whether to add Town of North Redington Beach as an interested party. I note that the town's resolution did not request that they be added as an interested party. However, the town made the following request to have its resolution made part of the hearing record:

IT IS THEREFORE, RESOLVED:

That the Town of North Redington Beach opposes the request for an increase in the Progress Energy base rate, and asks that this position be made part of the hearing record of the Public Service Commission.

On that, I will defer to Katherine on how best to address the town's resolution.

Ms. Salmon,

OPC is a party in PSC Docket 090079. As a party in that docket, when OPC files anything with the PSC, they provide copies of those documents to all the parties in the docket. They apparently have you listed as a party and have included you on their mailing list to receive those documents. Your contact information has been removed from the PSC data base. You will not receive anything further from the Clerk's office in that docket. However, if anyone else has you listed on their own mailing lists, at their office, you will continue to get copies of filings from them until such time as you let them know you do not wish to receive them. Though I understand your concern, there is nothing further we can do to prevent others from sending you copies of documents in that docket.

Ms. Salmon,

OPC is a party in PSC Docket 090079. As a party in that docket, when OPC files anything with the PSC, they provide copies of those documents to all the parties in the docket. They apparently have you listed as a party and have included you on their mailing list to receive those documents. Your contact information has been removed from the PSC data base. You will not receive anything further from the Clerk's office in that docket. However, if anyone else has you listed on their own mailing lists, at their office, you will continue to get copies of filings from them until such time as you let them know you do not wish to receive them. Though I understand your concern, there is nothing further we can do to prevent others from sending you copies of documents in that docket.

Have a good weekend.

Would I be correct in presuming that PEF would not object to providing the information to other interveners provided an appropriate confidentiality agreement were in place? The positions of other parties were not revealed in the motion, and from FIPUG's perspective, it would be helpful to know the answer to the above question. Regards, Jon

Ms. Costello:

The attached e-filing appears to be a duplicate of an e-filings received from you at 1:14 p.m. and again at 1:25 p.m., on 4/15/09. The actual document being filed references Dockets 090079, 090145, and 090144. According to the e-mail transmittal page, it appears that you are filing the document three times so that a copy will be placed in all three dockets separately. Since the actual document being filed references all three document numbers, the first filing will be entered in all three dockets. Filing it three times will place the letter in all three dockets three times. As such, the filings received at 1:21 p.m. and 1:25 p.m. will not be accepted as official filings.
