Dear Mr. Griffin:

By this letter, the Commission staff requests that Gulf Power Company (Gulf or utility) provide responses to the following data requests.

- In 2010, the Commission began measuring goals on an annual basis. However, some FEECA 1. utilities did not have their new programs approved until late 2010. Please use the attached table to provide the following:
 - Using the former 2004 goals measuring system as a baseline, please provide the cumulative demand and energy savings achieved in 2006 - 2009. All savings reported should be at the generator.
 - For the 2010 and 2011 periods, please show annual goal achievements using Gulf's current goals established in 2009. All savings reported should be at the generator.

If the company failed to meet its Commission approved goals in the Residential or Commercial/Industrial sector, please provide the following:
 - Identify the name of the programs that did not meet their projected participation levels which in turn resulted in underachieving targeted goals.
 - Identify the name of any the programs that exceeded their projected participation levels.
 - What actions will Gulf take to increase the participation rate in its under performing programs to meet the Commission-approved goals?
- 3. Please use the chart below to provide the annual number of Residential and Commercial/Industrial energy audits performed by Gulf during the 2010-2011 periods.
