TESTIFIED BEFORE THE FLORIDA PUBLIC SERVICE
2		COMMISSION?
3	A.	Yes. Over the last 25 years, I have testified before the Florida Public Service
4		Commission in numerous rate cases involving water and wastewater utilities.
5		
6	Q.	BY WHOM WERE YOU RETAINED, AND WHAT IS THE PURPOSE OF YOUR
7		TESTIMONY?
8	Α.	Larkin & Associates, PLLC, was retained by the Florida Office of Public Counsel (OPC)
9		to review the rate increase request by Aloha Utilities, Inc., for its Seven Springs
10		Wastewater Division. Accordingly, we are appearing on behalf of the Citizens of Florida
11		("Citizens").
12		
13	Q.	HOW WILL YOUR TESTIMONY BE ORGANIZED?
14	Α.	My testimony will discuss the schedules which are attached to my testimony. The
15		testimony will follow the numbering of the schedules starting with Schedule 1 and
16		continuing on through Schedule 7.
17		
18		SCHEDULE 1
19		
20	Q.	WHAT DOES SCHEDULE 1 SHOW?
21	А.	Schedule 1 shows the current position of the OPC as it relates to the revenue adjustments
22		which the OPC believes is appropriate for Seven Springs at this time. There are several

•

1		other issues that the OPC is pursuing either through discovery or will incorporate through
2		cross-examination which will impact the revenue calculation I have included on Schedule
3		1. However, at this time the Office of Public Counsel through myself and Ted L. Biddy
4		are recommending that the Commission find a revenue requirement appropriate for Seven
5		Springs Wastewater Division of no more than \$447,019. Schedule 1 is a summary
6		schedule and is supported by other Schedules (2 through 7) which show each adjustment
7		to expenses or rate base.
8		
9		SCHEDULE 2
10		
11	Q.	WHAT DOES SCHEDULE 2 SHOW?
12	А.	Schedule 2 shows the operating and maintenance expenses as proposed by the Company
13		for the test year ended September 30, 2001. The Company amount is shown in column 2
14		of Schedule 2, page 1 of 3. In the columns to the right of column 2 I am proposing
15		several adjustments to the operating expenses that either I am sponsoring or Mr. Biddy is
16		recommending. The adjustments I am sponsoring also include adjustments to expenses
17		which incorporate prior Commission decisions and the recent Staff audit; these are shown
18		in column 3. Audit disclosures and audit exception from the Staff audit are shown in
19		column 4.
20		
21	Q.	WOULD YOU PLEASE DISCUSS THE PRIOR COMMISSION DISALLOWANCES.
22	А.	On lines 2 and 3 of Schedule 2, page 1 of 3, I have removed a portion of the salary and

•

1	employee benefits for Aloha Utilities' Vice President Lynnda Speer. This adjustment is
2	consistent with the Commission's decision in Order No. PSC-99-1917-PAA-WS. In that
3	docket the Commission concluded that Ms. Speer's salary and benefits were not justified
4	in relation to the salary and benefits received by the President, Mr. Watford. I agree with
5	that adjustment and am therefore adopting it as part of the OPC's position.
6	

# Q. THERE ARE ADJUSTMENTS ON LINES 10, 11 AND 12 ALSO IN THE COLUMN RELATED TO DISALLOWANCES FROM PRIOR ORDERS. WOULD YOU PLEASE EXPLAIN THOSE ADJUSTMENTS?

10 Α. The Commission did not allow the Company to recover certain amounts of rate case expense from a prior docket. The Company wrote off those expenses in the historical test 11 12 year September 30, 1999. They are, therefore, included within the base amount that the Company used for projected expenses in the year end September 30, 2001. If these 13 14 expenses were allowed to be included in the projected test year the Company would recover expenses already disallowed by the Commission and in addition would recover 15 them on an ongoing basis year after year. It is appropriate to remove them from the test 16 17 year balance.

18

On Schedule 2, page 2 of 3, I have also shown the adjustments for the officers' salary and
benefits and the disallowed rate case expense. The particular audit disclosure or audit
exception is also shown on that page of Schedule 2.

