Re: Proposed Revision to Rule 25-6.035, F.A.C., Adequacy of Supply

Dear Richard:

The following sentence could be inserted into the rule instead of revising the rule as has been proposed. The insertion would be made in front of that part of the rule which the Staff proposed to retain, the one sentence reads:

“The planned reserve margin herein established is to maintain equitable reserve sharing among electric utilities, not to set a prudent level of reserves.”

My understanding is that this course of action is satisfactory to the representative of FMPA and the FRCC. I also understand that Ms. Kauffman will be or may be making revisions.

Very Truly Yours,

Matthew M. Childs, P.A.
