VIA HAND DELIVERY

Ms. Ann Cole, Commission Clerk Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

Re:

Docket No. 120001-EI: Fuel Cost Recovery Clause with Generating Performance Incentive Factor

Docket No. 120002-EG: Energy Conservation Cost Recovery Clause

Docket No. 120007-EI: Environmental Cost Recovery Clause

Dear Ms. Cole:

Enclosed for filing in the above-referenced dockets are an original and seven (7) copies of the Parties' Stipulation and Settlement Agreement dated July 17, 2012.

Thank you for your assistance in this matter. Please feel free to call me at (727) 820-5184 should you have any questions.

Sincerely,

John T. Burnett

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

Recovery Clause with Generating Performance Incentive Factor.	DOCKET NO. 120001-EI
In re: Energy Conservation Cost) Recovery Clause.)	DOCKET NO. 120002-EG
In re: Environmental Cost)	DOCKET NO. 120007-EI
Recovery Clause.	FILED: July 17, 2012

STIPULATION AND SETTLEMENT AGREEMENT

This Stipulation and Settlement Agreement ("Agreement") is entered into by and between Progress Energy Florida, Inc. ("PEF"), Tampa Electric Company ("TECO"), Gulf Power Company ("Gulf"), Florida Power & Light Company ("FPL"), Florida Public Utilities Company ("FPUC"), Florida Industrial Power Users Group ("FIPUG") and Office of Public Counsel ("OPC"), collectively the "Parties" this 17th day of July, 2012.

WITNESETH:

WHEREAS, investor-owned electric utilities ("IOUs") regulated by the Florida Public Service Commission (the "Commission") from time to time are authorized by the Commission to recover a return on capital investments through the fuel and purchased power cost recovery clause, the conservation cost recovery clause and the environmental cost recovery clause (the "Clauses") in dockets established annually for the purpose of administering and approving matters related to the Clauses; and

DOCUMENT NUMBER-CATE

FPSC-COMMISSION CLERK

WHEREAS, the Commission traditionally has authorized for such purpose a return based on the jurisdictional capital structures and cost rates for each component of the capital structure approved in each IOU's most recent base rate case order; and

WHEREAS, the Commission Staff has expressed concern that as time passes subsequent to an IOU's most recent base rate order the IOU's actual jurisdictional capital structure and cost rates for components in that capital structure become different from those that were approved in the IOU's most recent base rate proceeding; and

WHEREAS, the Parties have differing views on whether any modification of the traditional methodology for calculating the return on Clause-approved investments is needed; and

WHEREAS, notwithstanding these differences in views, in order to resolve their differences and achieve a mutually acceptable settlement, the Parties stipulate and agree to utilize a new methodology for calculating the allowable return on Clause approved investments, subject to the Commission's approval of that methodology; and

WHEREAS, the Parties recognize and acknowledge that section 120.80(13)(a) of the Florida Statutes exempts Commission statements that relate to cost-recovery clauses, factors, or mechanisms implemented pursuant to Chapter 366 of the Florida Statutes, relating to the IOUs, from the rulemaking provisions of section 120.54(1)(a) of the Florida Statutes.

NOW, THEREFORE, in consideration of the foregoing and the covenants contained herein, the undersigned parties hereby stipulate and agree as follows:

1. Upon final Commission approval of this Agreement, the IOUs will utilize the following methodology for calculating the allowable return on Clause-approved investments:

- (a) The calculation of the allowable return on Clause-approved investments for the 2012 Actual/Estimated and Final True-up will remain under the current methodology (*i.e.*, the rate of return is based on the jurisdictional capital structures and cost rates for each component of the capital structure that were approved in an IOU's most recent order authorizing base rates issued prior to the effective date of this Agreement).
 - (b) Beginning with the 2013 cycle of Clause-recoverable expenses, all IOUs will use the following methodology:
 - (i) For the Projection Filing, use the May Earnings Surveillance Report ("ESR") Weighted Average Cost of Capital ("WACC") for the calendar year in which the filing is made (e.g., for the 2013 Projection which is made in August/September of 2012, the May 2012 ESR would be used; for the 2014 Projection which is made in August/September of 2013, the May 2013 ESR would be used, and so on).
 - (ii) For the Actual/Estimated True-up Filing, use the May ESR WACC from the prior calendar year for January June of the year being trued-up, and the current calendar year May ESR WACC for July December of the year being trued-up (e.g., for the 2013 Actual/Estimated True-up Filing which is made in August/September 2013, the May 2012 ESR would be used for January June and the May 2013 ESR would be used for July December; for the 2014 Actual/Estimated filing which is made in August/September 2014, the May 2013 ESR would be used for January June and the May 2014 ESR would be used for July December; and so on). The monthly accounting on the books and records of the utility would be performed consistent with this methodology.