22

1	Q.	WOULD YOU PLEASE DISCUSS THOSE ADJUSTMENTS YOU ARE
2		RECOMMENDING RELATED TO THE STAFF AUDIT DISCLOSURES.

3 Α. Those adjustments are shown in column 4 of Schedule 2, page 1 of 3, and are also 4 detailed on Schedule 2, page 2 of 3. The first adjustment to account 718 - Chemicals 5 removes \$1,223 from the chemical account. In the Staff's audit, the Staff discovered that the Company wrote off an amount to the chemical account and the material and supplies 6 7 account (\$1,087 to each account) related to an unreconcilable balance. This amount 8 should not be included in expenses for rate making purposes because it cannot be 9 determined whether it was an expense actually incurred for the benefit of ratepayers in 10 Seven Springs and is undeterminable as to what the item is. The escalation which the 11 Company calculated on this amount should also be removed.

12

13The next expense adjustment removes \$14,295 from account 720 - Materials and14Supplies. This adjustment comprises the write-off I previously discussed related to a15similar amount in chemical expense (\$1,087) and \$11,616 of items which the Staff16discovered should have been capitalized rather than expensed. Both of these items have17been escalated by the Company and I have removed that escalation. The total of this18adjustment is shown on Schedule 2, page 2 of 3.

19

The next adjustment is to account 732 - Contractual Services-Legal. This adjustment
 comprises two audit disclosures as shown on Schedule 2, page 2 of 3. Audit Disclosure 9
 removes \$2,581 of legal expenses from Contractual Services-Legal. These legal expenses

1	were associated with obtaining a \$5.2 million loan from NationsBank and were not
2	expenses of the current test period and should be treated as prepaid loan fees.
3	Additionally, Audit Disclosure 6 removes \$27,400 from Contractual Services -Legal for
4	legal expenses associated with the treatment plant problems which brought the Company
5	in conflict with the Florida Department of Environmental Protection. Such costs should
6	be borne by stockholders because ratepayers have no influence over the Company's
7	operation of the plant or its discharge of effluent, which caused the conflict with the
8	Florida Department of Environmental Protection. It would be inappropriate for
9	ratepayers to pay this cost since the Company's stockholders and officers are responsible
10	for compliance with FDEP's regulations.
11	
11	
11	The last adjustment in column 4, Schedule 2, page 1 of 3, to account 775 - Miscellaneous
	The last adjustment in column 4, Schedule 2, page 1 of 3, to account 775 - Miscellaneous Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the
12	
12 13	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the
12 13 14	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should
12 13 14 15	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should not be held responsible for violations, either alleged or otherwise, associated with the
12 13 14 15 16	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should not be held responsible for violations, either alleged or otherwise, associated with the operation of the plant. Management and stockholders are directly responsible for the
12 13 14 15 16 17	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should not be held responsible for violations, either alleged or otherwise, associated with the operation of the plant. Management and stockholders are directly responsible for the operation of the plant and the discharge of effluents. To allow the recovery of legal fees
12 13 14 15 16 17 18	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should not be held responsible for violations, either alleged or otherwise, associated with the operation of the plant. Management and stockholders are directly responsible for the operation of the plant and the discharge of effluents. To allow the recovery of legal fees and payments associated with alleged violations moves the responsibility for the
12 13 14 15 16 17 18 19	Expenses. This adjustment of \$20,244 removes from miscellaneous expenses the \$18,400 paid to the DEP for settlement of alleged violations. Again, ratepayers should not be held responsible for violations, either alleged or otherwise, associated with the operation of the plant. Management and stockholders are directly responsible for the operation of the plant and the discharge of effluents. To allow the recovery of legal fees and payments associated with alleged violations moves the responsibility for the appropriate operation of the plant, in compliance with DEP regulations, from the

## Q. WOULD YOU PLEASE DISCUSS THE ADJUSTMENTS BEING PROPOSED BY THE OPC.

A. The OPC is proposing several adjustments to various accounts projected by the Company. 3 4 The first of these adjustments is to account 701 - Salaries and Wages. On Schedule G-7, 5 page 2 of 18, the Company has shown the details of the salary and wages projected 6 through for the period ending September 30, 2001. Included within that projection is the 7 salary for an individual which the Company claims they were required to hire as a result 8 of the Consent Final Judgement. The Consent Final Judgement states that "the Company 9 must provide additional operators to staff the operation of the plant 24 hours a day." It 10 does not require any additional administrative employees be added to the Company's employment rolls. I am removing from the projected salaries the administrative person 11 12 that the Company has added under the purported justification that it was a requirement of 13 the DEP. In addition, I have removed the employee's associated benefits from account 704. 14

