Docket No.: _____

Filed: January 11, 2008

AT&T FLORIDA'S PETITION TO CHANGE DEMARCATION POINT

BellSouth Telecommunications, Inc. d/b/a AT&T Florida ("AT&T Florida") hereby requests the Florida Public Service Commission ("Commission") to grant, pursuant to and as contemplated by Rule 25-4.0345(1)(b) ("the Rule"), Florida Administrative Code, permission for AT&T Florida to provide service at a different demarcation point, than as specified in the Rule, for basic local telecommunications service to future unit owners at the condominium building to be constructed at 1000 S. Ocean Boulevard, Boca Raton, Florida 33432 (referred to as "1000 Ocean"), owned by BRE/Point Parcel, LLC ("BRE/Point Parcel"), for the reasons set forth below. Specifically, AT&T Florida seeks the following:

1. AT&T Florida is a local exchange company lawfully doing business in the State of Florida whose regulated operations are subject to the jurisdiction of this Commission pursuant to Chapter 364, Florida Statutes.

2. AT&T Florida's principal place of business is 675 W. Peachtree St., NE, Suite 4500, Atlanta, GA 30375. Pleadings and process may be served upon:

3. Pleadings and process for BRE/Point Parcel may be served upon:

4. Rule 25-4.0345(1)(b), Florida Administrative Code, sets forth the required location, unless otherwise ordered by the Commission for good cause shown, for the point of physical interconnection between the telephone network and the customer's premises wiring, or the demarcation point.

5. Rule 25-4.0345(1)(b)(2) requires that the demarcation point for a single line/multi-customer building be located within the customer's premises at a point easily accessed by the customer.

7. Upon information and belief, BRE/Point Parcel owns 1000 Ocean. See Exhibit "A" attached hereto.

8. BRE/Point Parcel has requested a single point of demarcation for AT&T Florida services at 1000 Ocean. See Exhibit "B" attached hereto. BRE/Point Parcel has advised that it wants the demarcation point for AT&T Florida's services to be located in the main telephone room for 1000 Ocean.

9. AT&T Florida fully supports the existing Rule but is requesting the approval for good cause – in order to provide basic local telecommunications service to unit owners at 1000 Ocean given BRE/Point Parcel's requested demarcation point.

10. Thus, to the extent AT&T Florida needs the Commission to approve a different demarcation point for basic local telecommunications service to 1000 Ocean, this Petition requests approval for "good cause shown" under the Rule.

WHEREFORE, AT&T Florida requests that, having demonstrated good cause for the relief requested herein, the Commission grant its Petition.

Respectfully submitted this 11th day of January, 2008.

Dear (Property Owner)

Per Title 47 of the Code of Federal Regulations, Part 68.3, the Federal Communications Commission (FCC) requires telecommunications carriers to fully inform property owners of available options for location of the point(s) of service demarcation. The purpose of this letter is to provide you with such information and to serve as a record of your choice in this matter.

The above referenced rule permits the carrier to adopt a uniform policy of locating all tenants' service demarcation points at the Minimum Point of Entry (MPOE) of the property. If the carrier does not adopt such a policy, the property shall decide whether to:

1. Allow the carrier to establish multiple points of demarcation, each point typically located within each tenant's premises; or,
2. Require the carrier to locate all tenants' demarcation points at a single point on the property, typically at the MPOE.

BellSouth **has not** adopted a MPOE policy. Therefore, as the Property Owner or authorized agent of the Owner, you may choose one of the two options described above and listed below. If the Owner chooses MPOE demarcation, an exception to the general Florida Public Service Commission Rule (Rule 25-4.0345) requiring demarcation in each customer's premises will be necessary.

Please sign the appropriate box below indicating your election. Note that once demarcation points have been established, rearrangement of services, either to or from a MPOE demarcation point, is likely to involve considerable expense to the party requesting such rearrangement. Therefore, Owner is encouraged to carefully consider alternatives and to seek assistance from BellSouth, legal counsel, the Florida Public Service Commission or any other source if questions arise. BellSouth will provide a copy of this letter of election to state and federal regulatory agencies or other entities upon request.

Property Owner desires and elects that BellSouth, in consultation with the Owner and individual tenants, will establish multiple demarcation points at the subject property, each located as close as practicable to where BellSouth's wiring enters each tenant's premises. It is acknowledged and understood that BellSouth will install, maintain, repair and own all telecommunications cable and equipment required to provide BellSouth services to the various tenant demarcation points.

Property Owner desires and elects that BellSouth establish a single point of demarcation for all tenants' services at the MPOE. Owner acknowledges and understands that BellSouth shall have no obligation to install, maintain or repair any telecommunications wiring or equipment between the MPOE and tenants' premises; and that such responsibility rests with the Owner and/or tenants. It is understood that this election is subject to the Florida Public Service Commission granting an exception to its general rule (Rule 25-4.0345) requiring demarcation in each customer's premises.
