Communication has evolved.

May 20, 2002

Mr. Walter D'Haeseleer, Director Division of Competitive Markets and Enforcement Florida Public Service Commission 2540 Shumard Oak Blvd. Tallahassee, Florida 32399-0850

RE: Informal Complaint of Network Telephone Regarding BellSouth Marketing **Practices** 

Dear Mr. D'Haeseleer:

Attached please find a flyer that BellSouth distributed to a multi-line Pensacola business customer. Network Telephone has several issues with this ad:

25.13-7 /9.30 32.95 - 24.71

2 |16 |0 2 256 second. The rate of \$19.30 on the marketing piece is BellSouth's single-line price for Pensacola (Rate Group 6), less the 25% Key Customer discount. However, this flyer was given to a multi-line customer. The maximum discounted price for a multi-line customer in Pensacola is \$24.71, based on BellSouth's tariffed price and promotional discount. BellSouth's advertising is misleading.

- 2. The ad does not state that the price advertised is limited to single-line customers. In fact, BellSouth has implied otherwise by advertising free hunting on the same flyer. Hunting is only available to multi-line customers. In addition, according to the tariffed terms of the Key Customer promotion, customers must have minimum total billed revenue of \$75 monthly to be eligible. This minimum could easily be more than a single-line monthly bill.
  - 3. The ad states "save at least 25% off BellSouth local service tariffed rates" (emphasis added) when you sign up for a term agreement. The ad is misleading in this respect. The maximum that can be saved off of the tariffed local service charge is 25%, according to the promotion as filed with the FPSC.
  - 4. The ad is focused as a winback. "Come back to BellSouth" is used throughout the flyer. BellSouth advised the FPSC some time ago that it had ceased winback

Florida PSC May 20, 2002 Page Two

activities in Florida. The Key Customer Program is not couched as a winback plan in the tariff, and is not termed as applicable to customers only in competitive situations. It appears BellSouth may be offering the Key Customer promotion in a discriminatory manner to existing ALEC customers, rather than to the general body of eligible customers.

Network Telephone believes this type of advertising is misleading, is a violation of the tariff BellSouth has filed in Florida, and is being used as a winback campaign.

I would appreciate your investigation and appropriate action.

Sincerely,

Margaret H. Ring, Director

Mougaux V. Keny

Ms. Shawn Kelly Bureau of Service Evaluation Florida Public Service Commission 2450 Shumard Oakes Boulevard Tallahassee, Florida

RE: Network Telephone - CATS 457874T

Dear Ms. Kelly:

The information contained herein is considered customer proprietary information by BellSouth and should be kept confidential until such time as the customer permits release of the information.

This letter will address the "issues" Network Telephone raised in its May 20, 2002 letter regarding a flyer<sup>1</sup> that BellSouth Telecommunications, Inc. ("BellSouth") distributed to business customers in Pensacola.

Before addressing the four issues set forth in Network Telephone's letter, BellSouth would first like to note that the document attached to Network Telephone's letter – which Network Telephone represents is "a flyer that BellSouth distributed to a multi-line Pensacola business customer" – is incomplete. For one thing, the document attached to Network Telephone's letter consists of only two pages of the flyer. More importantly, although an asterisks appears after the phrase "Save at least 25%," and although a double asterisks appears after the phrase "that's just \$19.30 per line per month," the footnotes that are referenced by those asterisks are inexplicably missing from the document that is attached to Network Telephone's letter.

The flyer referenced in Network Telephone's letter addresses BellSouth's 2002 Key Customer Program, which is described in BellSouth's Florida General Subscriber Service Tariff ("GSST") A2.10.2.A.

Ms. Shawn Kelly June 19, 2002 Page 2

In order to set the record straight, BellSouth has attached, as Exhibit 1 to this letter, a copy of the flyer that BellSouth actually mailed to a Pensacola business and that the postal service returned to BellSouth as being undeliverable. As you will note, the top half of the document that is attached to Network Telephone's letter is identical to page 4 of BellSouth's flyer. The bottom half of the document that is attached to Network Telephone's letter is identical to page 5 of BellSouth's flyer with one notable — and inexplicable — exception: the bottom half of the document attached to Network Telephone's letter does not include the text of the footnotes that are set forth in the flyer BellSouth mailed to Pensacola businesses. No mention of critical omission is made anywhere in Network Telephone's letter.

