Dear Public Service Commission PSC,,

Florida Power & Light gets a \$649.6 million tax cut and wants to reward its investors, not its customers?

I've had enough of FPL's corporate greed and I deserve lower electric rates.

As a Floridian age 50+, I'm fed up that Florida Power & Light is getting a massive tax cut and is passing those savings to shareholders.

Customers across the U.S. have enjoyed lower bills as a result of a tax savings. We should too.

In Florida we experience the need for higher energy bills almost every single month of the year. Climate change has added to our increased needs as temperatures rise. For the customer, there is no low-season any longer.

Our health equates to the amount of electricity that we can afford each month. We say the same thing about affording food and medicine. What would you say to your grandparents who have to make those difficult choices?

With skyrocketing healthcare, housing prices and minimal increases in Social Security, a decrease in monthly bills add up for people like me.

We need lower rates, now!

Sincerely,

Ms. Sharon Kegeles
