**Taylor Energy Center need determination hearing set for
Wednesday**

TALLAHASSEE — The Florida Public Service Commission (PSC) will conduct a need determination hearing Wednesday for a proposed electrical power plant in Taylor County, Florida.

This hearing provides the utilities, other interested parties, and the public the opportunity to present evidence and testimony concerning the need for the proposed plant. As part of the need determination process, the PSC must consider the need for electric system reliability and integrity, the need for adequate electricity at a reasonable cost, the need for fuel diversity and supply reliability, and whether the proposed plant expansions are the most cost-effective alternative available.

Only issues relating to the need for the proposed power plant will be addressed at this hearing. All members of the public who wish to offer testimony should be present at the beginning of the hearing set for the following time and location:

Wednesday, January 10, 2007

9:30 a.m.

Betty Easley Conference Center
Joseph P. Cresse Hearing Room (Room 148)
4075 Esplanade Way
Tallahassee, Florida

Environmental impacts and other issues related to the proposed plant and associated facilities will be considered by other agencies in separate public hearings.

The PSC is committed to making sure that Florida's consumers receive their electric, natural gas, telephone, water, and wastewater services in a safe, affordable, and reliable manner. The PSC exercises regulatory authority over utilities in the areas of rate base/economic regulation; competitive market oversight; and monitoring of safety, reliability, and service.

**Taylor Energy Center need determination hearing set for
Wednesday**

TALLAHASSEE — The Florida Public Service Commission (PSC) will conduct a need determination hearing Wednesday for a proposed electrical power plant in Taylor County, Florida.

This hearing provides the utilities, other interested parties, and the public the opportunity to present evidence and testimony concerning the need for the proposed plant. As part of the need determination process, the PSC must consider the need for electric system reliability and integrity, the need for adequate electricity at a reasonable cost, the need for fuel diversity and supply reliability, and whether the proposed plant expansions are the most cost-effective alternative available.

Only issues relating to the need for the proposed power plant will be addressed at this hearing. All members of the public who wish to offer testimony should be present at the beginning of the hearing set for the following time and location:

Wednesday, January 10, 2007

9:30 a.m.

Betty Easley Conference Center
Joseph P. Cresse Hearing Room (Room 148)
4075 Esplanade Way
Tallahassee, Florida

Environmental impacts and other issues related to the proposed plant and associated facilities will be considered by other agencies in separate public hearings.

The PSC is committed to making sure that Florida's consumers receive their electric, natural gas, telephone, water, and wastewater services in a safe, affordable, and reliable manner. The PSC exercises regulatory authority over utilities in the areas of rate base/economic regulation; competitive market oversight; and monitoring of safety, reliability, and service.

Re: Docket No. 060635-EU

Dear Ms. Raeppe:

This will acknowledge receipt of a petition for determination of need for electrical power plant in Taylor County by Florida Municipal Power Agency, JEA, Reedy Creek Improvement District, and City of Tallahassee, which was filed in this office on September 19, 2006, and assigned the above-referenced docket number. Appropriate staff members will be advised.

Mediation may be available to resolve any dispute in this docket. If mediation is conducted, it does not affect a substantially interested person's right to an administrative hearing. For more information, contact the Office of General Counsel at (850) 413-6248 or FAX (850) 413-7180.
