DOCKET NO. 110001-EI  
ORDER NO. PSC-11-0492-CFO-EI  
ISSUED: October 25, 2011

ORDER GRANTING CONFIDENTIAL CLASSIFICATION TO PORTIONS OF  
GULF POWER COMPANY'S 423 FORMS FOR JULY 2011  
(DOCUMENT NO. 07022-11)

On September 28, 2011, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Gulf Power Company (Gulf Power) filed a request for confidential classification of certain information submitted by Gulf Power on its FPSC Form 423 Fuel Report for the month of July 2011 (the "423 Report"). (Document No. 07022-11). This request was filed on in Docket No. 110001-EI.

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Paragraphs (3)(d) and (e) of Section 366.093 F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

Gulf Power contends that the information contained in information submitted by Gulf Power on its 423 Report for the month of July 2011, as more specifically described in the table in Attachment A, falls within these categories and, thus, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. Gulf Power states that this information is intended to be and is treated by Gulf Power as private and has not been publicly disclosed.

Gulf Power contends that a portion of the information contained in its 423 Report constitutes proprietary confidential business information concerning bids and other contractual data, the disclosure of which would impair the efforts of Gulf Power to contract for goods and services on favorable terms. Gulf Power contends that this information is entitled to confidential classification pursuant to section 366.093(3)(d) and (e), Florida Statutes. Further, Gulf Power states that the confidential information consists of pricing for coal and related transportation services purchased by Gulf Power. Gulf Power states that it, and the counterparties involved in these transactions, consider the foregoing information to be confidential and competitively

sensitive. Gulf Power asserts that disclosure of this information could negatively impact its ability to negotiate pricing favorable to its customers in the future. In addition, Gulf Power states, potential counterparties may refuse to enter into future contracts with it, or may charge higher prices, if the confidential information is publicly disclosed.

### **Time Period For Confidential Classification**

According to Section 366.093(4), F.S., confidential classification may only extend for 18 months from the issuance of an Order granting confidential classification unless “the Commission finds, for good cause, that the protection from disclosure shall be for a specified longer period.”

### **Ruling**

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 07022-11 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless Gulf Power or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Ronald A. Brisé, as Prehearing Officer, that Gulf Power’s Request for Confidential Classification of Document No. 07022-11 is granted. It is further

ORDERED that the information in Document No. 07022-11 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Ronald A. Brisé, as Prehearing Officer, this 25th day of October, 2011.

This information is considered confidential and competitively sensitive by Gulf Power's coal suppliers. Additionally, disclosure of this information, in conjunction with the information disclosed under other columns in this filing, would enable coal suppliers to determine the prices being charged by their competitors. This, in turn, could lead to less competitive pricing and impact Gulf's ability to bargain for price concessions with its coal suppliers. This information is confidential pursuant to section 366.093(3)(d)-(e), Florida Statutes.
Plant Crist, lines 1-5 Plant Smith, lines 1-3 Plant Scholz, line 1 Plant Daniel, lines 1-3	(h)	The Effective Transport Charges represent per ton transport charges incurred by Gulf to transport coal to its plants. Disclosure could also result in reduced ability for Gulf Power to bargain for price concessions from individual suppliers. This information is confidential pursuant to section 366.093(3)(d)-(e), Florida Statutes.
