	Page 1 of 1	

Emergency Plan – Fuel Shortage Emergencies

At such time as all needed Utilities Commission electric generation equipment is in use, fuel supplies at all needed facilities shall be monitored closely. Generation personnel shall notify the Director of System Operations & Generation or the Purchasing Department whenever supplies reach the point where additional fuel can be accommodated. Should the Purchasing Department notify the Director of System Operations & Generation that the purchase of additional fuel is not possible, a Fuel Shortage Emergency may be declared.

The Director of System Operations & Generation will the notify the Florida Reliability Coordinating Council (FRCC) State Capacity Emergency Coordinator (SCEC) that a Fuel Shortage Emergency has been declared and that fuel supplies to the Utilities Commission may be interrupted. The SCEC will advise the System Operations Department what resources are available, either through purchased power schedules, or emergency fuel supplies. Should there be no relief available, the Director of System Operations & Generation shall notify the Director of Electric Operations that action may necessary under the *Emergency Response Plan – Capacity and Energy Emergencies (NSB-EOP-010)*.