15

The next adjustment the OPC is proposing is an adjustment to purchased power. OPC witness Biddy supports this reduction in purchased power expense by \$57,604. Witness Biddy indicates that the purchased power cost should be reduced by a factor which reflects the reduction of inflow and infiltration (23.37%). Mr. Biddy is also sponsoring the same type of adjustment to the chemicals account. Applying the same inflow and infiltration factor to chemical costs results in a downward adjustment of \$9,755.

22

1		The next adjustment relates to the material and supplies account. The materials and
2		supplies account have increased drastically from 1998 to the test year ended September
3		30, 1999. It has increased approximately 62%. The Staff's audit and disclosures'
4		adjustments remove \$12,703 from this balance. However, the balance still increased by
5		approximately 36%, even with those adjustments. The Company has not accounted for
6		this dramatic increase. I am proposing that the Company's historical test year expense be
7		reduced to the 1998 level, increased by customer growth and inflation for the nine months
8		ended September 30, 1999. This amounts to an adjustment of \$15,266.
9		
10		I have also removed the customer growth and inflation adjustment associated with this
11		amount through September 30, 2001. Unless and until the Company can account for the
12		dramatic increase in any account balance between historical data and the test year used to
13		project the 2001 test year, the increase should be disallowed. The Commission should
14		not allow any large increases which have not been justified by the Company.
15		
16	Q.	WHAT IS THE NEXT ADJUSTMENT YOU ARE SPONSORING?
17	А.	I am sponsoring an adjustment to account 732 - Contractual Services-Accounting. The
18		Company has hired a new comptroller who has an accounting background. The addition
19		of the new comptroller should result in productivity gains related to keeping the
20		Company's books and records. In other words, they will not have to rely as extensively
21		as they have in the past on outside accounting services to maintain the books and records
22		and file reports with the Public Service Commission and other entities. As a result of

1		hiring the new comptroller, I have removed from contractual services-accounting an
2		estimate of productivity gains of 50% of the allocated salary of the comptroller to the
3		Seven Springs Division. This amounts to an adjustment of \$7,449.
4		
5	Q.	IS THERE ANY OTHER ADJUSTMENT YOU ARE PROPOSING TO
6		CONTRACTUAL SERVICES-ACCOUNTING?
7	A.	Yes. The Company has included within contractual services-accounting an increase of
8		\$24,000 related to a required audit of Aloha Utilities, Inc. as a result of a bank loan. The
9		Company has allocated a portion of this bank loan to the other operating divisions of
10		Aloha in its capital structure allocation. This is done through the pro-rata allocation of
11		capital shown on Schedule D-2 (A), page 1 of 1, of the minimum filing requirements.
12		Since the benefit of the loan is being allocated in part to entities other than Seven Springs,
13		it would be appropriate to allocate part of the cost of the audit to these entities. The
14		portion of the loan that is allocated to the other operating divisions of Aloha is 14.35%. I
15		am proposing that the \$24,000 audit fee be allocated in the same proportion as the debt is
16		allocated. This results in a reduction to contractual services-accounting of \$3,444.
17		
18	Q.	WHAT IS THE NEXT ADJUSTMENT THAT IS BEING PROPOSED BY THE OPC?
19	А.	The next adjustment is to account 736 - Contractual Services-Other. The Company has
20		added an estimated \$175,000 of maintenance expense for the maintenance of the new
21		facility. This adjustment is purported to be calculated by taking 5% of the cost of the new
22		plant as an estimate of maintenance expense. As OPC witness Biddy points out, the

1 manufacturer will guarantee the proper function of its installed equipment for a period of 2 one year. This plant is proposed to go into service in October 2000. Thus the Company 3 will not incur any repair costs which will not be paid for by the manufacturer or contractor during the test year ended September 30, 2001. Currently, it would be 4 5 inappropriate to include these costs when they will not be incurred. If at some future 6 point in subsequent years the Company does incur maintenance expense a petition to the 7 Commission to review these costs can be initiated. However, it would not be appropriate 8 to allow the Company to overrecover in current rates any expense it will not actually 9 incur.

