Subject: RE: 20190000 LARI (25-30.457) Rule Development, Update

For the record I am opposed to the specific language in the newly numbered Paragraph 11 that requires a “projected rate of return on equity that would result if the petition is granted.”

I have discussed this concern with OPC as it places a higher burden on the utility and there are many unknown items that may affect this projection.

Subject: 20190000 LARI (25-30.457) Rule Development, Update

Good Morning All,

Attached please find an update to OPC’s proposed revisions to rule 25-30.457 that we made after discussions with Troy Rendell and in consideration of comments from Marty Friedman. Additionally, we have included two additions to the rule that Troy suggested and OPC does not have concerns with, they are new paragraphs (14) and (15).