As explained below, the footnotes that are missing from the document attached to Network Telephone's letter conclusively address most, if not all, of the "issues" presented in Network Telephone's letter.

- 1. Network Telephone alleges that BellSouth's flyer is "misleading" because the \$19.30 rate mentioned in the flyer "is BellSouth's single-line price for Pensacola (Rate Group 6), less the 25% Key Customer discount," but the "maximum discounted price for a multi-line customer in Pensacola is \$24.71 . . . . " The flyer, however, contains a double asterisks after the phrase "that's just \$19.30 per line per month," and the footnote referenced by that double asterisks plainly states that this "[a]mount is the single-line flat rate business line charge that applies for customers in specific areas of GA and FL, discounted by 25%. For FL customers, the charge for multiple lines is higher." (Emphasis added). The text of the footnote that is missing from the document attached to Network Telephone's letter, therefore, squarely addresses Network Telephone's first "issue."
- 2. Network Telephone alleges that the flyer "does not state that the price advertised is limited to single-line customers." As noted above, however, the flyer plainly makes that very statement in the footnote that is missing from the document attached to Network Telephone's letter.
- 3. Network Telephone alleges that the flyer is misleading because it states that customers can "save at least 25% off BellSouth local service tariffed rates" under a 36-month term agreement, but the "maximum that can be saved off the tariffed local service charge is 25%, according to the promotion as filed with the FPSC." This allegation, however, ignores the fact that the promotion that was filed with the Commission plainly states that tariffed "Line Connection Charges will be waived during the promotional sign-up period" and that "100% discount will be given on Rotary Service for a contract period of 36 months." See BellSouth's

Ms. Shawn Kelly June 19, 2002 Page 3

Florida General Subscriber Service Tariff ("GSST") A2.10.2.A. Consistent with these provisions in the tariff, the flyer states, on page 4, that customers signing a 36-month term agreement will get "free line installation" and "free hunting (rollover)" under the promotion. Thus, a customer that signs a 36-month term contract definitely will save 25% off the tariffed recurring monthly charges for services to which the promotion applies, and the customer may also receive additional savings by way of free hunting and free installation charges. The statement in the flyer that customer can save at least 25% off their monthly service when they sign a 36-month, therefore, is entirely accurate and not misleading.

4. Network Telephone alleges that the flyer "is focused as a winback" 2 and that "[i]t appears that BellSouth may be offering the Key Customer promotion in a discriminatory manner to existing ALEC customers, rather than to the general body of eligible customers." While it would be entirely appropriate for BellSouth to offer a promotion solely to new or former customers, the 2002 Key Customer Program simply is not such a program. BellSouth's tariff provides that the program is available to all business customer that are served from hot wire centers, see GSST A2.10.2.A, and in the text of the first footnote on page 5, the flyer provides that the promotion is "[a]vailable to new and existing BellSouth Small Business Customers" in specific areas of Florida. Moreover, BellSouth targets both new and existing business customers that meet the eligibility requirement in the marketing of the Key Customer Program, see Docket No. 020119-TP, BellSouth's Response to Staff's Second Set of Interrogatories, Item No. 4b, 4c, and BellSouth markets this promotion to both new and existing customers. See Docket No. 020119-TP. BellSouth's Response to Staff's Second Set of Interrogatories, Item No. 4a; BellSouth's Response to Staff's Second Request for Production of Documents, Item No. 5. In fact, Exhibit 2 to this letter is a copy of a flyer addressing this promotion that was sent to existing BellSouth customers in the

BellSouth does not know to what Network Telephone is referring when it alleges that "BellSouth advised the FPSC some time ago that it had ceased winback activities in Florida." In the context of the promotion addressed by Network Telephone's letter, however, this allegation is simply irrelevant. As explained below, BellSouth markets this promotion to both new and existing customers. In any event, BellSouth has never suggested that once it has lost a customer to an ALEC, BellSouth would cease making efforts to serve that customer again. Neither the law nor sound policy suggest that ALECs like Network Telephone should be insulated from having a competitor compete for a customer that it has won from that competitor.