10

#### 11

#### Q. WHAT IS THE NEXT ADJUSTMENT?

12 Historically, the Company has incurred approximately \$24,000 in account 775 -Α. 13 Miscellaneous Expense. The average for the years 1996, 1997, and 1998 was \$23,666. 14 The balance in this account jumped to \$62,041 for the year ended December 31, 1999, 15 and was \$57,861 for the 12 months ended September 30, 1999, which was used as a base 16 for projecting the test year ended September 30, 2001. Part of this increase has been 17 removed in the Staff audit when the Staff discovered that the Company had charged the 18 DEP fine of \$18,400 to this account. After removing this amount the account balance is 19 still approximately 67% higher than the average for the prior three years ended December 20 31, 1996, 1997, and 1998. I am proposing to remove from account 775 - Miscellaneous 21 Expenses the amount over the historical average increased by inflation and customer 22 growth. The Company has not properly explained this increase and it should not be

1		incorporated in rates until an analysis is provided of the historical expenses compared to
2		the projection base of September 30, 1999, and a proper explanation given as to why
3		ratepayers should bear this 67% increase.
4		
5		SCHEDULE 3
6		
7	Q.	WOULD YOU PLEASE EXPLAIN SCHEDULE 3?
8	Α.	Schedule 3 calculates the reduction in depreciation expense for the changes to the plant
9		accounts which myself or witness Ted Biddy are sponsoring. Column 2 is the
10		depreciation expense calculated by the Company. Column 3 represents the depreciation
11		rate related to the account being adjusted. Column 4 is the depreciation expense
12		associated with the invoices previously expensed that the Company capitalized and the
13		Commission subsequently disallowed. Column 5 is the result of the findings of the Staff
14		audit. The Staff audit found that the AFUDC rate was incorrectly used and that certain
15		items which were expensed should have been capitalized.
16		
17		Column 6 is my adjustment to the plant accounts to reduce the CWIP balance used to
18		calculate the total AFUDC. Aloha had recorded a monthly amount of accounts payable
19		attributable to CWIP. The utility did not include these payables in computing working
20		capital. (MFR Sch. A-17) The fact is, however, that thsee payables provide a source of
21		capital to the utility. If they are not used to reflect a reduction in the working capital
22		requirement, the associated CWIP should not be included for accumulating AFUDC.

1		Column 7 is an adjustment to depreciation expense for the non-used and useful plant
2		adjustment sponsored by OPC witness Biddy. Additionally, on line 57 the amortization
3		of CIAC was reduced because a portion of the reuse transmission and distribution lines
4		are considered non-used and useful by Mr. Biddy, and the amortization of that CIAC
5		associated with those lines would be reduced in the current year. The result is a reduction
6		in net depreciation expense as proposed by the Company.
7		
8		SCHEDULE 4
9		
10	Q.	PLEASE EXPLAIN SCHEDULE 4.
11	А.	Schedule 4 changes the amortization of the contributed tax associated with Contributions
12		In Aid of Construction. The Company has amortized this balance over a 40-year period.
13		CIAC assets have a composite life of approximately 26.9 years as disclosed in the work
14		papers to the Staff audit. A more appropriate life for the amortization of this tax would
15		be the life over which the CIAC assets are amortized. I have changed the amortization to
16		coincide with life used to amortize the CIAC. This increases the Company's adjustment
17		for amortization of these taxes and increases the amortization by \$18,808.
18		
19		SCHEDULE 5
20		
21	Q.	WHAT DOES SCHEDULE 5 SHOW?
22	Α.	Schedule 5 adjusts taxes other than income taxes for audit disclosures and the OPC's

