To: Mayors and Chief Executive Officers of Counties Librarian, County Library

Re: Docket No. 080366-GU, Petition of Florida Public Utilities Company for an Increase in Rates Charged to Natural Gas Customers

On December 17, 2008, Florida Public Utilities Company filed a Petition for Rate Relief with the Florida Public Service Commission ("FPSC") seeking an increase in its rates and charges for natural gas service. As part of the review process, the FPSC requires that the Company prepare a synopsis of the rate request and distribute it to the main county library within the service area of the utility and to the chief executive officer of each county and municipality in the service area. In compliance with that requirement, enclosed herein is a copy of the Synopsis prepared by Florida Public Utilities Company which we ask that you make available to the public for review if requested.

Questions concerning this petition and process may be referred to the Florida Public Service Commission at 1-800-342-3552.

Sincerely yours,

Norman H. Horton, Jr.

NHH/amb Enclosures DOCUMENT NUMBER - CATE

FLORIDA PUBLIC UTILITIES COMPANY

RATE CASE SYNOPSIS

DOCKET NO. 080366-GU

Florida Public Utilities Company (the "Company") is a natural gas utility providing gas service and gas transportation service to customers in Broward, Marion, Martin, Palm Beach, Seminole, and Volusia counties. The Company is headquartered in West Palm Beach and has offices in DeBary and Inglis.

On December 17, 2008, the Company filed a request for a rate increase with the Florida Public Service Commission ("Commission") seeking both a permanent and interim increase in rates. In this proceeding, the Company is requesting a permanent increase of \$9,917,690 and an interim increase of \$984,504. Under Florida law, the Commission regulates the rates, charges and service provided by natural gas utilities in Florida and will review the request filed by the Company.

The Company is requesting this increase because it continues to experience sharply rising costs and expenses associated with the provision of gas service. In order to continue to provide efficient, sufficient and adequate facilities and services and earn a fair, reasonable return on its investment, relief is necessary.

Along with the impacts of the current economic conditions facing the entire country, costs have increased significantly over the last several years. Despite the Company's efforts to keep expenses down, many are beyond the control of the Company. The Company has experienced increases in pension costs, medical insurance, compliance programs and maintenance and, higher costs associated with the inflationary impacts to our operating expenses and new and replacement utility plant. Since the last case rate base has increased by more than 14 million dollars and to maintain the level of service, there is a need for further additions to and replacement of existing facilities.

The major issues to be considered by the Commission in this case will include the determination of the proper rate base, net operating income (to include a determination of the legitimate and prudent operating expenses), earned rate of return, fair and reasonable rate of return, the proper rate structure, and the quality of service provided by the Company.

The Company is entitled by law to be given the opportunity to earn a reasonable return on its property used and useful in the public service. The Company's existing rates and charges are inadequate to provide fair and reasonable compensation for the services it provides to the public. The Company achieved an overall rate of return of 6.64% for the year ended December 31, 2007. In the absence of any rate relief, the Company's overall rate of return is projected to further deteriorate. The existing return denies the Company the financial strength and integrity necessary to maintain and improve the Company's quality of service to customers and to extend that service to more customers.

In setting the appropriate rates for a utility, the Commission utilizes a test year to evaluate the request. In this request, Florida Public Utilities Company has presented its case for increased rates on a projected test year for the calendar year 2009, based on an historic test year of 2007. The Company has filed a detailed set of financial and accounting schedules, called Minimum Filing Requirements or MFRs, with the Commission using actual and projected data for these test periods. Additionally, the Company has prefiled testimony and exhibits of several witnesses addressing and supporting the development of rate base, capital structure, achieved and required net operating income, adjustments to expenses and rate base, tariff changes, quality of service and other issues which affect the operations and earnings of the Company. The MFRs, testimony and exhibits demonstrate that additional base revenues of \$9,917,690 annually are necessary on a permanent basis. The requested permanent revenue increase would give the Company the opportunity to earn a fair and reasonable rate of return on 8.74%, including a return on equity of 11.75%, plus or minus 100 basis points, on a projected 2009 average rate base of \$73,747,220.

The Company has also requested that the Commission approve interim rates that would generate additional base revenues of \$984,504 annually, during the pendency of the rate case. The Commission is required to act on this interim rate request within sixty (60) days of the Company's filing. The Commission staff reviewed the request for interim relief and prepared a recommendation for the Commission that was considered at a regular public agenda conference on February 10, 2009. The Commission granted the Company's interim rate request. Any interim rate increase authorized by the Commission is subject to refund, with interest, to the extent ultimately found by the Commission not to be justified.