- (iii) For the Final True-up Filing regarding a particular calendar year use the same WACCs that were used for the Actual/Estimated True-up Filing regarding that same particular calendar year.
- (c) The term WACC as used above is meant to reflect the capital structure ratios and associated cost rates when calculating the revenue requirement rate of return. The proportions of the various components of the capital structure (including common equity) and cost rate information for all components of the capital structure other than ROE contained on Schedule 4 (Midpoint Average Rate of Return FPSC Adjusted Basis) of the relevant ESR as described above shall be utilized to arrive at the relevant WACC. The equity components shall also be grossed up for the statutory income tax rate. The cost rates for the components of the capital structure other than common equity shall be the actual cost rates shown in the ESR. The cost rate for common equity will be the last authorized rate of return on equity ("ROE"). In the past there have been instances where the Commission authorized a specific ROE for projects being recovered through a clause. To the extent the Commission issues an order authorizing an ROE different from the midpoint on Schedule 4 of the relevant ESR for a particular clause or project within a clause, that ROE will be used to calculate the relevant WACC.
 - (d) Exceptions to Section (1)(b) above,
 - (i) In the event that a base rate decision² is rendered by the Commission subsequent to the period captured by the relevant May ESR to be used in Section

¹ In calculating the WACC for a Clause-approved investment, the proportion of ITC in the capital structure shall reflect the amount of ITC approved by the Commission for financing that investment. (Reference Commission Order PSC-10-0153-FOF-EI, page 106).

² The parties agree that the term "base rate decision" encompasses any decision by the Commission that determines or approves by settlement or through a litigated case the ROE and/or capital structure that will be used for setting and evaluating an IOU's base rates.

- (1)(b), then the Commission's decision on the cost of capital and capital structure as reflected in the order implementing the base rate decision (the "Order") will supersede the actuals used in the May ESR from the effective date of the Order, until the next actual May ESR after the effective date of the Order.
- (ii) PEF will be allowed to exclude its CAIR investments from the application of the new method in 2013 and will be allowed to continue use of the current method on those investments in setting clause rates for 2013. This is consistent with the intent of the Settlement and Stipulation which transfers those investments to base rates effective with the first billing cycle for 2014.

The new methodology set forth above is illustrated on Attachment A hereto.

2. The Parties recognize that an IOU's current actual overall cost of capital at any given point in time may be higher or lower than the overall rate of return approved by the Commission in the IOU's most recent base rate proceeding. It is the intent of the Parties that the new methodology prescribed herein for more closely tracking and utilizing the IOU's current actual overall cost of capital in calculating the allowed return on Clause-approved investments is appropriate for use without regard to whether the resulting return is higher or lower than that approved in the IOU's most recent base rate proceeding. Accordingly, no Party will challenge the justness or reasonableness of the new methodology or the appropriateness of the WACC reflected in the May ESRs used thereunder in any Clause proceedings; provided, however, that any Party may challenge a mathematical error that it contends has been made in calculating the WACC in an ESR. It is contemplated that a party who believes that the WACC presentation in the ESR is inconsistent with the most recent base rate proceeding may provide the basis for this

belief to Commission Staff for evaluation in the Staff's role in monitoring the IOU's ESR compliance.

- 3. The provisions of this Agreement are contingent on approval of this Agreement in its entirety by the Commission. The Parties further agree that they will support this Agreement and will not request or support any order, relief, outcome or result in conflict with the terms of this Agreement in any administrative or judicial proceeding relating to, reviewing or challenging the establishment, approval, adoption or implementation of this Agreement or the subject matter hereof.
- 4. The Parties shall support the approval of this Agreement by the Commission at the earliest possible time in order to facilitate the implementation of the new methodology for calculating the allowable return on Clause investments, starting with projections of Clause factors for 2013 that are scheduled to be filed in the above-referenced dockets in August and September 2012. To accomplish this end while also clearly stating the Commission's continuing support for using the new methodology in subsequent Clause dockets unless and until modified by the Commission, the Parties respectfully request that the Commission take the following steps:
- (a) enter an order in each of the above-referenced dockets attaching and approving this Agreement for application to the 2013 projected Clause factors that will be filed by the IOUs in August and September 2012; and
- (b) attach and approve this Agreement in the final order issued in each of the abovereferenced dockets, with such final order (i) restating and affirming the Commission's conclusion in Order No. PSC-94-0044-FOF-EI that "potentially controversial and time consuming evidentiary debates regarding the appropriate capital structure and ROE should be the subject of

proceedings [other than the clause proceedings]" and (ii) confirming the appropriateness of the WACC calculation methodology set forth in this Agreement for application to the calculation of projected Clause factors, actual/estimated true-ups of Clause factors and final true-ups of Clause factors in all subsequent Clause dockets unless and until modified by the Commission.

- 5. This agreement shall survive the closure of Docket Nos. 120001-EI, 120002-EG and 120007-EI, shall apply in future annual dockets established for the Clauses and shall remain in effect until the Commission modifies or rescinds the order approving this Agreement, whether on its own motion or as a result of a motion or petition by a party to this stipulation or another substantially affected person.
- 6. In the event the Commission rejects or modifies this Agreement in whole or in part, the Parties agree this Agreement is void unless ratified by the Parties, and that each Party may pursue its interests as those interests exist, and no Party will be bound by or make reference to this Agreement before this Commission, any court, any other administrative forum or arbitration panel.
- 7. This Agreement dated as of July 17, 2012 may be executed in counterpart originals, and a facsimile of the original signature shall be deemed an original.

IN WITNESS WHEREOF, the Parties evidence their acceptance and agreement with the provisions of this Agreement by their signatures below.