1 adjustments to the plant accounts and depreciation reserve. On line 2 of Schedule 5 the payroll taxes associated with the salary of the officer whose salary was disallowed in the 2 3 last Commission order is reversed. On line 3 is the property tax adjustment proposed in 4 audit disclosure 10 of the Commission Staff. This adjusts property taxes to the level that 5 the Company would have paid had it paid the minimum amount for property taxes when 6 due. 7 8 The last adjustment shown on line 4 removes from property taxes the effect of 9 adjustments to the plant accounts and reserve recommended by OPC. The calculation of 10 this amount is shown on Schedule 5, page 2 of 2. The plant subject to personal property 11 taxes has been reduced by the percentage of plant reduction that the OPC is proposing to 12 the Company's plant in service. This is the difference between the Company's 13 month 13 average and the OPC's 13-month average shown on Schedule 7, page 1 of 6. Similarly, 14 the accumulated depreciation and the land have been adjusted for the difference 15 (percentage wise) between the utility adjusted balance and the OPC adjusted balance as shown on Schedule 7, page 1 of 6. The reduced taxable balance is shown on line 4 of 16 17 Schedule 5, page 2 of 2, to which I have applied the tax rate used by the Staff in disclosure 10. The reduction to the personal property tax would be the amount shown on 18 19 line 6, Schedule 5, page 2 of 2, of \$67,347. 20

21

1		SCHEDULE 6
2		
3	Q.	PLEASE PROVIDE AN EXPLANATION OF SCHEDULE 6.
4	A.	Schedule 6 adjusted the deferred income taxes for reduction in depreciation expense
5		resulting from the OPC's proposed plant adjustments and used to useful adjustments.
6		The book depreciation has been calculated on Schedule 3. The tax depreciation and
7		amortization have been adjusted down by the same percentage as the book depreciation
8		and amortization. The resulting difference after applying the state and federal tax rate
9		results in a reduction of deferred income tax expense of \$86,414. It is appropriate to
10		reduce the deferred taxes since the depreciation expense charged the ratepayers would be
11		reduced and also the tax depreciation and amortization associated with the reduced assets
12		would result in a lower deferred income tax expense recoverable from ratepayers.
13		
14		SCHEDULE 7
15		
16	Q.	WHAT DOES SCHEDULE 7 DEPICT?
17	А.	Schedule 7 depicts the rate base calculated by the OPC. On line 1 of Schedule 7, the
18		utility's plant in service is shown adjusted for the OPC adjustments. Page 2 of 6 shows
19		the OPC adjustments. On page 2 of 6 starting with column 2, which is the 13-month
20		average from the minimum filing requirements, I have adjusted for the following items.
21		
22		In column 3 I have adjusted for the disallowance of previously expensed invoices as

1		discussed earlier in this testimony. In column 4 I have adjusted for the AFUDC and
2		O&M items which were discovered and detailed in the Staff audit. The next column,
3		column 5, removes AFUDC associated with Accounts Payable (CWIP) which should
4		have been used to adjust the balance on which AFUDC was calculated. In the final
5		column I have calculated the used and useful adjustment based upon the information
6		provided to me by OPC witness Biddy.
7		
8		Line 2 of Schedule 7, page 1 of 6, shows the land and land rights. These are also detailed
9		on page 2 of 6 and reflect both used and useful adjustments and the correction of a
10		reallocation of land from the Commission's prior order.
11		
12		The next line on Schedule 7, page 1 of 6, is accumulated depreciation. The adjustments
13		to this account are detailed on Schedule 7, page 3 of 6. In column 3 I remove the
14		accumulated depreciation associated with the invoices previously expensed which the
15		Commission removed in its previous order. Column 4 reflects the removal of
16		depreciation reserve associated with non-used and useful plant.
17		
18	Q.	PLEASE EXPLAIN SCHEDULE 7, PAGE 4 OF 6.
19	A.	Schedule 7, page 4 of 6, adjusts Contributions In Aid of Construction for the
20		contributions received from the Southwest Florida Water Management District. Since
21		Ted Biddy has adjusted the reuse transmission and distribution system for used and
22		useful, the CIAC should also be adjusted to remove that portion of the CIAC received the

