Subject: FW: Records Request per FPSC and LP Waterworks
Date: Wednesday, July 03, 2013 2:26:33 PM

Becky,

I need to have this e-mail added to the docket file for LP Waterworks. Docket No. 130153-WS.

Thanks,

From: Paul Vickery

Subject: RE: Records Request per FPSC and LP Waterworks

Ms. Penick,

I checked with my staff and they are amenable to July 26, 2013. Hopefully, that is sufficient time to complete gathering the requested data.

Happy 4th,

Paul Vickery

Mr. Vickery, I am compiling the response package in relation to the correspondence from your desk dated 06/20/13 regarding the LP Utility System. As you are aware, the recent purchase of the LP system by LP Waterworks, Inc., was conducted as an asset purchase. Under that scenario the purchasing party does not always receive all past historical documents and we are reaching out to previous owner and also past O&M providers to the system to request some of the historical information.

We would like to ask for your consideration in providing a brief time extension to our response that is due back to your office on Friday 7/5. If that is not possible, the majority of the requested data is

compiled and we could forward partial completion and indicate certain items to follow.

Please advise as to your preference, or as to what is acceptable.

We appreciate all consideration on behalf of the LP Utility System.

Respectfully,

Victoria Penick
