Bernie did the memo - Document # 11243-08 - and he recommended that the document is not confidential because the referenced contract has been declassified. This cross-references with 02875-04.

While I agree with Bernie that the information is not confidential, I don't want to create pointless controversy. The transportation rates for 2004 through 2007 are no longer relevant and we know what the rates are from the earlier declassified document - 02875-04. So Document # 05963-08 can be returned to the company.

Lisa or Anna, please let me know if this is a problem.

Pete,

It is my understanding that the above-referenced document, which is the Confidential version of portions of TECO's responses to staff's 2nd set of POD's, number 9, can be returned to the company. Have those documents been returned? If so, we will not prepare an Order for the prehearing officer's signature.
