Ms. Blanca S. Bayo, Director  
Division of the Commission Clerk  
And Administrative Services  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

021091-TL

Re: [REDACTED] REQUEST FOR NUMBERS

Dear Ms. Bayo:

In accordance with the expedited process established in order PSC-01-1973-PCO-TL (Docket No. 010782-TL), Verizon Florida Inc. (Verizon) requests the Florida Public Service Commission to direct the North American Numbering Plan Administrator (NANPA) to provide Verizon with [REDACTED] numbers in a [REDACTED] number block for St. Petersburg, Florida.

Verizon considers the highlighted information in this letter and attachments to be confidential because it contains the customer's name and the customer's planned use of the requested numbers. Verizon is obligated to protect the identity of the customer and competitors could use this information to gain an unfair competitive advantage. Therefore, this filing is made under a Claim of Confidentiality pursuant to F.S. 364.183(1) and Rule 25-22.006(5). Verizon understands the highlighted information must be kept confidential until returned to Verizon. To assist the Commission in processing this request, the name of the customer who initiated the request is Mr. [REDACTED]. Mr. [REDACTED] may be reached at [REDACTED].

[REDACTED], a Verizon customer, has requested a consecutive range of numbers from [REDACTED] to standardize and reduce confusion with their existing dialing plan, and to support the occupancy of a recently acquired office building in January. The [REDACTED] has informed Verizon these numbers will be used for direct dialing from various departments such as the [REDACTED], and others. Upon receipt of a new NXX and satisfying the customer's request, Verizon will donate any unused thousands blocks to the Pooling Administrator in support of number pooling currently being implemented in the 727 NPA.

On or about August 29, 2002, Verizon submitted a Central Office Code (NXX) Assignment Request to NANPA for the assignment of an NXX resource necessary to meet the customer's request. A copy of this application is attached as Attachment A. Verizon completed the application in accordance with NANPA's Central Office Code (NXX) Assignment Guidelines and filled out the necessary Months to Exhaust Certification, which is attached as Attachment B.

This claim of confidentiality was filed by or on behalf of a "telco" for Confidential DN 11748-02. The document is in locked storage pending advice on handling. To access the material, your name must be on the CASR. If undocketed, your division director must obtain written EXD/Tech permission before you can access it.

Page 2

Verizon submitted the request for a new central office (NXX) code because Verizon does not have \_\_\_\_\_ sequential numbers available within the St. Petersburg central office to meet the customer's needs. Although the St. Petersburg office is in the multi-switch rate center of St. Petersburg, Verizon is unable to use numbers from another switch within the rate center to satisfy the request.

On or about September 6, 2002, the NANPA Central Office Code Administrator denied the request on the grounds that Verizon had not met the rate center-based months-to-exhaust criteria set forth in the Central Office Code (NXX) Guidelines, notwithstanding the fact that Verizon does not have the numbering resources needed to satisfy its customer's demand in the switch at issue. This decision is attached as Attachment C.

Under earlier months-to-exhaust procedures used by NANPA, waivers or exceptions were granted where customer hardships were demonstrated or where the service provider's inventory did not have a block of numbers large enough to meet a customer's specific request. Under existing procedures, NANPA looks at the number of months to exhaust for the entire rate center without any exceptions. However, the FCC's December 12, 2001 Order in its Number Resource Optimization Report and Order, CC Docket No. 99-200, FCC No. 01-362, paragraph 64 states that a carrier "...should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request." Also, paragraph 64 states "States may not accommodate requests for specific numbers (i.e., vanity numbers), but may grant requests for customers seeking contiguous blocks of numbers." The Florida Commission thus has the authority to review NANPA's decisions and reverse them when appropriate.

Verizon seeks the Commission's review of NANPA's decision to withhold numbering resources. The CO Code Administration decision violates the intent and requirements of the FCC in allowing carriers access to numbering resources to meet specific customer demands upon a sufficient showing of need, and NANPA's denial of numbering resources interferes with Verizon's ability to serve its customers.

Verizon requests that the Commission instruct NANPA to release the numbering resources necessary to meet the needs of \_\_\_\_\_. Please do not hesitate to call me if you have any questions.

Sincerely,

Michelle A. Robinson  
Assistant Vice President  
Regulatory Affairs Florida

Explanation:

~~1. A copy of this worksheet is required to be submitted to the Code Administrator, for audit purposes, it must be in the applicant's files.~~

2. Report on all resources for the requested geographic area, including newly acquired codes.

3. Definitions of terms may be found in the Glossary section of the Central Office Code (NXX) Assignment Guidelines.

4. Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

5. Forecast of TNs needed in each following month, starting with the most recent month as Month #1. In a jeopardy situation, only 6 months growth projection is required.

6. To be assigned an additional CO Code (NXX) for growth, "Months to Exhaust" must be less than or equal to 6 months (FCC 00-104, § 52.15 (g) (3) (iii))

7. Newly acquired numbers (see glossary) may be excluded from the utilization calculation (FCC 00-104, § 52.15 (g) (3) (ii))

Please discard the Part 3 response.