1		Southwest Florida Water Management District related to the reuse lines.
2		
3	Q.	PLEASE EXPLAIN SCHEDULE 7, PAGE 5 OF 6.
4	А.	On Schedule 7, page 5 of 6, I have also adjusted the accumulated amortization of
5		contributions in aid of construction for the portion of the amortization associated with a
6		contribution from SWFWMD.
7		
8	Q.	WHAT IS SHOWN ON SCHEDULE 7, PAGE 6 OF 6?
9	Α.	These are the proposed adjustments to working capital. The utility's proposed working
10		capital is shown on line 1 of Schedule 7, page 6 of 6. On line 2 I have removed the
11		income tax deposit from working capital since the Company will not pay any income
12		taxes in the near future.
13		
14		On line 3 I removed the cash balance from working capital consistent with the
15		Commission's last decision. The Company earns a rate of return on the cash balance and
16		to include the cash balance even with the interest included in the operating income, the
17		ratepayers would be subsidizing this investment. The Company has not shown that the
18		maintaining of a half million-dollar cash balance in the Company's bank is a requirement
19		of providing service to ratepayers. Unless and until the Company can demonstrate
20		providing services to ratepayers requires the maintenance of a bank account with a
21		\$500,000 balance it should not be included as working capital. Regardless of whether the
22		interest associated with this account is included in revenues, the customer would still be

1 2 subsidizing the balance because the interest return is less than the rate of return on rate base.

3

## 4 Q. HAVE YOU ALSO REMOVED THE INTEREST EARNED ON THIS BANK 5 ACCOUNT FROM REVENUE IN THIS CASE?

- A. Yes I have. I have removed \$9,572 of interest income associated with this working
  capital adjustment. This is shown on Schedule 1, column 3, line 1.
- 8

9 The last item I have removed from working capital is an increase of \$25,000 in rate case 10 expense which the Company claims results from the Commission staff requiring that the 11 Company's minimum filing requirements be revised. The Staff found that the minimum 12 filing requirements did not meet the Commission's rules and therefore required the 13 Company to supplement and revise the filing. My review of the filing indicated to me 14 that any of the information that the Company subsequently provided was necessary for 15 the understanding of the Company's case. Ratepayers should not be required to incur 16 additional rate case expense associated with information that is necessary for the 17 complete analysis and understanding of a company's request for an increase. I have also 18 removed the \$25,000 from the amortization which the Company has requested in this 19 case.

20

# Q. HAVE YOU ACCEPTED THE UTILITY'S PROPOSED CAPITAL STRUCTURE AND RATE OF RETURN?

1	А.	No, I have not. In Mr. Nixon's deposition on July 24, 2000, it was determined that the
2		Company had under projected customer deposits. This means that the Company's
3		proposed capital structure is not appropriate. In addition, the Staff's audit suggests that
4		the Company has not properly projected the equity balance on a 13-month average basis.
5		When the Company has corrected the capital structure for the miscalculation of customer
6		deposits, I will examine the proposed rate of return and determine if the OPC feels it is
7		appropriate for rate making purposes.
8		
9	Q.	ARE THERE ANY OTHER ISSUES THAT THE COMMISSION SHOULD
10		CONSIDER RELATED TO COMPANY'S PROPOSED RATE INCREASE?
11	A.	The Office of the Public Counsel, through witness Biddy, has removed from the rate base
12		reuse facilities which he has determined to be non-used and useful. The Commission, in
13		Order No. PSC-97-0280-FOF-WS issued March 12, 1997, indicated that the Company
14		could expect to receive at least \$109,500 of revenues associated with the sale of reuse
15		water. In the current case, the Company has included reuse revenues in the amount
16		\$47,359. Less than half of the total revenues the Commission felt would be generated
17		from the reuse facilities. If the Commission does not accept Mr. Biddy's analysis of the
18		reuse issue, then in my opinion, it would be appropriate for the Commission to include
19		the additional revenues above what the Company has projected in the test year ended
20		September 30, 2001. That is an additional amount of reuse revenues of \$62,141 and
21		ought to be imputed to the current test year (\$109,500-\$47,359=\$62,141). This would be
22		appropriate since OPC witness Biddy has projected five years of customer growth in his

-

1		determination of the used and useful percentage. Since Florida statutes require
2		imputation of this additional growth, it would also be appropriate for the Commission to
3		impute additional sales associated with the reuse lines if it does not adopt Mr. Biddy's
4		adjustment for non-used and useful associated with the reuse lines.
5		
6	Q.	DOES THAT COMPLETE YOUR TESTIMONY?

7 A. Yes it does.

#### **CERTIFICATE OF SERVICE DOCKET NO. 991643-SU**

I HEREBY CERTIFY that a copy of the foregoing Prefiled Testimony of Hugh Larkin,

Jr. has been furnished by U.S. Mail or \*hand-delivery to the following parties this 31st day of

July, 2000.
