Docket No. 110280-TL

Filed: September 26, 2011

**PETITION FOR EXPEDITED REVIEW OF GROWTH CODE DENIAL**

BellSouth Telecommunications, LLC<sup>1</sup> d/b/a AT&T Florida ("AT&T Florida"), pursuant to 47 C.F.R. § 52.15(g)(iv), Federal Communications Commission ("FCC") Order FCC 00-104, and Florida Public Service Commission ("Commission") Order No. PSC-01-1973-PCO-TL, petitions the Commission to review the Pooling Administrator's ("NeuStar") denial of AT&T Florida's request for additional numbering resources in the Ft. Lauderdale exchange. In support of this petition, AT&T Florida states:

**PARTIES**

1. AT&T Florida is a limited liability company organized and formed under the laws of the State of Georgia and an incumbent local exchange company ("ILEC") providing local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NeuStar is an independent non-governmental entity, which is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

**JURISDICTION**

3. The Commission has jurisdiction of this matter pursuant to Industry Numbering Committees (INC) Number Pooling Guidelines Sections 3.7 and 12(c). This

<sup>1</sup> Effective July 1, 2011, BellSouth Telecommunications, Inc. was converted to BellSouth Telecommunications, LLC by operation of Georgia law.

DOCUMENT NUMBER-DATE  
06956 SEP 26 =  
FPSC-COMMISSION CLERK

provision provides that a carrier may challenge NeuStar's decision to deny numbering resources to the appropriate regulatory authority.

#### **BACKGROUND AND REQUEST FOR RELIEF**

4. The Ft. Lauderdale exchange consists of twelve (12) central offices and thirteen (13) switching entities that utilize numbering resources: Airport (FTLDFLMARSO), Coral Ridge (FTLDFLCRDS0), Cypress (FTLDFLCYDS0), Jacaranda (FTLDFLJADS0), Main Relief (FTLDFLMRDS0), Oakland (FTLDFLOADS0), Plantation (FTLDFLPLDS0), Sawgrass (FTLDFLSGDS0), Sunrise (FTLDFLSU74E and FTLDFLSUH12), Weston (FTLDFLWNDS0), Hollywood Main (HLWDFLMADS0), and Pembroke Pines (HLWDFLPEDS0).

5. On September 22, 2011, AT&T Florida requested additional numbering resources from NeuStar for the Sunrise (FTLDFLSU74E) switch. See Attachment 1. Specifically, AT&T Florida requested a full NXX to establish a test code for its new remote switch that will be replacing the 1AESS switch in Sunrise. The code will be returned approximately 1 year after it is effective. AT&T Florida needs an unused NPA NXX and is unable to use a donated block from another switch since the new switch will need a home code assigned to the switch.

6. At the time of the code request, the Ft. Lauderdale exchange had a MTE of 102.23 and a utilization of 61.38%, while the MTE for the Sunrise (FTLDFLSU74E) switch was 116.78.

7. On September 22, 2011, NeuStar's automated number request system denied AT&T Florida's request for additional numbering resources because AT&T Florida had not met the utilization based criteria. See Attachment 1. Pursuant to

Commission Order No. PSC-01-1973-PCO-TL, attached to this Petition is the MTE and utilization rate for each switch in the Fort Lauderdale exchange. See Attachment 2.

8. As discussed above, both the FCC Order and the INC guidelines provide that state regulatory authorities have the power and authority to review NeuStar's decision to deny a request for numbering resources. See INC Number Pooling Guidelines Sections 3.7 and 12(c).

9. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NeuStar nor NANPA looks at the number of MTE and utilization for the entire rate center without exception. The current process is arbitrary and results in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

10. AT&T Florida requests that the Commission reverse NeuStar's decision to withhold numbering resources from AT&T Florida on the following grounds:

(a) NeuStar's denial of numbering resources to AT&T Florida interferes with AT&T Florida's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent LEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to meet customer demand for telephone service. The FCC's rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple

switches. AT&T Florida believes that it is patently unfair to require that the ILEC only get six (6) MTE in all the switches it has deployed in a rate center, when the CLECs have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

WHEREFORE, AT&T Florida requests:

1. The Commission review the decision of NeuStar to deny AT&T Florida's request for additional numbering resources for the Ft. Lauderdale exchange; and
2. The Commission direct NeuStar to provide the requested numbering resources for the Ft. Lauderdale exchange as discussed above.

Respectfully submitted this 26th day of September 2011.

AT&T FLORIDA