Ms. Shawn Kelly June 19, 2002 Page 4

Pensacola area. Thus, Network Telephone's concern that BellSouth is not offering this promotion to its existing customers is simply unfounded.

We trust that the foregoing adequately addresses the fact that none of the "issues" set forth in Network Telephone's letter have any merit. If you need any additional information, please do not he sitate to contact me.

If you have any further questions, please do not hesitate to call.

Yours very truly,

Director-Regulatory Relations

# PROPRIETADECLASSIFIED

1	BELLSOUTH TELECOMMUNICATIONS, INC.
2	REBUTTAL TESTIMONY OF W. BERNARD SHELL
3	BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
4	DOCKET NOS. 020119-TP and 020578-TP
5	NOVEMBER 25, 2002
6	
7	Q. PLEASE STATE YOUR NAME, ADDRESS AND OCCUPATION.
8	
9	A. My name is W. Bernard Shell. My business address is 675 W. Peachtree St., N.E.
10.	Atlanta, Georgia. I am a Manager in the Finance Department of BellSouth
11	Telecommunications, Inc. (hereinafter referred to as "BellSouth"). My area of
12	responsibility is the development of economic costs.
13	
14	Q. ARE YOU THE SAME W. BERNARD SHELL THAT FILED DIRECT
15	TESTIMONY IN THIS DOCKET?
16	
17	A. Yes. I filed direct testimony on October 23, 2002.
18	
19	Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?
20	
21	A. The purpose of my testimony is to respond to the testimony of Ms. Danyelle
22	Kennedy, representing the Florida Competitive Carriers Association ("FCCA").
23	My testimony will address her claim regarding the waiver of installation charges.
24	
25	Q. ARE MS. KENNEDY'S ASSERTIONS CONCERNING INSTALLATION

#### PROPRIETARY

1		CHARGES CORRECT?
2		
3	A.	No. BellSouth evaluated the impact of the waiver of the installation charges in its
4		Key Customer offerings. The only installation charges waived by BellSouth are
5		the Line Connection charges contained in Section A4 of the General Subscriber
6		Service Tariff. The costs associated with these installation charges are included in
7		BellSouth's Key Customer margin analysis that is discussed in my direct
8		testimony, and the rates of the Key Customer service offerings are at or above
9		BellSouth's Total Service Long Run Incremental Cost ("TSLRIC") even with the
10		waiver of installation charges. Therefore, other customers or service offerings do
11		not subsidize the Key Customer offerings.
12		
13	Q.	PLEASE DESCRIBE THE ANALYSIS CONCERNING THE WAIVER OF
14		INSTALLATION CHARGES.
15		
16	A.	Installation charges (Line Connection charges as tariffed in Section A4 of the
17		Tariff) apply on a per customer request basis. For example, if a business customer
18		requests two lines, BellSouth would apply the appropriate charge for the first line
19		requested (\$56.00) and the additional line charge (\$12.00) for each additional line
20		requested at the same time to be provided on the same date on the same premises.
21		The costs associated with these installation charges were factored into the analysis
22		of the Key Customer offerings. Exhibit WBS-1, attached to my direct testimony in
23		this docket, demonstrates that the cost analysis includes the maximum per-line
24		Line Connection cost **(\$33.69)** because most customers who qualify for the

Key Customer offerings will have more than one line. The Line Connection costs

25

## PROPRIETARY

1		are the costs associated with the waived installation charges. If three or more lines
2		were used, the per-line cost would be less since the cost per additional line is less
3	•	than the cost for the first line. In other words, the additional line installed adds a
4		lower additional cost such that the per line average cost would be less. The
5		maximum per-line cost is then converted to a per-month, per-line cost by dividing
6		the maximum per-line cost by 36 months, which results in a per-month, per-line
7		cost of **\$0.94**. Thirty-six months was used since this is the term of agreement
8		required to receive the maximum percent discount used in this analysis. Exhibit
9		WBS-1 evaluated the 1FB basic business service ("1FB") to ensure that it would
10		be above cost in all rate groups when discounted at the maximum level. Because
11		the resulting monthly 1FB margins after discounting at the maximum level are
12		significantly more than the Line Connection per-month cost of **\$0.94**, it is
13		clear that the discounted 1FB is above cost, notwithstanding the waived
14		installation charges. Additionally, Exhibit WBS-3, attached to this testimony,
15		demonstrates that the margins for the individual rate elements or the margins
16		resulting from the development of a typical or minimal configuration are more than
77		the Line Connection per-month cost of **0.94**. Thus, all of the Key Customer
18		offerings are above cost.
19		
20	Q.	PLEASE DISCUSS MS. KENNEDY'S ASSERTION ABOUT WHOLESALE
21		NONRECURRING CHARGES.
22		
23	A.	Because Ms. Kennedy did not explain what nonrecurring rates she relied upon to
24		quote the wholesale charges of \$254.62 and \$132.69, it is difficult to address them.