To produce the requested permanent revenue, the Company has submitted revised tariff schedules which include increases in several rate schedules. The adjustments to the tariffs are based on a cost of service study conducted by the Company that served as a general guide for setting the levels of each schedule. The specific impact of the proposed revisions will vary between customers depending on usage but for comparison, a residential customer using 20 therms currently would pay \$ 33.67 including a purchased gas adjustment of 80 cents per therm. If the proposed charges in this docket are approved, a residential customer using 20 therms will pay a monthly bill of \$ 38.56 including the purchased gas adjustment of 80 cents per therm. The purchased gas adjustment varies from month to month based on the cost of fuel.

A comparison of present and proposed rates is attached. Also attached is a copy of the Executive Summary filed as part of the Company's rate application.

Pursuant to Florida law, the Company has chosen to have the request for a permanent rate increase processed under the Commission's Proposed Agency Action procedures. Under this procedure, the staff of the Commission will conduct a detailed review and investigation of the Company's request for permanent rate relief and will perform an audit of the Company's books. They may also request additional data from the Company. In addition, the Commission will conduct customer meetings in West Palm Beach, Ocala, and Delton to take comments from customers on the Company's quality of service and on other matters pertaining to the Company's

rate request. Following completion of this investigation and the customer meetings, the Commission staff will make a recommendation to the Commission on what rate relief, if any, should be granted. The Commission will act on its staff's recommendation at another Agenda Conference in Tallahassee within five months after the Company's petition was filed. The Commission is currently scheduled to consider the permanent rate request on May 5, 2009.

In addition to the Commission Staff, the Office of Public Counsel has intervened in this docket and will be reviewing the documents and data filed by the Company as well as additional information which may be developed by Staff as a result of an audit of the request or as a result of submission of additional information filed as a result of requests from the Commission or Office of Public Counsel. The Office of Public Counsel may be contacted at: Office of Public Counsel, c/o The Florida Legislature, 111 West Madison St., Room 812, Tallahassee, FL 32399-1400.

After the Commission votes on the Company's rate request, it will issue an Order on Proposed Agency Action containing its findings and conclusions. Substantially affected persons have twenty-one (21) days after the written order is issued to decide whether to accept the Commission's decision or to request a formal hearing. If no party protests the order, the Commission's decision becomes final, the new rates go into effect, and the case is closed. If there is a protest, the case will proceed to a formal hearing process, which must be completed within eight months after the date the protest was filed.

After June 19, 2009, if the Commission has not taken action or if a protest is filed by a party other than the Company, the Company has the right to place its requested permanent rates in effect, subject to refund, until the case is concluded.

Customer meetings have been scheduled in West Palm Beach, Ocala, and Deltona as follows:

March 26, 2009, 4:00 p.m. Florida Department of Environmental Protection Southeast District Office 400 N. Congress Avenue, Suite 200 West Palm Beach, Florida 33401

Marion County Commissioners Auditorium McPherson Government complex 601 SE 25th Avenue Ocala, Florida 34471

April 2, 2009, 11:00 a.m.

April 2, 2009, 6:00 p.m. City of Deltona City Commission Chambers, City Hall 2345 Providence Blvd. Deltona, Florida 32725

Customers are urged to be present at the beginning of the meeting, since customer meetings may be adjourned once all customers present have been allowed to speak. One or more Commissioners may be present at the customer meetings.

The following is the current rate case schedule established by the Commission that contains all the critical events and dates. This schedule is subject to change by the Commission.

Customer meeting, West Palm Beach	March 26, 2009
Customer meeting, Ocala	April 2, 2009
Customer meeting, Deltona	April 2, 2009
Standard Order on Interim Rates	March 2, 2009
Audit Report Due	March 9, 2009
Staff Recommendation on Final Rates	April 23, 2009
Agenda Conference on Final Rates	May 5, 2009
Proposed Agency Action Order on Final Rates	May 26, 2009

More detailed information on the Company's proposed rate increase is contained in the complete minimum filing requirements, located at the following Company offices:

401 South Dixie Highway West Palm Beach, Florida 33401-5886 (561) 832-0872

50 SE Diana Street Inglis, Florida 34449 (352) 447-2790 450 South Highway 17-92 DeBary, Florida 32713 (386) 668-2600

Additionally, a copy of these documents is available for review at the Headquarters of the Marion County Public Library located at:

2720 E. Silver Springs Boulevard Ocala Florida, 34470 (352) 671-8551

Inspection of the filing at any of the Company's offices may be conducted during normal business hours (8:00 a.m. -5:00 p.m., Monday - Friday) and at the library during their regular hours.

Any customer comments regarding the Company's service or the proposed rate increase should refer to Docket No. 080366-GU, which is the docket number for this case and be addressed to:

Commission Clerk, Office of Commission Clerk Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

For your information, we are also providing the address and telephone number of the Florida Public Service Commission's Division of Service, Safety and Consumer Assistance:

> Division of Service, Safety and Consumer Assistance Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

1-800-342-3552 (Toll Free Number)

Company personnel may be contacted to answer questions concerning the rate request at the address shown on your gas service bill, or by calling one of the company offices listed above.
