RE: Docket No. 060253-WS; Utilities, Inc. of Florida's Application for Rate Increase in Marion, Orange, Pasco, Pinellas and Seminole Counties, Florida
Our File No. 30057.108

Dear Ms. Cole:

Commission Order No. PSC-07-0505-SC-WS required that Utilities, Inc. of Florida verify that the Commission Ordered Adjustments had been made on its books and records. Enclosed is a copy of the bookkeeping entries reflecting the Commission Ordered Adjustments. Utilities, Inc., is undergoing the implementation of a new accounting system, which is delaying the Utility actually booking the Commission Ordered Adjustments. The Utility expects the new accounting system to be functional by the end of this week, at which time the COAs will actually be booked to the Utility's books and records. We will file that confirmation when the adjustments have been made.

Should you have any questions, please do not hesitate to contact me.

Very truly yours,

MARTIN S. FRIEDMAN
For the Firm

ALAFAYA UTILITIES, INC.
DOCKET NO. 060255-SU
ORDER NO. PSC-07-0082-PAA-SU
COMMISSION ORDERED ADJUSTMENTS NOTES

(1) WSC Rate Base

Consult the last affiliated transactions audit in Florida to see what was removed from rate base, and make the necessary adjustments as pro formas to your rate base, as these are not items that we would book, since they are allocations and not on the books of a specific company. As of 03/21/07, the last affiliated transactions audit in Florida was done in Docket No. 060253-WS. Refer to pages 10 and 11 of the order mentioned above.

(2) ERC Methodology

Allocations for Florida for codes one, two, three, and five have to be changed so that they don't reflect customer equivalents. They can only reflect ERCs, and allocations have to be calculated on ERCs only. Refer to page 5 of the order mentioned above.