However, Ms. Kennedy seems to be implying that there are numerous nonrecurring

25

## PROPRIETARY

1	charges that BellSouth waives in the Key Customer promotion. As I have
2	explained above, BellSouth only waives the installation charges contained in
3	Section A4 of the Tariff. BellSouth does not waive the service-specific
4	provisioning nonrecurring charges found in the same section of the tariff where the
5	recurring/monthly charges for a service are located. For example, MegaLink
6	Service has a service-specific provisioning nonrecurring charge of \$350.00 located
7	in section B7.1.3 of the tariff. This charge is not waived. The Key Customer
8	offerings do not waive the service-specific nonrecurring charges related to a
9	particular service.
10	
11	Exhibits WBS-1 and WBS-3 show that the rates for BellSouth's Key Customer
12	offerings are provided at or above TSLRIC after the waiver of the one-time
13	installation charge contained in Section A4 of the Tariff.
14	
15	Q. DOES THIS CONCLUDE YOUR TESTIMONY?
16	
17	A. Yes.
18	
19	
20	
21	
22	
23	
24	
25	

Exhibit WBS-3 Page 1 of 17

1		BELLSOUTH TELECOMMUNICATIONS, INC.
2		REBUTTAL TESTIMONY SAMUEL G. MASSEY
3		BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
4		DOCKET NOS. 020119-TP and 020578-TP
5		NOVEMBER 25, 2002
6		
7	Q.	PLEASE STATE YOUR NAME, YOUR POSITION WITH BELLSOUTH
8		TELECOMMUNICATIONS, INC. ("BELLSOUTH") AND YOUR
9		BUSINESS ADDRESS.
10		
11	A.	My name is Sam Massey. I am a Marketing Manager with BellSouth.
12		My address is 1057 Lenox Park Boulevard, Room 3D20, Atlanta,
13		Georgia 30319.
14		,
15	Q.	PLEASE PROVIDE A BRIEF DESCRIPTION OF YOUR BACKGROUND
16		AND EXPERIENCE.
17		
18	A.	I graduated from the Georgia Institute of Technology in Atlanta, Georgia
19		in 1987 with a Bachelor of Science degree in Industrial Management. I
20		completed my Masters Degree in Business Administration in 1989 at the
21		State University of West Georgia. I worked in BellSouth's Finance and
22		Forecasting organizations from May 1998 through February 2002. In
23		February 2002, I joined the BellSouth Strategic Analysis group of
24		BellSouth's Small Business Service unit as Manager of Competitive and
25		Strategic Analysis.

-1-

1		
2	Q.	WHAT IS THE PURPOSE OF YOUR TESTIMONY?
3		
4	A.	I will rebut various aspects of the direct testimony of Joseph Gillan,
5		Danyelle Kennedy, and Michael Gallagher, including their suggestions
6		that: local exchange competition in Florida is "in its infancy" and
7		BellSouth is in a position to "frustrate the emergence of competition"
8		(Gillan at p.2, Il. 3-4); BellSouth "still effectively enjoys monopoly status
9		in its incumbent territory" (Gallagher at p. 4, II. 10-12); BellSouth is
0		somehow using the January and June Key customer offerings to
11		"eliminate competition from the market" (Kennedy at p. 11, II. 12-14);
12		and the termination charges in the January and June Key Customer
13		offerings "lock-up' customers in the coffers of the dominant provider and
14		deter customers from freely migrating even if they find a better
15		provider." (Gallagher at p. 16, ll. 5-7).
16		
17		In particular, I present BellSouth's estimate of the percentage of the total
18		number of small business access lines in BellSouth's operating territory
19		in Florida that are being served by BellSouth. I also explain how
20		BellSouth prepared this estimate, and I address the number of access
21		lines that are receiving benefits under the January and June Key
22		Customer offerings.
23		
24		Competitors in Florida are winning all types of small business customers
75		in rapidly increasing numbers contrary to Mesers. Gillan and Gallagher's

