AFFIDAVIT
REQUESTING CONFIDENTIAL TREATMENT OF FINANCIAL INFORMATION

1. Metropolitan Telecommunications of Florida, Inc. ("MetTel"), through their attorney, hereby requests the Florida Public Service Commission ("Commission") afford confidential treatment of the financial information submitted with its 2011 Local Competition Data Request.

2. In support of said request, the following information is provided.

3. The access line information submitted with its 2011 Local Competition Data Request contains commercially sensitive information regarding the company's operations. The disclosure of this information in the context of the above-captioned docket or otherwise could provide MetTel's competitors with valuable insight into the company's financial structure and planned operations. Because this represents highly confidential and strictly proprietary information, the disclosure of which to the public, including competitors, could result in direct and immediate harm to the competitive position of MetTel, there is a genuine need to seek non-disclosure of this information.

4. While the Commission needs to review this information, the general public has no direct or substantive interest in this information.

5. MetTel's competitors also do not require this information other than to gain potential competitive advantage or to use the information in an *unfair and potentially anti-competitive* manner.

6. The enduring policies of the state have been to encourage and support competition in telecommunications. Essential to the proper workings of that policy is the

maintenance of a level playing field in which competitors are made to compete on their own merits relative to price, service quality, innovation and customer service. Allowing access to one competitor's commercially sensitive information runs contrary to these principles and, hence, would not serve the public interest.

7. The information sought to be protected has not been made public in any other forum or jurisdiction.

8. Accordingly, MetTel respectfully request the Commission afford confidential treatment of the financial information submitted with its 2010 Local Competition Data Request.
