Re: Docket No. 140051-GU - 2014 depreciation study by Florida City Gas.

Dear Ms. Stauffer:

Attached for filing, please find Florida City Gas's Responses to Staff's First Set of Data Requests in the referenced docket.

Thank you for your assistance in connection with this filing. If you have any questions whatsoever, please do not hesitate to let me know.

Sincerely,

Beth Keating

Florida City Gas 2014 Depreciation Study – Docket No. 140051-GU RESPONSES TO STAFF'S FIRST SET OF DATA REQUESTS

Data Request 1:

Are there any recovery and amortization schedules in effect? If yes, please provide the information as described in Rule 25-7.045(6)(c), Florida Administrative Code (F.A.C.).

RESPONSE

No.

Data Request 2:

Rule 25-7.045(6)(d), F.A.C., requires a comparison of the book reserve to the theoretical reserve. It appears that only the book reserve was included in the 2014 Study. Please provide the book to theoretical reserve comparison for the individual companies as well as for the composite filing, as described in Rule 25-7.045(6)(d), F.A.C.

<u>RESPONSE</u>

Please review 'Attachment D' located in the '2013 Staff Recommendation Data Sheets-revised for Schedule D' Excel file for a comparison of book reserve to the theoretical reserve.

Data Request 3:

Rule 25-7.045(6)(g), F.A.C., requires a company to include numerical data of plant activity (gross additions, adjustments, retirements, and plant balance at end of year) as well as reserve activity (retirements, accruals for depreciation expense, salvage, cost of removal, adjustments, transfers and reclassifications and reserve balance at end of year) for each year of activity from the date of the last submitted study to the date of the present study. Please provide the above information for each account addressed in the 2014 Study.

RESPONSE

Extension requested – Due Wed April 16.

Data Request 4:

Rule 25-7.045(6)(e), F.A.C., requires a general narrative describing the factors, e.g. growth, technology, physical conditions, leading to the present application to which depreciation rates are to be applied. Please provide the information required by this rule.

RESPONSE

In response to Staff's Data Request No. 4, the Company offers the following general description of the reasons for its request to change its depreciation rates, which would supplement the narrative provided with its Depreciation Study filing of March 11, 2014:

As noted in its initial filing, the Company last filed a depreciation study in March 2008, but thereafter refiled an updated version of the study in March 2009 at the request of Commission Staff. The current depreciation rates were approved by Order No. PSC-09-0835-PAA-GU, issued in Docket No. 080182-GU and made effective as of January 1, 2009.

The Company's Study is submitted in keeping with Rule 25-7.045(8)(a), F.A.C., which requires gas utilities to file a comprehensive depreciation study at least once every five years from the submission date of the previously filed study. Having reviewed activity data by account, the Company now believes it necessary to revise its depreciation rates. Generally, the changes in activity which have prompted FCG to request changes to its depreciation rates are associated with: (1) increased service extensions and facility upgrades to serve new customers; (2) increased conversions from propane to natural gas; and (3) replacement of facilities as well as key technology investments that will help the Company manage certain compliance and repair functions. Other factors necessitating the rate changes include age recalculation by plant account and correction of reserve positions by transfers to appropriate accounts. The most notable changes are tied to: (1) the Company's installation of 30 miles of underground transmission pipeline from South Bay in Palm Beach County through Clewiston in Hendry County; (2) its acquisition and extension of a 25 mile natural gas Jet Fuel Line that runs from Miami International Airport to Homestead Air force Base; and (3) service expansions into the Towns of Fellsmere, Vero Beach, Clewiston and Hendry County.

Overall, the Company's March 2014 Depreciation Study demonstrates the prudence of FCG planning, including additions and retirements, technological impacts, retirement and salvage practices, and other related activities.

Data Request 5:

Rule 25-7.045(7)(a), F.A.C., requires utilities to provide calculations of depreciation rates using both the whole life method and the remaining life method. The Company appears to have included depreciation rates using only the remaining life method. Please provide calculations of depreciation rates using the whole life method.

RESPONSE

Please review 'Attachment D' located in the '2013 Staff Recommendation Data Sheets-revised for Schedule D' Excel file for a depreciation rates using whole life method.

¹Asset 1031 - NBV Report from PowerPlant CPR

²CIAC 376,99 Applied to 376,20 - Mains Plastic

³Retirement backlog from the GIS group adjusted on a Pro Forma basis based on data received from their records. The correction was booked in

⁴It was determined that retirements booked in 2009-2013 timeframe were applied to new vintages. A correction was done to unretire the new vintages and apply the retirements to older vintages. These adjustments are applied on a pro forma basis. The corrections were booked in PowerPlant in 02/14.

⁵It was determined that retirements booked in 2009-2011 timeframe were applied to new vintages. A correction was done to unretire the new vintages and apply the retirements to older vintages. These adjustments are applied on a pro forma basis. The corrections were booked in PowerPlant in 02/14.

⁶High pressure mains serving single industrial customers previously classified as Transmission Mains were reclassified to 376.1 Mains Other Than Plastic. The transfer was booked in PowerPlant in 02/14 and shown here on a proforma basis.

⁷The RWIP balance as of 12/31/13 is applied to utility account reserves per the PowerPlant Project Management module using activity ids that map to FERC utility account.

⁸Assets were transferred between the sub-accounts of 391 (i.e. Furniture, Enterprise Software and Office Machines & Equipment). This was booked in PowerPlant in 02/14 and shown here on a pro forma basis.

⁹The over-depreciated reserve balance of \$252,451 was redistributed to 391.3 from 397. This was booked in PowerPlant in 02/14.