FPSC-COMMISSION CLERK

1		suggestions otherwise. In fact, the percentage of the total number of
2		small business access lines in BellSouth's operating territory in Florida
3		that are being served by BellSouth has steadily decreased from
4		approximately 90% at the end of 1999 to approximately 71.5% in
5		September 2002. This hardly represents competition in its infancy or
6		monopoly status.
7		
8	Q.	WHAT IS BELLSOUTH'S ASSESSMENT OF THE OVERALL
9		COMPETITIVENESS OF THE SMALL BUSINESS MARKET IN
10		FLORIDA?
11		
12	A.	The market is highly competitive. Our competitors operate in a very
13		focused and targeted manner. They typically concentrate on small to
14		mid-sized businesses, and they typically offer their services in focused,
15		targeted geographic areas. In the areas in which they choose to
16		compete, our competitors are gaining significant numbers of small
17		business access lines, far from being "eliminated."
18		
19	Q.	WHAT IS THE BASIS FOR THAT STATEMENT?
20		
21	A.	Each month BellSouth uses retail information to develop an estimate of
22		the percentage of small business access lines in its operating territory in
23		Florida that BellSouth actually serves. The chart below shows this
24		percentage for the months of January 2000 through September 2002.
25		As evidenced by this chart, the percentage of these small business lines

	that are served by BellSouth has fallen from an overstated estimate of
!	90.0% at the end of 1999 to an overstated estimate of 71.5% in
<b>;</b>	September 2002. <sup>1</sup> SBS is currently losing between 0.3% and 0.4%
ļ	additional share points every month, which equates to roughly 3.6% to
5	4.8% annually. Clearly customers are able to migrate freely.

19		
20	Q.	WHAT KIND OF SMALL BUSINESS CUSTOMERS ARE LEAVING
21		BELLSOUTH TO BE SERVED BY BELLSOUTH'S COMPETITORS?
22		
23	A.	All kinds. A few examples of some of the small business customers that
24		have disconnected service with BellSouth to go to competitors include:
25		Outreach International, Vic Osman Lincoln-Mercury, Orlando Surgery

		- Harry California Brown a Baltimer Control Co
1		Center, Girl Scouts of Broward County, Canaveral Travel, and The
2		Brown Bag Catering. Customers like these are the lifeblood o
3		BellSouth's Small Business Services unit. As shown by this list
4		competitors are winning all types of small business customers. This is
5		the reason BellSouth's share of the small business market is at present
6		levels and declining rapidly, demonstrating clearly that competition is in
7		fact emerging.
8		
9	Q.	WHAT ACCOUNTS FOR THE SLIGHT INCREASE IN BELLSOUTH'S
10		PERCENTAGE OF THESE LINES BETWEEN MARCH 2002 AND MAY
11		2002 IN FIGURE 1?
12		
13	A.	During the March through May 2002 time period, Network Plus, ar
14		ALEC operating in Florida, Georgia, and North Carolina, wound down its
15		operations. Before it ultimately ceased operations in mid-May of 2002
16		its customers were forced to choose new local service providers. While
17		BellSouth retail units do not know how many access lines migrated from
18		Network Plus to BellSouth during this time period, there was a
19		noticeable increase in access lines installed during this time (as reflected
20		in Figure 1), and the migration of customers from Network Plus to
21		BellSouth likely caused that increase.
22		
23	Q.	HOW DID BELLSOUTH DEVELOP THE ESTIMATED PERCENTAGES
24		SET FORTH IN FIGURE 1?
25		

