VOTE SHEET

SEPTEMBER 5, 2000

RE: DOCKET NO. 991931-EG - Determination of appropriate method of recovery for the last core of nuclear fuel for Florida Power & Light Company and Florida Power Corporation.

<u>Issue 1</u>: What is the appropriate recovery mechanism for the cost of the Last Core?

Recommendation: The existence of the Last Core is the direct result of unit shut down, and there are numerous uncertainties surrounding the timing of unit shut down, actual cost associated with the Last Core, and future regulatory environment. Therefore, staff recommends that the associated costs be considered a base rate future obligation with recovery afforded through an unfunded reserve of nuclear decommissioning.
