Subject: RE: PSC Docket No. 20200176 - Say No to Duke CEC

Good Morning, Kathryn Coutcher

We will be placing your comments below in consumer correspondence in Docket No. 20200176-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399

Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

the Public Service Commission to disapprove Duke's Clean Energy Connection program and to let Big Corporations pay for their own solar installations - not vulnerable and low-income communities that are already struggling to pay their bills.

PSC Docket No. 20200176 - Say No to Duke CEC Message

I'm a Duke Energy customer and a member of the Sierra Club. I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy. Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

I am encouraging the collective Public Service Commission to not approve Duke's Clean Energy Connection program. Big Corporations are more than capable of paying for their own solar installations. DO NOT place this burden on the vulnerable and low-income communities. They are already struggling to pay their bills. You have been given the authority to do right by the citizen. Corporations already receive sufficient benefits from the State of Florida.