1	A.	Each month, BellSouth uses retail data to determine the total number of
2		BellSouth small business switched access lines in Florida ("BellSouth
3		Lines"). That number is divided by the sum of that number plus the net
4		of: (1) the cumulative number of BellSouth small business switched
5		access lines that have disconnected from BellSouth for what BellSouth
6		believes, based on retail information, are competitive reasons
7		("Cumulative Competitive Disconnects"); and (2) the cumulative number
8		of small business switched access lines that have come to BellSouth
9		from competitors ("Cumulative Lines Acquired from ALECs"). Stated in
10		formula form:
11		DallOanda I trans
12		BellSouth Lines
13		BellSouth Lines + (Cumulative Competitive Disconnects – Cumulative
14		Lines Acquired from ALECs)
15		
16		The resulting figure represents the estimated percentage of small
17		business switched access lines in BellSouth's operating territory that are
18		being served by BellSouth.
19		
20	Q.	HOW LONG HAS BELLSOUTH TRACKED DATA ON THE NUMBER OF
21		LINES IT HAS ACQUIRED FROM ALECS?
22		
23	A.	Since January 2000.
24		
25		

1	Q.	HOW CAN BELLSOUTH USE THE FORMULA DESCRIBED ABOVE IF
2		IT ONLY BEGAN TRACKING THE NUMBER OF LINES ACQUIRED
3		FROM ALECS IN JANUARY 2000?
4		
5	A.	BellSouth tracked competitive disconnects prior to January 2000, so
6		BellSouth knows the Cumulative Competitive Disconnects as of the
7		end of 1999. BellSouth used data on lines acquired from CLECs
8		during the year 2000 to estimate the Cumulative Lines Acquired from
9		ALECs as of the end of 1999.
11		
12 13 14 15 16		BellSouth calculated the ratio of Lines Acquired from ALECs in the year 2000 to Competitive Disconnects in the year 2000. BellSouth applied that ratio to the Cumulative Competitive Disconnects as of the end of 1999 to estimate the Cumulative Lines Acquired from ALECs as of the end of 1999.
18 19 20 21 22 23 24 25	Q.	WOULD IT NOT BE EASIER, AND PERHAPS MORE ACCURATE, TO USE WHOLESALE DATA TO ESTIMATE THE PERCENTAGE OF SMALL BUSINESS SWITCHED ACCESS LINES IN BELLSOUTH'S OPERATING TERRITORY THAT ARE BEING SERVED BY BELLSOUTH.

1	A.	Perhaps, but these estimates are prepared by a Bell-South retail unit,
2		and BellSouth's retail units do not have access to wholesale information.
3		Accordingly, no wholesale information was used to prepare these
4		estimates.
5		
6	Q.	WHAT IMPACT DOES THE USE OF ONLY RETAIL DATA HAVE ON
7		THE CALCULATIONS YOU HAVE DESCRIBED?
8		
9	A.	In all likelihood, BellSouth actually serves an even lower percentage of
10		the small business access lines in its operating territory in Florida than is
11		reflected in the estimates set forth in my testimony. This is the case for
12		at least two reasons.
13		
14		First, no new market growth is included in the estimates set forth in my
15		testimony. By "new market growth," I am referring to things such as:
16		small business customers leaving BellSouth for an ALEC and then
17		purchasing additional (or "growth") lines from the ALEC; brand new
18		small businesses ordering lines from ALECs; existing BellSouth small
19		business customers opening new locations and ordering service at those
20		locations from ALECs; and existing BellSouth small business customers
21		adding new lines at an existing location and purchasing those new lines
22		from ALECs. In each of these (and other similar) situations, the lines
23		that are being purchased never were with BellSouth. These lines,
24		therefore, are not included in BellSouth's market share calculations
25		because BellSouth has no retail information that indicates the existence

1		of these lines, and the result is that BellSouth overstates its share of the
2		small business market.
3		
4		Second, the competitive disconnects recorded by BellSouth SBS each
5		month do not include any lines that are disconnected because a current
6		customer has chosen to have some or all of its local service provided by
7		a wireless carrier.
8		
9	Q.	DOES THE CUMULATIVE COMPETITIVE DISCONNECT FIGURE
10		INCLUDE MIGRATION TO OTHER BELLSOUTH PRODUCTS (I.E.,
11		DATA PRODUCTS)?
12		
13	A.	No. Any migration to other products is handled through a change order
14		that does not appear as a competitive disconnect in the retail data
15		BellSouth uses in these market share calculations. Thus, when a
16		customer disconnects a switched access line and installs a new data
17		line, the disconnection of that switched access line is not included in the
18		number of competitive disconnects for that month.
19		
20	Q.	DO YOU HAVE INFORMATION SIMILAR TO WHAT YOU HAVE SET
21		FORTH IN FIGURE 1 FOR THE WIRE CENTERS THAT ARE
22		INCLUDED IN THE JANUARY AND JUNE KEY CUSTOMER
23		OFFERINGS?
24		
25		

1	A.	Yes. BellSouth's estimated share in each of these wife centers as
2		of September 2002, is set forth in Exhibits SGM-1 and SGM-2 to
3		my testimony. BellSouth tracked competitive disconnects prior to
4		January 2001, but did not track lines acquired from ALECS on a
5		wire center basis prior to January 2001. BellSouth used data on
6		lines acquired from CLECs during the year 2001 to estimate the
7 8		Cumulative Lines Acquired from ALECs as of the end of 2000.
9		
0		BellSouth calculated the ratio of Lines Acquired from ALECs in the year
1		2001 to Competitive Disconnects in the year 2001. BellSouth applied
2		that ratio to the Cumulative Competitive Disconnects as of the end of
3		2000 to estimate the Cumulative Lines Acquired from ALECs as of the
4		end of 2000.
5		
6		
17	Q.	HOW MANY SMALL BUSINESS ACCESS LINES ARE IN SERVICE IN
8		BELLSOUTH'S OPERATING TERRITORY IN FLORIDA?
9		
20	A.	Because BellSouth has no way of knowing how many access lines
21		ALECs actually are providing to small business customers in BellSouth's
22		territory, BellSouth can only estimate that number. As explained above,
23		the method by which BellSouth uses retail data to develop that estimate
24		understates the number of small business access lines being served by
25		ALECs. With that qualification, and based on retail data, BellSouth

1		estimates that as of September 2002, approximately 1,094,052 access
2		lines were serving small business customers in BellSouth's operating
3		territory in Florida. BellSouth was providing 782,048 of those lines
4		(71.5%), and BellSouth estimates that ALECs were providing 312,004 of
5		those lines (28.5%).
6		,
7	Q.	HOW MANY OF THESE ACCESS LINES ARE RECEIVING BENEFITS
8		UNDER THE JANUARY OR JUNE KEY CUSTOMER OFFERINGS?
9		
10	A.	As of September 13, 2002, 89,208 of BellSouth's small business access
11		lines were receiving benefits under the January Key Customer offering,
12		and 23,092 of BellSouth's small business access lines were receiving
13		benefits under the June Key Customer offering. The combined total of
14		approximately 112,300 lines that are receiving benefits under the
15		January and June Key Customer offerings represent less than 15% of
16		the 782,048 small business access lines served by BellSouth in Florida,
17		and it represents less than 11% of the 1,094,052 total small business
18		access lines that BellSouth conservatively estimates are in service in
19		BellSouth's operating territory.
20		
21	Q.	WHAT PERCENTAGE OF LINES THAT ARE ELIGIBLE FOR THE
22		JANUARY AND JUNE KEY CUSTOMER OFFERINGS ARE ACTUALLY
23		RECEIVING BENEFITS UNDER THE JANUARY AND JUNE KEY
24		CUSTOMER OFFERINGS?
25		

1	A.	As of August 30, 2002, approximately 617,961 of BellSouth's small
2		business access lines in Florida were eligible for the June Key Customer
3		offering. Accordingly, the combined total of approximately 112,300 lines
4		that are receiving benefits under the January and June Key Customer
5		offerings represent less than 19% of the BellSouth's small business
6		access lines that are eligible to participate in the offerings.
7		
8	Q.	PLEASE SUMMARIZE YOUR TESTIMONY.
9		
10	A.	Even calculations that overstate BellSouth's market share show that
11		BellSouth has lost almost 30% of its small business access line market
12		share in the state of Florida, and BellSouth is continuing to lose market
13		share at the rate of more than 0.3%-0.4% percentage points each
14		month, which equates to roughly 3.6% to 4.8% annually. BellSouth
15		share of the market is significantly lower in many wire centers. There
16		can be no doubt that competition is thriving in the state of Florida.
17		
18	Q.	DOES THIS CONCLUDE YOUR TESTIMONY?
19		
20	A.	Yes.
21		
22		
23
